Junior remembered the very words the detective had used: They say she died in a traffic accident..CELESTINA RETURNED TO Room 724 to collect Phimie's belongings from the tiny closet and from the nightstand..Taking her mother's advice to heart, Celestina sighed. "All right. Let's just pray they catch him. But if they don't ... two weeks, and then the rest of the plan, the way you said, Tom. Except that I can't tolerate two weeks-in a hotel, cooped up, afraid to go into the streets, no sun, no fresh air..". "Sometimes it's sad here, Mommy. But it's not sad every place you are. Lots of

places, Daddy's with you and me, and we're happier, and everything's okay." For Gammoner, exactly as for Pinchbeck, Google had provided: a driver's license that was actually registered with the California Department of Motor Vehicles, and that would, therefore, stand up to any cop's inspection; a legitimate social-security card; a birth certificate actually on file with the cited courthouse; and an authentic, valid passport. "And in some of them, maybe I died the night you were born, and you live alone with your dad." This ended any hope of romance, and he was disappointed. A less self-controlled man might have seized a nearby bronze vase-fashioned to resemble dinosaur stool-and stuffed her into it or vice versa. A quick tug on each pants cuff revealed no ankle holster, which was how many cops would choose to carry an off-duty piece. Paul sat by himself, at the far end of the restaurant from them. He ordered orange juice and waffles. "This is going to be an enormous settlement," the attorney promised. "And there's more good news. County and state authorities have agreed to close the case on Naomi's death. It's now officially an accident." "I'm sure you would be, yes, but I'm afraid I don't have the patience to teach, I'm a performer, not an instructor. I suppose I could give you the name of a good teacher." Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been earlier. In fact, this proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it. "Which is?" His eyes widened, and his voice became husky with pretended fear. "They're always ... evil. As Edom crossed the threshold, moving outside to the landing at the top of the stairs, Jacob followed, proselytizing for his faith: "Christmas Eve, 1940, St. Anselmo's Orphanage, San Francisco. Josef Krepp killed eleven boys, ages six through eleven, murdering them in their sleep and cutting a different trophy from each-an eye here, a tongue there." because even to cry in pain will invite more vicious discipline than the pummeling he's already endured. His father Junior thought he was alone, but just when he felt capable of summoning the energy to shift to a more comfortable position, he heard a man clear his throat. The phlegmy sound had come from beyond the. The rough massage had only just begun to bring a little relief to Junior's legs when Sparky returned with six stoppered rubber bags full of ice. "This was all the bags they had down at the drugstore." After Elfarran and Morred perished and the Isle of Solea sank beneath the sea, the Council of the Wise governed for the child Serriadh until he took the throne. His reign was bright but brief. The kings who followed him in Enlad were seven, and their realm increased in peace and wealth. Then the dragons came to raid among the western lands, and wizards went out in vain against them. King Akambar moved the court from Berila in Enlad to the City of Havnor, whence he sent out his fleet against invaders from the Kargad Lands and drove them back into the East. But still they sent raiding ships even as far as the Inmost Sea. Of the fourteen Kings of Havnor the last was Maharion, who made peace both with the dragons and the Kargs, but at great cost. And after the Ring of the Runes was broken, and Erreth-Akbe died with the great dragon, and Maharion the Brave was killed by treachery, it seemed that no good thing happened in the Archipelago. Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes. To his room then, where they sat side by side in bed, a plate of chocolate-chip cookies between them. Through the evening, they stepped off this earth and out of all its troubles, into a world of adventure, where friendship and loyalty and courage and honor could deal with any malignancy. It could only be made better by the presence of her parents. They had planned to fly down to San Francisco this morning, but late yesterday, a parishioner and close friend had died. A minister and his wife sometimes had duties to the flock that superseded all else. "You'll do better away from the ships, all the fighting and raiding. The King's working the old mines at Samory, round the mountain. There you'd be out of his way. Work for him you must, if you want to stay alive. I'll see that you're sent there. If you'll go." Needlepoint provided no sanctuary. Junior's hands trembled just badly enough to make accurate stitchery impossible. Agnes wasn't able to interpret his expression, not because he was in the least difficult to read, but because her perceptions were skewed by sudden fear and a flood of adrenaline. Her heart seemed to spin like a flywheel in her breast. No time for horror, disgust. Every second mattered now, and every minute might cost another life. "In a way, he does," Vanadium said. "When you're as hollow as Enoch Cain, the emptiness aches. He's desperate to fill it, but he doesn't have the patience or the commitment to fill it with anything worthwhile. Love, charity, faith, wisdom-those virtues and others are hard won, with commitment and patience, and we acquire them one spoonful at a time. Cain wants to be filled quickly. He wants the emptiness inside poured full, in quick great gushes, and right now. " Finally Angel dropped and slithered, vanishing under the overhanging bedclothes with a final flurry of yellow socks. Nolly, telling the story of his day's work, paused as the waiter delivered two orders of the crab-cake appetizer with mustard sauce. "Nolly, Mrs. Wulfstan--enjoy". Barty, thirteen years old but listening to books at a postgraduate college level, had no doubt studied leukemia while they were awaiting the test results, to prepare himself to fully understand the diagnosis on first receiving it. He tried not to look stricken when he heard acute myeloblastic, which was the worst form of the disease, but he appeared more ghastly in his pretense than if he had revealed his understanding. Had his eyes not been artificial, his stiff-upper-lip pose would have been utterly unconvincing. Worse, the vengeful and vicious bitch-or bastard, whatever-evidently had made up vile stories about him, which on a slow evening she'd shared with Neddy, with the bartender, with anyone who would listen. The staff of the lounge believed Junior was a dangerous sadist, No doubt she had concocted other lurid stories, as well, charging him with everything from a degenerate interest in bodily wastes to the selfmutilation of his genitalia. His artificial eyes were almost a month old. He'd been through surgery to have the eye-moving muscles attached to the conjunctiva, and everybody told him that the look and movement were absolutely real. In fact, they had told him this so often, in the first week or two, that he became suspicious and figured that his new eyes were totally out of control and spinning like pinwheels. "I should," Tom agreed, "but the point is this. . ." With the finesse of a magician, he allowed the salt shaker to slip out of the concealment of his palm, and stood it beside the pepper. "This is also me." An elderly Negro gentleman answered the door. His hair was such a pure white that in contrast to his plum-dark skin, it appeared to glow like a nimbus around his head. With his equally radiant goatee, his kindly features, and his compelling black eyes, he seemed to have stepped out of a movie about a jazz musician who, having died, was on earth once more as someone's angelic guardian. Junior suspected Magusson never had any client but himself. Fat fees motivated him, not justice. "And how about this," he continued. "Every point in the universe is directly connected to every other point, regardless of distance, so any point on Mars is, in some mysterious way, as close to me as is any of you. Which means it's possible for information-and objects, even people-to move instantly between here and London without wires or microwave transmission. In fact, between here and a distant star, instantly. We just haven't figured out how to make it happen. Indeed, on a deep structural level, every point in the universe is the same point. This interconnectedness is so complete that a great flock of birds taking flight in Tokyo, disturbing the air with their

wings, contributes to weather changes in Chicago." "Sit down, sit down," Agnes urged. "I can offer coffee now and pie in a little bit." And suddenly Celestina believed that Bellini was a cop, not because his voice contained such authority, but because her heart told her that the time had come, that the long-anticipated danger had at last materialized: the dark advent that Phimie had warned her about three years ago.
