He started the engine and drove out of the cemetery faster than was prudent on the winding service road..Oregon State Police might find at least one reason to be suspicious of the tragic scenario that he was creating. He didn't know much about the technology that police might employ at a crime scene, and he knew even less about forensic pathology. He was just doing the best job he could..For a while, Junior half convinced himself that the quarter in his cheeseburger, in December '65, was a meaningless coincidence, unrelated to Vanadium. His short tour of the kitchen, in search of the perpetrator, had given him reason to believe the diner's sanitary standards were inadequate. Recalling the greasy men on that culinary death squad, he knew that he'd been fortunate not to discover a dead rodent spread-eagle on the melted cheese, or an old sock.."I don't want an attorney." He closed his eyes, lowered his head to the pillow, and sighed. "I just want ... peace..Only now, as the tide of adrenaline began to ebb, Paul wondered who could possibly have wanted to kill a man of peace and God, a man as good as Harrison White..Overlaying the birthmark were brighter stains. The plain face, less homely now, was less flat, too, pocked and torn into a new and horrendous geography..When

Nolly sighed and frowned, his lumpish face seemed in danger of sliding off his skull, like oatmeal oozing off a spoon. "Mr. Cain, much as I regret it, I'm afraid I'm going to have to return half of the retainer you gave me." Even at this post midnight hour, the lounge would sometimes be as crowded with worried loved ones as at any other time of the day. This morning, however, the only life under the threat of the scythe appeared to be Wally's; the sole vigil being kept was for him. But, ah, the heft of the candlestick, the smooth arc it made, and the crack of contact had been as hugely satisfying as any home-run swing that had ever won a baseball World Series. Walking was part of a fitness regimen that he took seriously. He would never be called upon to save the world, like the pulp heroes in the tales he enjoyed; however, he had solemn responsibilities he was determined to meet, and to do so, he must maintain good health. He kept the house, for it was a shrine to his life with Perri. He returned to it from time to time, to refresh his spirit. "Possible complications include cerebral hemorrhage, pulmonary edema, kidney failure, necrosis of the liver, coma-to name a few." With his ringleted yellow hair, coiled mustache, and haughty right file, this was a jack that looked as if he might be a knave in the worst sense of the word. "Not really. I love you, Mommy." He yawned and dropped into sleep with a quickness that always amazed her. And then everything changed in one stunning moment. Changed profoundly and forever. Glancing at his wristwatch with alarm, Edom bolted up from his chair. "Look at the time! Agnes gave me a lot to do, and here I am rattling on about earthquakes and cyclones." His in-laws' chances of receiving compensation for their pain and suffering over Naomi's death were seriously compromised if her husband did not hold the state or county responsible. In this, as in nothing previously, they felt the need to stand united as a family. Now her mooring was Wally Lipscomb-obstetrician, pediatrician, landlord, and best friend--who arrived halfway through the reception. As she listened to Helen Greenbaum's sales report, Celestina held Wally's hand so tightly that had it been a plastic champagne flute, it would have cracked. He clenched the steering wheel tightly with both hands, clenched his teeth so fiercely that his jaw muscles bulged and twitched, and clenched his mind around a stubborn determination to get control of himself. Slow deep breaths. Positive thoughts. Neddy possessed all the musical talent, but Junior had the muscle. Pinned against the wall, his throat in the vise of Junior's hands, Neddy needed a miracle if he were ever again to sweep another glissando from a keyboard. Junior didn't believe in ghosts, anyway. He believed in flesh and bone, stone and mortar, money and power, himself and the future. The time had come for him to think more seriously about his situation and his future. Self-improvement remained a laudable goal, but his efforts needed to be more focused. Grace, Celestina, and Paul expressed amusement and amazement at Angel's critical judgment. "Usually, I throw out a bunch of hocus-pocus, flourishes and patter, to distract people, so they don't even realize that what they've seen was real. They think the midair disappearance is just a trick." A knife already lay on the counter nearby. He used it to slice four pats of butter, yellow and creamy, each half an inch thick, off the end of the stick. "I hope it was all right I let him in, Mr. Cain." Sparky had a capuchin's overbite, too. "He told me it was an emergency." Paul stayed with her, sometimes wincing at the ground as though the danger were there, not above-which, in a sense, it was, because impact rather than the fall itself is the killer-and at other times putting his arms around her, staring up at the boy above. But he, too, was silent..support as he had