Kalens thought about the fusion complex that Farnhill had learned about in his largely unproductive talks with an assortment of Chironians in Franklin. Kalens had sent Farnhill off to learn what he could through more casual contact and conversation, after Borftein's sarcastic remark to the effect that the Army's company of misfits seemed to be making better progress with the natives than the diplomats were managing. "Yes.. . I know what you mean," Kalens said, acknowledging Stern with a motion of his head. "As a matter of fact, we have already begun inquiries along those lines." He turned toward Farnhill. Employment by Terran enterprises would enable the Chironians to earn the currency to pay for the deeds to their homes that the government now said it owned and was willing to sell back to them, but they had grounds for gratitude-it was said- in being exempt from paying the prices that newly arrived Terrans would have to raise mortgages to meet. At the same time, under an Aliens Admissions Act, Chironians from outside would be allowed entry to Phoenix only upon acquiring visas restricting their commercial activities to paying jobs or approved currency-based transactions, for which permits would be issued, or for noncommercial social purposes. Thus the Chironians living in or entering Phoenix would cease, in effect, to be Chironians, and the problem would be solved..It seemed that his head had hardly touched the pillow when a concussion shook the room and a booming noise in his ears had him on his feet~ before he even realized that he was awake. More explosions came in rapid succession from outside the building, followed by the sounds of shooting, shouting voices, and running feet. "But first, we have, to deal with our Chironian . . . friends. What is the report on the Kuan-yin?".All entrances into the Center itself were guarded. Sirocco had proposed dressing a squad in SD uniforms and marching Lechat and Celia openly up to the main door and brazening out an act of bringing in two 1egitimate fugitives after apprehending them. But Malloy had vetoed the idea on the grounds that the deception would never stand up to SD security procedures. Then Lechat had suggested a less dramatic and less risky method. As a regular customer of the Fran?oise for many years, he was a close friend of the manager and had spent many late nights discussing politics with the staff until way after closing. They all knew Lechat, and he was sure he could rely on them. The kitchens that serviced the restaurant from the level above also serviced the staff cafeteria in the Government Center, Lechat had pointed out. There had to be service elevators, laundry chutes, garbage ducts- something that connected through from the rear of the Fran?oise..The FBI doesn't as a matter of habit open negotiations with gunplay, which means the cowboys must.The major met his eye firmly. The numbers of killed and wounded predicted for an intended operation were presented by his analysts a~ the "Loss Factor" and the "Combat Reduction Factor," respectively; a city selected to be incinerated along with its inhabitants was "nominated"; an area drenched with napalm and saturated with high explosive was subjected to "exploratory aggressive reconnaissance"; and a village flattened as a warning against harboring

Juanita saw the expressions on Bernard's and lay's faces. "Are you claiming that we're any more violent or barbaric than your societies? We've never had a war. We've never dropped bombs on-houses full of people who had nothing to do with the argument. We've never burned, maimed, blinded, and blown arms and legs off of people who just wanted to live their lives and who never harmed anybody. We've never shot anyone who didn't ask for it. Can you say the same? Okay, so the system's not perfect. Is yours?".face. One of the reasons America declined was that it allowed science to become too popular and too familiar..
