When it came to teaching what he knew, he was tireless, generous, and exacting. For the first time, Medra was given a vision of magic not as a set of strange gifts and reasonless acts, but as an art and a craft, which could be known truly with long study and used rightly after long practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and sorcery was not much greater than his pupil's, but he had clear in his mind the idea of something very much greater, the wholeness of knowledge. And that made him a mage..sleep with on a cold night. I'll be glad to pay you, mistress, if two coppers would suit, and my."He's not too well," she said, speaking low. "He was curing the cattle away out east over the marsh, in the cold, for days on end, and wore himself out.".again. A great, desolate anger swelled up in him. There was no good, no good in anything..made no objection. She turned her long, creamy-white nose and beautiful eyes to look at her rider..The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a

wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater. "I didn't mean to offend you. It's just that, you see, if it is known that no one can -- you." "This is not a teller's tale, mistress. This is not a story you will ever hear anyone else tell. Still it rankled him that Diamond had let him down flat, without a word of thanks or apology. So much for good manners, he thought. The evil reputation magic had gained during the Dark Time, however, continued to cling to many of the practices of sorcerers and witches. Women's powers were particularly distrusted and maligned, the more so as they were conflated with the Old Powers. "Dragons have been seen flying above the Inmost Sea. Roke has no Archmage, and the islands no true-. A chill ran through her. The water ran cold. Gathering herself together, her limbs still soft and. That is not what the otter was thinking as it swam fast down the Yennava. It was not thinking anything much but speed and direction and the sweet taste of river water and the sweet power of swimming. But something like that is what Medra had been thinking as he sat at the table in his grandmother's house in End-lane, talking with his mother and sister, just before the door was flung open and the terrible shining figure stood there. He said only, "But not among the students." "Did you talk at all to Master Hemlock?" and a powerful mage when he faced the dragon Orm. There Medra walked with Elehal, on the white pavement, before there were any walls built round it. Not long after that he had given Silence the staff he had made for him, Gontish oak. could not rouse him. "He is dead," he said. "The breath will not leave him, but he is dead." So we then. The thought of the ship and the chained men in her swallowed his mind as the black sea had. "Oh, yes, since he's cured half the herds and got paid six coppers for it, time for him to go." "I was new at the business of being Archmage then. And younger than the man we fought, and maybe not afraid enough of him. It was all the two of us could do to hold our own against him, there in the silence, in the cell in the tower. Nobody else knew what was going on. We fought. A long time we fought. And then it was over. He broke. Like a stick breaking. He was broken. But he fled away. The Summoner had spent a part of his strength for good, overcoming that blind will. And I didn't have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And not a shred of power left in me to follow him with. So he got away from Roke. Clean gone." "Waris and several other men. And they are men, and they make that important beyond anything else." "You felt nothing?" it? You learn what you're doing while you do it. People were seated quickly, no one had luggage. Not. They're coming," the Doorkeeper said. Men were coming through the gardens and up the path from the Great House, all the mages, many of the students. Leading them was Thorion the Summoner, tall in his grey cloak, carrying his tall staff of bone-white wood, about which a faint gleam of werelight hovered. Each True Rune has a significance, a connotation or area of meaning, which can be more or less defined in Hardic; but it is better to say that the runes are not words at all, but spells, or acts. Only in the syntax of the Old Speech, however, and only as spoken or written by a wizard, not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the word or the rune fully release its power. A quarrel between brothers over their inheritance divided them. One heir mismanaged his estate through greed, the other through foolishness. One had a daughter who married a merchant and tried to run her estate from the city, the other had a son whose sons quarrelled again, redividing the divided land. By the time the girl called Dragonfly was born, the domain of Iria, though still one of the loveliest regions of hill and field and meadow in all Earthsea, was a battleground of feuds and litigations. Farmlands went to weeds, farmsteads went unroofed, milking sheds stood unused, and shepherds followed their flocks over the mountain to better pastures. Diamond sat in his own sunny room upstairs, on his comfortable bed, hearing his mother singing as she went about the house. He held the wizard's letter and reread the message and the two runes many times. The cold and sluggish mind that had been born in him that morning down in the shallows accepted the lesson. No magic. Never again. He had never given his heart to it. It had been a game to him, a game to play with Darkrose. Even the names of the True Speech that he had learned in the wizard's house, though he knew the beauty and the power that lay in them, he could let go, let slip, forget. That was not his language.
