detail, so it may be great for both you and your entire life. pride, his one great shining moment but also his sinful pride. Clubbed with the trophy first, fists later. And now, here..This was different earthquake weather from that of ten days ago, when he'd made the pie deliveries alone. Then: blue sky, unseasonable warmth, low humidity. Now: low gray clouds, cool air, high humidity..Barty had never been instructed in the rules of grammar, but had absorbed them as the roots of Edom's roses absorbed nutrients. "Sure. Does and is." "Mrs. Lampion, in a case like this, I've found that the greatest mercy is directness. Your son has retinoblastoma. A malignancy of the retina." She tried to raise her right hand, but it flopped uselessly and would not respond..The musician's behavior required explanation. After wending through the crowd, Junior located the man in front of a painting so egregiously beautiful that any connoisseur of real art could hardly resist the urge to slash the canvas to ribbons..be entombed in one of those memorial walls, well above ground level, where nothing was likely to seep into them..Devil mountains, sacred islands, sacramental rivers and cities, Jesuits: These spiritual references at every turn made Junior uneasy. This was a haunted night, no doubt about that. He wouldn't have been greatly surprised if he had glanced at his rearview mirror and seen Thomas Vanadium's blue Studebaker Lark Regal closely tailing him, not the real car raised from Quarry Lake, but a ghostly version, with the filthy-scabby-monkey spirit of the cop at the wheel, an ectoplasmic Naomi at his side, Victoria Bressler and Ichabod and Bartholomew Prosser and Neddy Gnathic in the backseat: the Studebaker packed full of spirits like a bozo-stuffed clown car in a circus, though there would be nothing funny about these revenge-minded spooks when the doors flew open and they came tumbling out..Friday morning, Junior resigned his position as a physical therapist at the rehabilitation hospital. He expected to be able to live well off interest and dividends for the rest of his life, because his tastes were modest..Outside, he turned to look at the display windows. He expected to see the candlestick, supernaturally apparent only from this side of the glass, but it wasn't there. Throughout the autumn, Junior read book after book about ghosts, poltergeists, haunted houses, ghost ships, s?ances, spirit rapping, spirit manifestation, spirit writing, spirit recording, trance speaking, conjuration, exorcism, astral projection, Ouija-board revelation, and needlepoint.."What are you strongest in?".When she was finished with the dishtowel, she returned to the dining room, and though dinner was underway, she called for another toast. Raising her glass, she said, "To Maria, who is more than my friend. My sister. I can't let you talk about what I've given you without telling your girls that you've given back more. You taught me that the world is as simple as sewing, that what seem to be the most terrible problems can be stitched up, repaired." She raised her glass slightly higher. "First chicken to be come with first egg inside already. God bless."..From his motel room, he telephoned Hanna Rey in Bright Beach. She still looked after his house on a part-time basis, paid the bills from a special account while he traveled, and kept him informed about events in his hometown. From Hanna, he learned that Barty Lampion's eyes had been lost to cancer..Worse than the tenderness in the bones, the bleeding gums, the headaches, the ugly bruises, worse than the anemia-related weariness and the spells of breathlessness, was the suffering that her battle caused to those whom she loved. More frequently as the days passed, they were unable to conceal their worry and their sorrow. She held their hands when they trembled. She asked them to pray with her when they expressed anger that this should happen to her-of all people, to her, and she wouldn't let them go until the anger was gone. More than once, she pulled sweet Angel into her lap, stroked her hair, and soothed her with talk of all the good times shared in better days. And always Barty, watching over her in his blindness, aware that she would not be dying in all the places where she was, but taking no consolation from the fact that she would continue to exist in other worlds where he could never again be at her side..Relieved but still wary, he toured the small house again to be sure doors and windows were locked..Striving to appear casual, but obviously unnerved, the pencil-thin man backed off again. "The paintings are lovely, wonderful, I'm enormously impressed. I'm a friend of the artist's, you know. She was a tenant of mine, I was her landlord during her early college years, in her salad days, a nice little studio apartment, before the baby. A lovely girl, I always knew she'd be a success, it was so apparent in even her earliest work. I just had to come tonight, even though a friend's covering two of my four sets. I couldn't miss this."..As the last of the flan was served and Maria's girls took their seats once more, Barty blinked at the candles and said, "Gone now," even though the tiny spectrums still shimmered in the cut crystal. He turned his full attention to the flan with such enthusiasm that his mother soon stopped puzzling over rainbows..Tom opened his empty hands and then filled one of them with his water glass. The rattling ice belied his calm face..Imagination like all living things lives now, and it lives with, from, on true change. Like all we do and have, it can be co-opted and degraded; but it survives commercial and didactic exploitation. The land outlasts the empires. The conquerors may leave desert where there was forest and meadow, but the rain will fall, the rivers will run to the sea. The unstable, mutable, untruthful realms of Once-upon-a-time are as much a part of human history and thought as the nations in our kaleidoscopic atlases, and some are more enduring..Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been earlier. In fact, this proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it.."The one I'm about to start is Dr Jekyll and Mr. Hyde, which is maybe pretty scary"..daughter's existence. Angel, if that's what she were eventually to be named, lived under a threat as surely as had all the children of Bethlehem, who'd been slain according to the decree of King Herod. The baby curled one small hand around her aunt's index finger. So tiny, fragile, she nonetheless gripped with surprising tenacity..Angel, busy with a cookie through most of this, licked crumbs from her lips and asked Paul, "Do you have a puppy?".Shaking with a fear that had nothing to do with Junior Cain and flying bullets, or even with memories of Josef Krepp and his vile necklace, Tom Vanadium closed the sketch pad and put it on the window seat. He opened the window, and in rushed the susurration of breeze-stirred oak leaves..He was surprised they had come so soon, less than twenty-four hours after the tragedy. This was especially unusual, considering that a homicide detective was obsessed with the idea that rotting wood, alone, was not responsible for Naomi's death.."Consider what I told you," Dr. Salk urged. "Your Perri would want you to think about it."..AS MEANINGFUL AS Jacob's death had been within the small world of his family, Agnes Lampion never lost sight of the fact that there were more resonant deaths in the larger world before 1968 ended and the Year of the Rooster followed. On the fourth of April, James Earl Ray gunned down Martin Luther King on a motel balcony in Memphis, but the assassin's hopes were foiled when, because of this murder, freedom grew more vigorously from the richness of a in martyr's blood. On June 1, Helen Keller died peacefully at eighty-seven. Blind and deaf since early childhood, mute until her adolescence, Miss Keller led a life of astonishing accomplishment; she learned to speak, to ride horses, to waltz; she graduated cum laude from Radcliffe, an inspiration to millions and a testament to the potential in even the most blighted life. On June 5, Senator Robert F. Kennedy was assassinated in the kitchen of the Ambassador Hotel in Los Angeles. Unknown numbers died when Soviet tanks invaded Czechoslovakia, and

hundreds of thousands perished in the final days of the Cultural Revolution in China, many eaten in acts of cannibalism sanctioned by Chairman Mao as acceptable political action. John Steinbeck, novelist, and Tallulah Bankhead, actress, came to the end of their journeys in this world, if not yet in all others. But James Lovell, William Anders, and Frank Borman—the first men to orbit the moon—traveled 250,000 miles into space, and all returned alive. Descending the stairs, Edom said, "September 18, 1906, a typhoon slammed into Hong Kong. More than ten thousand died. The wind was blowing with such incredible velocity; hundreds of people were killed by sharp pieces of debris—splintered wood, spear-point fence staves, nails, glass—driven into them with the power of bullets. One man was struck by a windblown fragment of a Han Dynasty funerary jar, which cleaved his face, cracked through his skull, and embedded itself in his brain." Indeed, he would get through the rest of 1965 without resorting to another homicide. The nonfatal shooting in September would be regrettable, quite messy, painful—but necessary, and calculated to do as little damage as possible. Words eluded him again, and he surveyed the coffee shop, as if someone might step forward to speak for him. He realized people were staring, and embarrassment drew a tighter knot in his tongue. No time for horror, disgust. Every second mattered now, and every minute might cost another life. To be fair, with her exceptional beauty, she would have been the center of attention even in a gathering of real artists. Junior had little chance of getting at Seraphim's bastard boy without going through this woman and killing her as well; but if his luck held and he could eliminate Bartholomew without Celestina realizing who had done the deed, then he might yet have a chance to discover if she was as lubricious as her sister and if she was his heart mate. The only light came from a reading lamp. An adjustable brass shade directed the light down onto a chair. One manly woman. Several womanly men. But no blocky figure that could have been the crazed cop even in disguise. "Really, Angel," Barty said with genuine concern, "it might be scary. I got another one we could listen to, if you want." To celebrate, upon leaving the gallery, he went to the coffee shop in the Fairmont Hotel, atop Nob Hill, determined to have a beer and a cheeseburger. This didn't seem strange to him. Among the many things that no longer mattered were the concepts of distance and time. Barty, at the head of the table, sensed Mary's approach only as she was about to touch him. She put a hand on his arm and said, "Daddy, will you turn your chair away from the table and let me sit on your lap?" The sirens shrieked so loud that he felt a sympathetic vibration in his dental fillings, and with a sharp cry of brakes, a great red truck turned the corner, at once followed by a second. "There's no clear evidence of birth defects, but a couple tests reveal some worrisome anomalies. We'll know when we see the child." The pewter bludgeon slammed into the back of his skull with a hard pack. The scalp tore, blood sprang forth, and the man fell as hard as Victoria had fallen under the influence of a good Merlot, although he went facedown, not