"You can't take much of anything by mouth for a few hours yet," said the nurse. "Nausea is too great a

risk. Retching might start you hemorrhaging again." He used the kitchen phone, at the corner secretary. The blood had been cleaned up long ago, of course, and the minor damage from the ricocheting bullet had been repaired. Crossing Spruce Hills with John, Paul, George, Ringo, and dead Thomas, Junior headed back toward Victoria's place, where Sinatra was no longer singing. "Sometimes she wrote little paragraphs to God, very touching and humble notes of gratitude, thanking Him for bringing you into her life." "Maybe I won't have to try as hard as I think, because you make it so easy, Barty." Looking down at Barty, Agnes saw the ghost of Joey in the baby's face, and although she half believed that her husband would be alive now if he had never tempted fate by putting such a high price on his life, she couldn't find any anger in her heart for him. She must accept this final generosity with grace-if also without enthusiasm. MONDAY EVENING, January 15, Paul Damascus arrived at the hotel in San Francisco with Grace White. He had kept watch over her in Spruce Hills for more than two days, sleeping on the floor in the hall outside her room both nights, remaining close by her side when she was in public. They stayed with friends of hers until Harrison's funeral this morning, then flew south for a reunion of mother and daughter. Once in a while, however, he reverted to his roots, to the food that gave him comfort. Thus, the cheeseburger and its decadent accoutrements. She lived with her parents then. They had converted the dining room to a bedroom for her. After a while, he dared to crack his eyelids. Pressing against his eyes was a blackness as smooth and as unrelenting as any known by a blind man. Not even a ghost of light haunted the night beyond the window, and the slats of the venetian blind were as hidden from view as the meatless ribs under Death's voluminous black robe. Even a cool day on the pie route could produce a good sweat by journey's end, because with the addition of the men to this ambitious project, they now not only made deliveries but also performed some chores that were a problem for the elderly or disabled. His conscience as a craftsman would not let him fault the carpentry of the ship in any way; but his conscience as a wizard told him he could put a hex on her, a curse woven right into her beams and hull. Surely that was using the secret art to a good end? For harm, yes, but only to harm the harmful. He did not talk to his teachers about it. If he was doing wrong, it was none of their fault and they would know nothing about it. He thought about it for a long time, working out how to do it, making the spell very carefully. It was the reversal of a finding charm: a losing charm, he called it to himself. The ship would float, and handle well, and steer, but she would never steer quite true. Kitchen to dining room, dining room to hallway, keeping his back to the wall, easing quickly along, then into the foyer. Wait here, listening. When she discovered she was pregnant, Phimie dealt with this new trauma as other naive fifteen-year-olds had done before her: She sought to avoid the scorn and the reproach that she imagined would be heaped upon her for having failed to reveal the rape at the time it occurred. With no serious thought to long-term consequences, focused solely on the looming moment, in a state of denial, she made plans to conceal her condition as long as possible. Traditional logic argued that an infant, no more than two weeks old, could not be a serious threat to a grown man. She was of two minds about this. She wanted him, wanted to be held and cherished, to satisfy him and to be satisfied. But she was the daughter of a minister: The concept of sin and consequences was perhaps less deeply ingrained in some daughters of bankers or bakers than in a child of a Baptist clergyman. She was an anachronism in this age of easy sex, a virgin by choice, not by lack of opportunity. Although she'd recently read a magazine article containing the claim that even in this era of free love, forty-nine percent of brides were virgins on their wedding day, she didn't believe it and assumed that she'd chanced upon a publication that had fallen through a reality warp between this world and a more prudish one parallel to it. She was no prude, but she wasn't a spendthrift, either, and her honor was a treasure that shouldn't be thoughtlessly thrown away. Honor! She sounded like a maid of old, pining in a castle tower, waiting for her Sir Lancelot. I'm not just a virgin, I'm a freak! But even putting the idea of sin aside for a moment, assuming that maidenly honor was as pass? as bustles, she still preferred to wait, to savor the thought of intimacy, to allow expectation to build, and to start their conjugal life together with no slightest possibility of regret. Nevertheless, she had decided that if he was ready for the commitment that she believed he'd already teetered on the edge of expressing three times, then she would set aside all misgivings in the name of love and would lie down with him, and hold him, and give of herself with all her heart. He found himself looking over his shoulder more than once. By the time he returned to his room, he felt half crushed by anxiety. Agnes wanted to tell them that all their efforts would be to no avail, that they should cease and desist, be kind and let her go. She had no reason to stay here anymore. She was moving on to be with her dead husband and her dead baby, moving on to a place where there was no pain, where no one was as poor as. "Mrs. Lampion, in a case like this, I've found that the greatest mercy is directness. Your son has retinoblastoma. A malignancy of the retina." He pushed on the door, but still it resisted, and he surprised himself by letting out a bellow of frustration that expressed quite the opposite of self-control, though no one listening could have the slightest doubt about his determination to commit and command. Tales from Earthsea/Ursula K. Le Guin. -1st ed. p. cm. Contents: The finder-Darkrose and Diamond-The bones of the earth.