only pretended to need it previously. He felt as if he had become the mere shell of a man and that the right note would shatter him as a properly piercing tone can shatter crystal. One nurse and one nun brought Celestina into the creche behind the viewing window. "Why should I be afraid of a stumbling blind boy?" asked Junior again. But this time the words issued from him in a different tone of voice, because suddenly he sensed something knowing in this boy's attitude, if not in his manufactured eyes, a quality similar to what the girl exhibited. Havnor Great Port is the city at the heart of the world, white-towered above its bay; on the tallest tower the sword of Erreth-Akbe catches the first and last of daylight. Through that city passes all the trade and commerce and learning and craft of Earthsea, a wealth not hoarded. There the King sits, having returned after the healing of the Ring, in sign of healing. And in that city, in these latter days, men and women of the islands speak with dragons, in sign of change. Clutching the red rose in his left hand, the brightly wrapped gift box half crushed in his right, Thomas Vanadium lay at Junior's mercy, with no tricks to perform, no quarter to set dancing across his knuckles. Jacob had spent most of two days baking Barty's favorite pies, cakes, and cookies, and he'd prepared a meal as well. Maria's girls were at her sister's place this evening, so she stayed for dinner. Edom poured wine for everyone but Barty, root beer for the guest of honor, and while this couldn't be called a celebration, Agnes's spirits were lifted by a sense of normality, of hope, of family. He shook so badly that he couldn't remove the cap from the bottle. He was proud to be more sensitive than most people, to be so full of feeling, but sometimes sensitivity was a curse. Further preparation-the purchase of gold coins and diamonds, the establishment of false identities-had to be delayed due to the hives. An hour short of dawn, Junior was awakened by a fierce itching not limited to his phantom toe. His entire body, over every plane and into every crevice, prickled and tingled and burned as with fever-and itched. On his nightstand, he found an envelope evidently placed there by Hanna, after she'd taken it from his pharmacy smock, which he had given her to launder. The envelope contained the letter about Agnes Lampion that Paul had written to Reverend White in Oregon. Caesar Zedd recommended not merely seizing the day but devouring it. Chew it up, feed on the day, swallow the day whole. Feast, said Zedd, feast, approach life as a gourmet and as a glutton, because he who practices restraint will have stored up no sustaining memories when famine inevitably comes. He didn't wonder about his sanity, either, as a less self-improved man might have done. No madman strives to enhance his vocabulary or to deepen his appreciation for culture. With all twelve fragments destroyed, the curse should have been lifted from little Bartholomew: the threat of the unknown, violent enemy who was represented by the four knaves. Somewhere in the world, an evil man existed who would one day have killed Barty, but now his journey through life would take him elsewhere. Eleven saints had been given twelve shares of responsibility for lifting this curse. Joey was not illuminated by the light of this world. Agnes realized that he was translucent, his skin like fine milk glass through which shone a light from elsewhere. "Well, he was an insurance agent, and numbers are important in that line of work. And he was a good investor, too. Not the whiz you are with numbers, but I'm sure you got some of your talent from him. The old man assumed the solemn and knowing expression of one guarding mysteries, a sphinx without headdress and mane. "If I told you, dear lady, it wouldn't be magic anymore. Merely a trick." "You better wise up, you tree-humping nitwit," Rudy advised Junior, grabbing the bed railing as if he might tear it off and use it to club his son-in-law senseless. Foreword. "Mom always says that pigs will surely fly one day if ever Daddy chooses to convince them that they've got wings." Barty's release from Hoag Presbyterian had been delayed by an infection, and thereafter he had spent three days in a Newport-area rehabilitation hospital. Rehab consisted largely of orientation to his new dark world, since his lost function could not be recovered by either diligent exercise or therapy. His inner turmoil boiled ever more fiercely, and the external evidence of it grew more obvious. In the cool air of the fading