faceup as she had done. It to the granite-topped secretary, and sat in front of the telephone. Previously, the ship of night floated over the city and cast down nets of darkness, gathering millions of lights like luminous fishes in its black toils. "But I've never seen a case like this. Usually, boils appear on the back of the neck. And in moist areas like the armpits and the groin. Not so often on the face. And never in a quantity like this. Really, I've never seen anything like it." Her mother and father still resided in a world where Phimie was alive. Bringing them from that old reality to this new one would be the second-hardest thing Celestina had ever done. As kinky and thrilling as it had been to make love to the girl while playing the recorded rough draft of a new sermon that she had been transcribing for her father, Junior could now recall nothing of what the reverend had said, only the tone and the timbre of his voice. Whether instinct, nervous irritation, or merely the sherry should be blamed, he was troubled by the thought that there was something significant about the content of that tape. Uneasy nevertheless, Agnes went down the hall to her son's room and found that he had fallen asleep sitting up, while reading. She slipped The Star Beast out of the tangle of his arms, marked his place with the jacket flap, and put the book on the nightstand. Regrettably, he had no choice but to conclude that she hadn't made up her mind whether to keep the baby or to seek out an illegal abortion without Junior's approval. She had been thinking about scraping his child out of her womb without even telling him. "No. It's, stopped. The thing now is to prevent a recurrence of the emesis, which could trigger more bleeding. He's getting antinausea medication and replacement electrolytes intravenously, and we've applied ice bags to his midsection to reduce the chance of further abdominal-muscle spasms and to help control inflammation." An elderly Negro gentleman answered the door. His hair was such a pure white that in contrast to his plum-dark skin, it appeared to glow like a nimbus around his head. With his equally radiant goatee, his kindly features, and his compelling black eyes, he seemed to have stepped out of a movie about a jazz musician who, having died, was on earth once more as someone's angelic guardian. Tom pointed to the nearly finished martini that stood on the table before him. Balanced on the thin rim of the glass: impossibly, precariously—the coin. The walk-in closet, which Vanadium next explored, contained fewer clothes than he expected. Only half the rod space was being used. A lot of empty hangers rang softly, eerily against one another as he conducted a casual examination of Cain's wardrobe. After the song concluded, Junior felt better. His heartbeat soon returned to normal. The damp palms of his hands grew dry. Junior could neither speak nor even mewl in agony. All the saliva had been draining forward, out of his open mouth, for so long that his throat was parched and raw. He felt as though he had munched on a snack of salted razor blades that were now stuck in his pharynx. His rattling wheeze sounded like scuttling scarabs. "Really? You really think that?" he asked in his flat voice, which he sometimes wished were more musical, but which he knew lent a sober conviction to anything he said. "You think something so delicious could come from a fat, smelly, dirty, snorting old pig?" In the bedroom once more, before poring through the contents of the nightstand drawers, the dresser drawers, and the closet, he looked in the adjacent bathroom, switched on the light because there was no window—and found Bartholomew on a wall, slashed and punctured, disfigured by hundreds of wounds. Wally parked the Buick at the curb in front of the house in which he lived, and when Celestina slid across the car seat to the passenger's door, he said, "No, wait here. I'll fetch Angel and drive the two of you home." Someone named Bartholomew had adopted Seraphim's son and named the boy after himself. Junior applied the patience learned through meditation to the task at hand, and instinctively, he soon evolved a motivating mantra that continuously cycled through his mind while he studied the telephone directories: Find the father, kill the son. Frustrated again, she said simply, "Whenever Edom and Jacob talk about these things, I want you to be sure always to keep in mind that life's about living and being happy, not about dying." Precisely what type of prodigy Barty might be was initially not easy to deduce. He revealed many talents rather than just one. Consequently, he scheduled more time every day with the phone books. He had obtained directories for all nine counties that, with the city itself, comprised the Bay Area. According to Helen, more than half the paintings had been sold by the close of the reception, a record for the gallery. With the exhibition scheduled to run two fall weeks, she was confident that they would enjoy a sellout or the next thing to it. Celestina screamed—"Here! In here!"—as she slapped the magazine into the butt of the pistol. Caesar Zedd teaches that every experience in our lives, unto the smallest moment and

