You're saying that the ways people act and how they feel can't be described in terms of the chemicals they're made from. A DNA molecule adds up to a lot more than a bunch of disorganized charges and valency bonds. The way you organize it makes its own laws." "Will the Chironians let him wait that long?" Colman asked. "Do they know he's in there and what it means?". This mutt isn't, as Curtis first thought, his brother-becoming. She is instead his sister-becoming, and that's