-If she'd connected with his left side, as she intended, she might have broken his arm or cracked a few ribs. But he saw the chair coming, and as agile as a base runner dodging a shortstop's tag, he turned away from her, taking the blow across his back. "Oh, my Lord," Chicane groaned as he and Sparky half carried Junior into the bathroom. Glancing at the plump pie in Edom's hands, the gentleman replied to Agnes in a musical yet gravelly voice worthy of Louis Armstrong: "You must be the lady Reverend Collins told me about." He would never allow himself to be bankrupted and made poor again. Never. His fortune had been won at enormous risk, with great fortitude and determination. He must defend it at any cost. "I've got one of those faces so ordinary you see it everywhere," said Edom, and decided to tell the story of the Tri-State Tornado of 1925. The hateful window. The hateful, frozen window. Celestina wrenched on the crank with all of her strength, and felt something give a little, wrenched, but then the crank popped out of the socket and rapped against the sill. "Great guy. Do you have an address for her, a way maybe I could get in touch about her brother?" "It's an uncommon reaction," the physician acknowledged, "but not so uncommon as to be rare." "Why should I be afraid of a stumbling blind boy?" asked Junior again. But this time the words issued from him in a different tone of voice, because suddenly he sensed something knowing in this boy's attitude, if not in his manufactured eyes, a quality similar to what the girl exhibited. By the time he went to bed Saturday night, the cards that had been only that morning were showing signs of wear. First, he searched immediately around the dead man, figuring that the watch might still be snared on the coat belt or on one of the sleeve straps. No luck. He was as solid as any boy. He was in the day but not in the rain. He was moving toward the back of the car. By the time the family was ushered out, protesting, at the end of evening visiting hours, Junior hadn't succumbed to their pressure. If his conversion was to appear convincingly reluctant, he would have to resist them for at least another few days. On a street a half mile from the airport in Eugene, he sat in the parked Dodge long enough to gingerly unwind the bandages and use a tissue to wipe off the pungent but useless salve he'd purchased at a pharmacy. Although he

pressed the Kleenex to his face so gently that the pressure might not have broken the surface tension on a pool of water, the agony of the touch was so great that he nearly passed out. The rearview mirror revealed clusters of hideous, large, red knobs with glistening yellow heads, and at the sight of himself, he actually did pass out for a minute or two, just long enough to dream that he was a grotesque but misunderstood creature being pursued through a stormy night by crowds of angry villagers with torches and pitchforks, but then the throbbing agony revived him..Wally gave her tests. She's got an exceptional understanding of color, spatial relationships, and geometric forms for a child her age. She may be a visual prodigy."A dry laugh escaped the detective, but it had none of the warmth of most people's laughter. "You're not bad, Enoch. You're just not as good as you think you are."..In the kitchen again, Junior spread the blanket on the floor, to one side of the blood. He rolled Vanadium onto the blanket, and drew the ends of it together, fashioning a sled with which to drag the detective out of the house..Maria stopped praying with her knuckle rosary and resorted to a long swallow of wine.. "And how about this," he continued. "Every point in the universe is directly connected to every other point, regardless of distance, so any point on Mars is, in some mysterious way, as close to me as is any of you. Which means it's possible for information-and objects, even people-to move instantly between here and London without wires or microwave transmission. In fact, between here and a distant star, instantly. We just haven't figured out how to make it happen. Indeed, on a deep structural level, every point in the universe is the same point. This interconnectedness is so complete that a great flock of birds taking flight in Tokyo, disturbing the air with their wings, contributes to weather changes in Chicago."..He missed Naomi. She'd always known exactly the right thing to say or do, improving his mood with a few words or with just her touch, when he was feeling down..For the first few bites of crab in a light cornmeal crust, Nolly suspended their conversation. Bliss..IN NEED OF OIL, the hand crank squeaked, but the tall halves of the casement window parted and opened outward into the alleyway..She had expected horror, although perhaps not a horror quite as stark as this, and she had also expected to be crushed by it, destroyed, because although she was able to survive any misery that might be visited upon her, she didn't think that she possessed the fortitude to endure the suffering of her innocent child. Yet she listened, and she received the terrible burden of the news, and her bones did not at once turn to dust, though unfeeling dust was what she now preferred to be..Walking away, he was aware of the many faces at the windows, all as stupid as the faces of cud-chewing cows. He had given them something to talk about when they returned from lunch to their shops and offices. He'd reduced himself to an object of amusement for strangers, had briefly become one of the city's army of eccentrics..Curious to know what Neddy had said, Junior quickly approached the same gallery staffer. "Excuse me, but I've been looking for my friend ever so long in this mob, and then I saw him talking to you-the gentleman in the London Fog and the tux-and now I've lost him again. He didn't say if he was leaving, did he? He's my ride home."