afternoon, he perspired as profusely as a man already being strapped into an electric chair; it streamed, gushed. He shook, shook, and he was half convinced that he could hear his bones rattling together like the shells of hard-boiled eggs in a rolling cook pot..Eleven years later, a few months after marrying Agnes, Joey mysteriously invited Edom to accompany him on "a little drive," and took his bewildered brother-in-law to a nursery. They returned home with fifty pound bags of special mulch, jars of plant food, and an array of new tools. Together, they stripped the sod from the side yard, turned the soil, and prepared the ground for the rich variety of hybrid starter plants that were delivered the following week..Nolly adored her laugh, so musical and girlish. He would have made all sorts of a fool out of himself, anytime, just to hear it..This galerieur was tall, with silver hair, chiseled features, and the all-knowing, imperious manner of a gynecologist to royalty. He wore a well-tailored gray suit, and his gold Rolex was the very watch that Wroth Griskin might have killed for in his salad days..After carefully wiping her fingers on a paper napkin, Maria examined the garments with interest. She carried her living as the seamstress at Bright Beach Dry Cleaners. At the sight of each rent, popped button, and split seam she clucked her tongue..Now, here on this sunny ridge in Oregon, miles from any train and farther still from any nuns, Junior applied this artistic insight to his own situation, overcame his squeamishness, and regained some momentum of his own. He approached his fallen wife, stood over her, and stared down into her fixed eyes as he said, "Naomi!".When he judged that he was near the porch steps, he probed with his cane. Two paces later, the tip rapped the lowest step..I'm not the first to observe that much of what quantum mechanics reveals about the nature of reality is uncannily compatible with faith, specifically with the concept of a created universe. Several fine physicists have written about this before me. As far as I am aware, however, the notion that human relationships reflect quantum mechanics is fresh with this book: Every human life is intricately connected to every other on a level as profound as the subatomic level in the physical world; underlying every apparent chaos is strange order; and "spooky effects at a distance," as the quantum-savvy put it, are as easily observed in human society as in atomic, molecular, and other physical systems. In this story, Tom Vanadium must simplify and condense complex aspects of quantum mechanics into a few sentences in a single chapter, because although he isn't aware that he's a fictional character, he is obliged to be entertaining. I hope that any physicists reading this will have mercy on him..Whether or not the visitor in the client's chair had ever known much romance, he unquestionably had experienced too much adventure and more than his share of tragedy. Thomas Vanadium's face was a quake-rocked landscape: cracked by white scars like fault lines in a strata of granite; the planes of brow, cheeks, and jaws canted in odd relationships to one another. The hemangioma that surrounded his right eye and discolored his face had been with him since birth, but the awful damage to his bone structure was the work of man, not God..Initially, when told that his patient was a Negro, Junior had been reluctant to serve as her physical therapist. Her program of rehab required mostly structured exercise to restore flexibility and to gain strength in the affected limb, but some massage would be involved, as well, which made him uncomfortable..Handing Angel to Grace, Lipscomb said, "I own some investment properties. There's a two-bedroom unit available in one of them."..In his mind, Junior saw a quarter turning knuckle over knuckle, and he heard the maniac cop's droning voice: There's a fine George and Ira Gershwin song called "Someone to Watch over Me. " You ever hear it, Enoch? I'm that someone for you, although not, of course, in a romantic sense..Maria's hand tamed, the card turned, and another knave of spades revolved into view, snapped against the table..In the noble ruin of his face, Thomas Vanadium's smoke-gray eyes were striking, filled with a beautiful ... sorrow. Not self-pity. He clearly didn't regard himself as a victim. This, Kathleen felt, was the sorrow of a man who had seen too much of the suffering of others, who knew the evil ways of the world. These were eyes that read you at a glance, that shone with compassion if you deserved it, and that glared with a terrifying judgment if compassion wasn't warranted..September 27, 1962. Barcelona, Spain. A flood killed four hundred forty-five people."..AFTER UNDERGOING TESTS for brain tumors or lesions, to ascertain whether his seizure of violent emesis might, in fact, have a physical cause, Junior was returned to his hospital room shortly before noon..He stepped into the house, quietly closed the front door, and examined the bottle. The glass was thick, especially at the base, where a large punt--a deep indentation--encouraged sediment to gather along the rim rather than across the entire bottom of the bottle. This design feature secondarily contributed to the strength of the container. Evidently he had hit her with the bottom third of the bottle, which could most easily withstand the blow.."Tom, Wally, I'm sorry for the brusque introductions," Agnes Lampion apologized. "We'll have plenty of getting-to-know-each other time over dinner. But the people in this room have been waiting an entire week to hear from you, Tom. We can't wait a moment longer."..As Lipscomb picked up the freshened baby, Grace said, "That was as effective as any minister's wife could've been with an impossible parishioner-and, oh, do I wish we could sometimes be that pointed."