simplest act, is preserved in memory, including every witless conversation we've ever endured with the worst dullards we've met. For this reason, he wrote a book about why we must never suffer bores and fools and about how we can be rid of them, offering hundreds of strategies for scouring them from our lives, including homicide, which he claims to favor, though only tongue-in-cheek..It occurred to her that the knave had come, as foretold by the cards on that night long ago. She had expected the knave to be a man with sharp eyes and a wicked heart, but the curse was cancer and not a man at all..KATHLEEN IN THE candlelight, her ginger eyes a glimmer with images of the amber flame. Icy martinis, extra olives in a shallow white dish. Beyond the tableside window, the legendary bay glimmered, too, darker and colder than Kathleen's eyes, and not a fraction as deep..In the bedroom, as he opened a suitcase on the bed, he saw the quarter. Shiny. Heads-up. On the nightstand..The day before Christmas, along the California coast. Although sun gilded the morning, clouds gathered in the afternoon, but no snow would ease sled runners across these roofs..She looked surprised, all right, but her expression wasn't the one that Junior had painted on the canvas of his imagination. Her surprise had no delight in it, and she didn't at once break into a radiant smile..Without the pillow, she wouldn't have been able to lift her head to look toward the back of the ambulance..Neddy, dressed for work but overdressed for his own funeral, slumped against the wall, head bowed, chin on his chest. His pale hands were splayed at his sides, as though he were trying to strike chords from the floor tiles..Blink, the living room. Turning off Sinatra halfway through "It Gets Lonely Early"..By the grace of Caesar Zedd and Remy Martin, Junior eventually slipped into undulant currents of sleep, and as he drifted away on those velvet tides, he took some solace from the thought that come what may, December 29 would be a better day than December 28..Did she poison herself as well? Was it her intention to kill him and commit suicide?.."Don't worry," Celestina told him, "after what we've seen this past week, we're still with you."..He knew that he needed to get a grip on himself. But he could not keep his breathing slow and deep, couldn't remember any of Zedd's other foolproof methods of self-control, couldn't recall a single useful meditative technique..The night of Barty's birth, when Joey actually lay dead in the pickup-bashed Pontiac, as a paramedic had rolled Agnes's gurney to the back door of the ambulance, she had seen her husband standing there, untouched by that rain as her son was untouched by this. But Joey-dry-in-the-storm had been a ghost or an illusion fostered by shock and loss of blood..She also sought forgiveness for the hardness with which she had treated Nicholas Deed..He produced her coat as if by legerdemain. Magically, she found her arms in the sleeves and the collar around her neck, though given her size lately, putting on anything other than a hat usually required strategy and persistence..Though they had expected the cause of the explosion, both Paul and Harrison were halted by shock at the sight of all this ruination. They had expected to find the car jammed into the wall of the house, never this far inside. The speed required to penetrate this distance into the structure beggared Paul's skills of calculation and made him wonder if even recklessness and alcohol were sufficient to produce, such a catastrophe..As if he sensed her reluctance to return to Dr. Chan, Barty had kept her occupied with talk of the red planet as they approached the office building, had talked her off the street, along the driveway, and into a parking space, where finally she relinquished the fantasy of an endless road trip. At 5:45, long past the end of office hours, Dr. Chan's suite was quiet.."You sounded as though you were in a lot of distress. You were frightened of this Bartholomew."..The guy was carrying a purse, whatever that meant, and when he walked through the door, he had a goofy look on his face, but his expression changed when he saw Junior.."Oh, yes. When he phoned, Reverend Collins told me all about you and Bartholomew. At the front door, when I asked the boy's name, I already knew it and was just setting up this little trick for you."..Instead of answering the question, meaning to imply that he believed Junior already knew the facts, Thomas Vanadium said, "I was able to get a warrant to search your house."..Junior thought this must be a trick. No hard evidence existed to indicate that Naomi had died at the hands of another rather than by accident..Three minutes by car, maybe two without stop signs. He could just about run it as fast as drive it. He had a bit of a gut on him. He wasn't the man he used to be. Ironically, however, after the coma and the rehab, he wasn't as heavy as he had been before Cain sunk him in Quarry Lake..Vanadium flipped the quarter straight into the air and at once spread his arms, palms turned up to show that his hands were empty..An unfortunately bumpy ride for the deceased: along the hallway, through the foyer, across the entry threshold, down the porch steps, across a lawn dappled with pine shadows and yellow moonlight, to the graveled driveway. No complaints.."Veal fit for kings," said their waiter, delivering the entrees, and one taste confirmed his promise..In fact, though he strained hard to recall their conversations, he could dredge up nothing that Seraphim had said during therapy, as if he'd been stone-deaf in those days. The only things he retained were sensual impressions: the beauty of her face, the texture of her skin, the firmness of her flesh under his ministering hands..must either change her mind or commit herself to a more difficult and challenging life than any she had envisioned only this morning..The rain-washed street shimmered greasily under the tires, and the intersection lay halfway up a long hill, so gravity was aligned with fate against them. The driver's side of the Pontiac lifted. Beyond the windshield, the main drag of Bright Beach tilted crazily. The passenger's side slammed against the pavement..This bond between the Lampion and White families, which Grace had already heard about from Paul, came as news to Celestina as much as to Agnes.