..He had noted all seven names on the bassinets, but he read them again. He sensed in their names-or in one of their names-the explanation for his seemingly mad perception of a looming threat..Thrilled to have inspired this awe in her, he closed the book. "Remember what we talked about a long time ago? You asked me how come, if I could walk where the rain wasn't. . . ."..Angel liked to perch sideways with a drawing tablet in the window seat in Barty's room, look out at the oak tree from the upper floor, and draw pictures inspired by things she heard in whatever book he was currently listening to. Everyone said she was a pretty good artist for a three-year-old, and Barty wished he could see how good she was. He wished he could see Angel, too, just once..Besides, he wasn't on the Greenbaum Gallery customer list and didn't have an invitation.. "Once out of the coma and stabilized for a few weeks, I was transferred to a hospital in Portland, where I had to undergo eleven surgeries."..Through tears, that night, she asked him if the commitment he was making didn't frighten him..In the glamorous cocktail lounge of this elegant hotel, Junior was necessarily forced to use other of Zedd's techniques-and more brandy--to liberate from his subconscious the name of the caller on the Ansaphone. Max. The caller had said, It's Max.. "All under here's worked out long since" Licky said. And Otter had begun to be aware of the strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical labyrinth, the deepest pits filled with unmoving water. "Never was much silver, and the watermetal's long gone. Listen, young'un, do you even know what cinnabar is?"..Since dealing with Victoria and the detective, Junior had taken pride in the fact that he'd kept his equanimity and, more important, his lunch. No acute nervous emesis, as he'd suffered following poor Naomi's death. Indeed, he had an appetite..If Agnes knew that Jacob had been helping her game, she might never play cards with him again. She would not approve of what he had done. Consequently, his great skill as a card mechanic must be forever his secret..Before they set out for the amusement park, Agnes pulled him aside, held him close, and said, "Listen, kid of mine, I'm not giving up. Don't think I ever would. Let's have fun today. This evening, you and I and Angel will convene a meeting of the North Pole Society of Not Evil Adventurers"-the girl had become the third member years ago" and all truths will be told and secrets known. ".Library of Congress Cataloging-in-Publication Data Le Guin, Ursula K., 1929-.Another of Junior's self-improvement projects, since moving to California, was to become a knowledgeable gourmet, also a connoisseur of fine wines. San Francisco was the perfect university for this education, because it offered innumerable world-class restaurants in every imaginable ethnic variety..Although their apartments were above the garage, back to back, each was served by a separate exterior staircase. As often as either man entered the other's domain, they might as well have lived hundreds of miles apart..Shortly before three o'clock, Thursday afternoon, in a state of agitation, Barty raced into the kitchen, where Agnes was baking buttermilk-raisin pies. Holding Red Planet open to pages 104 and 105, he complained urgently that the library copy was defective. "There's twisty spots in the print, twisty-funny letters, so you can't just exactly read all the words. Can we buy our own copy, go out and buy one right now?"..Junior opened his eyes and saw that only the second of the two rounds had found its intended mark. The first had cracked through the center of a cabinet door, surely shattering dishes within..In spite of its dazzle and power and comfort, however, the car was not able to lift his spirits as he cruised the hills of the city. Somewhere along these darkly glistening streets, in these houses and high-rises clinging to steep slopes awaiting seismic sundering, the boy was sheltered: half Negro, half white, full doom to Junior Cain..Junior didn't want an apology. The offer of a free lunch-or an entire week of lunches-didn't charm a smile from him. He had no interest in taking home a free apple pie..He pressed his right ear to the door, held his breath, heard nothing, and addressed the top lock first. Quietly, he slid the thin pick of the lock-release gun into the key channel, under the pin tumblers..Three and a half days had passed since he'd pushed his wife off the tower, and in that time he'd had no real fun. He was gregarious by nature, never one to turn down a party invitation. He liked to laugh, to love, to live, but he couldn't enjoy life when he must remember at all times to appear bereft and to keep sorrow in his voice..She must have sensed his assessment of her and realized that she had little chance of charming him, for she turned at once away and never looked in his direction again..In the kitchen were a radio, a toaster, a coffeepot, two place settings of cheap flatware, a

small mismatched collection of thrift-shop plates and bowls and mugs, and a freezer full of TV dinners and English muffins..Kneeling at her side, Junior placed the decorative pillow over her lovely face and pressed down firmly while Frank Sinatra finished "Hello, Young Lovers," and sang perhaps half of "All or Nothing at All." Victoria never regained consciousness, never had a chance to struggle..Then he curled up in one of the big armchairs in the living room and began the book again. This was the first time he had ever reread a novel-and he finished it at midnight..Celestina dropped to one knee in front of Angel, to tie the drawstrings of the hood under the girl's chin.."I'm not sad," Tom said, "because though I have this face here in this world, I know there's another me-in fact, lots of other Tom Vanadiums-who don't have this face at all. Somewhere I'm doing just fine, thank you."