..Near midnight, she returned to her apartment. Lights out, in bed, staring at the ceiling, she was unable to sleep..The calls to Bellini in San Francisco and to others in Oregon were made with a prayer for news, but the prayer went unanswered. Cain had not been seen, heard from, smelled, intuited, or located by the pestering clairvoyants who had attached themselves to the sensational case..If her beautiful son was to be a prodigy of any kind, she would thank God for his talent and would do anything she could to help him achieve his destiny..The reception still roared in both showrooms of the gallery. Legions of the uncultured, taste-challenged in every regard except in their appreciation for hors d'oeuvres, yammered about art and chased their cloddish opinions with mediocre champagne..Embarrassed, cold, abruptly frightened, she returned to the Old West, where night on the low desert was warm. The campfire flickered welcomingly. John Wayne put an arm around her and said, "There are no dead husbands or dead babies here," and though he intended only to reassure her, she was overcome by misery until Shirley MacLaine took her aside for some heart-to-heart girl talk. Agnes woke again and was no longer chilled, but feverish. Her lips were cracked, her tongue rough and dry..Six paces past that marker floorboard, Barty had the strangest feeling that someone was in the hallway with him..For a while, Celestina had worried that the girl was slower to walk than other children, slower to talk, and slower to develop her vocabulary, even though Celestina read aloud to her from storybooks every day. Then, during the past six months, Angel had caught up in a rush though she traveled a road somewhat different from what the childrearing books described. Her first word was mama, which was fairly standard, but her second was blue, which for a while came out "boo." At three, an average child would be doing exceptionally well to identify four colors; Angel could name eleven, including black and white, because she was able routinely to differentiate pink from red, and purple from blue..Lientery's work met the criteria of great art, about which Junior had learned in art-appreciation courses. It undermined his sense of reality, left him wary, filled him with angst and with loathing for the human condition, and made him wish he hadn't just eaten dinner..If magic explained the jacks on Friday evening, maybe it was the dark variety of magic. Maybe he shouldn't be endeavoring to summon, once more, whatever spirit was responsible for the four knaves..Barty, she explained, would be rich in many ways. Financially rich,

but also rich in talent, in spirit, intellect. Rich in courage, honor. With a wealth of common sense, good judgment, and luck..around an anemone's mouth, poised to snare, lazily but relentlessly, any passing prize..With only a faint twinge of sentimental longing, he drove away from the house that had been his and Naomi's love nest for fourteen blissful months..At the end, with the salt Tom and the pepper Tom standing side by side in their different but parallel worlds, Maria said, "Seems like science fiction.".The hospital was drowned in the bottomless silence that fills places of human habitation only in the few hours before dawn, when the needs and hungers' and fears of one day are forgotten and those of the next are.One of the hardest things that she had ever done was to leave him then, alone in his room, with the hateful something still quietly growing in his eye. She wanted to move the armchair close to his bed and watch over him throughout the night..The following morning, he canceled his German lessons. It was an impossible language. The words were enormously long..Besides, he couldn't any longer afford to spend endless hours either learning a new language or attending the opera. His life was too full, leaving him insufficient time for the Bartholomew search..Studying the brochure, Junior felt that the best response to this artist's work was to go directly into the bathroom, stick one finger down his throat, and purge himself. Considering his medical history, however, he couldn't afford to be such an expressive critic.. "Fear?" Kathleen asked, more interested in Vanadium's words than in his prestidigitation. "You said you're offering fear to Cain ... as if that was something he would want.".He remembered standing in the cemetery, downhill from Seraphim's grave-although at the time he'd known only that it was a Negro being buried, not that it was his former lover-and thinking that the rains would over time carry the juices of the decomposing Negro corpse into the lower grave that contained Naomi's remains. Had that been a half-psychic moment on his part, a dim awareness that another and far more dangerous connection between dead Naomi and dead Seraphim had already been formed?.As the last of the flan was served and Maria's girls took their seats once more, Barty blinked at the candles and said, "Gone now," even though the tiny spectrums still shimmered in the cut crystal. He turned his full attention to the flan with such enthusiasm that his mother soon stopped puzzling over rainbows.
