All windows opening onto the fire escape featured a laminated sandwich of glass and steel-wire mesh to prevent easy access by burglars. Tom Vanadium knew all the tricks of the best B-and-E artists, but he didn't need to break in order to enter here.. "Once out of the coma and stabilized for a few weeks, I was transferred to a hospital in Portland, where I had to undergo eleven surgeries." What good was she to anybody, what good could she ever hope to be, if she couldn't even save her little sister?. He stopped for lunch at a restaurant with a spectacular view of the Pacific, framed by massive pines.. He was no longer hopeful that they could have a future together. After sampling the Junior Cain thrill machine, Celestina would want more, as women always did, but the time for a meaningful romance had now passed. For all the anguish he'd been put through, however, he deserved the consolation of her sweet body at least once. A little compensation. Payback.. Dr. Daines spoke with Celestina in the corridor, outside the door to 724. Some of the passing nurses were nuns in wimples and full-length

habits, drifting like spirits along the hallway. Thereafter, he was repelled at the prospect of kissing her, and their relationship fell apart. Surprisingly, he received a lot of gratification from voicing this insult, even though Vanadium was too dead to hear it. After the stupid bastards read a newspaper or smoked a few cigarettes, they finally broke down the door. Satisfyingly dramatic: the crack of splintering wood, the crash. Lowering his surgical mask, Dr. Lipscomb approached Celestina, where she stood with her back pressed to the wall. "All under here's worked out long since" Licky said. And Otter had begun to be aware of the strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical labyrinth, the deepest pits filled with unmoving water. "Never was much silver, and the watermetal's long gone. Listen, young'un, do you even know what cinnabar is?" As though frightened of the gentle certainty in Celestina's eyes, the doctor turned away from her, and toward the window once more. Tom Vanadium's uninflected but curiously hypnotic voice, his pensive manner, his gray eyes so beautiful in that fractured face, his air of measured melancholy, and his evident intelligence gave him a presence that was simultaneously as solid as a great mass of granite and yet otherworldly. "I was hoping you might know," said Edom, studying the collar of Jacob's green flannel shirt. Junior's agony might have made him howl like a cankered dog or might even have dropped him to his knees if he hadn't used the pain to fuel his anger. His knobby countenance was so sensitive that the light breeze flailed his skin as cruelly as if it had been a barbed lash. Empowered by rage even more beautiful than his countenance was monstrous, he crossed the parking lot, looking through car windows in the hope of seeing keys dangling from an ignition. "There's lots of places where I don't have bad eyes at all. And then lots of places where I have it worse or don't have it as bad, but still have it some." Junior was less surprised by his sudden assault on Victoria than by the failure of the bottle to break. He was, after all, a new man since his decision on the fire tower, a man of action, who did what was necessary. But the bottle was glass, and he swung forcefully, hard enough that it smacked her forehead with a sound like a mallet cracking against a croquet ball, hard enough to put her out in an instant, maybe even hard enough to kill her, yet the Merlot remained ready to drink. In fact, though he strained hard to recall their conversations, he could dredge up nothing that Seraphim had said during therapy, as if he'd been stone-deaf in those days. The only things he retained were sensual impressions: the beauty of her face, the texture of her skin, the firmness of her flesh under his ministering hands. "Well, we have earthquakes here," Jolene said, "but back east they have all those hurricanes." Maria said nothing, working busily, but Agnes recognized that special silence in which difficult words were sought and laboriously stitched together. When Seraphim's bastard baby was dead, evidence of paternity would die with it and any claim for child support. Even Vanadium's stubborn, selfish, greedy, grubbing, vicious, psychotic, evil spirit would have to recognize that all hope of bringing Junior down was lost, and it would at last either dissipate in frustration or be reincarnated. Her strength was the strength of stones only in the sense that she felt as immovable as rock, yet she found the resources to raise one arm, to place her left hand over Maria's bead-tangled fingers. "But the baby's dead." The guest room. Bring Grace to the window. Disengage the latch. No good. Warped or painted shut. Small panes, sturdy mullions too difficult to break out. "Peach, raisin, walnut pies," Agnes said, "with regular bottom crust and a chocolate-crackle top crust." Glimmered along the barrel of a hypodermic syringe in the hand of the paramedic. Above the wainscoting, the walls were Sheetrock, unlike the plaster elsewhere in the apartment. On one of them, Enoch Cain had scrawled Bartholomew three times. No longer pinned to the bed by an intravenous feed of fluids and medications, provided with pajamas and a thin cotton robe to replace his backless gown, Junior was encouraged to test his legs and get some. In Cain's bedroom, Tom Vanadium's hooded flashlight revealed a six-foot-high bookcase that held approximately a hundred volumes. The top shelf was empty, as was most of the second. He hadn't paid close attention to those patrons seated at the bar behind him. Now, he turned in his chair to study them. Although Junior continued to feel threatened, continued to trust his instinct in this matter, he didn't devote his every waking hour to the hunt. He had a life to enjoy, after all. Self-improvements to undertake, galleries to explore, women to pursue. The upper end of the bed was elevated. Otherwise, Agnes would not have been able to see the room, for she was too weak to raise her head from the pillows. She traded silence for silence. Then: "Kid, I'm still totally confused by this stuff." Slowly rotating his raised hands before his eyes, as if he saw them young and supple-fingered, the magician described the amazing manipulations that a master card mechanic could perform. Though he spoke without flash or filigree, he made these feats of skill sound more sorcerous than hares from hats, doves from scarves, and blondes bisected by buzz saws. "I'm gonna dream about baby chickens," she told Celestina, "and if I'm all yellow, they'll think I'm one of them." After wiping her floury hands, Agnes took the book from him and, examining it, could find nothing wrong. She flipped back a few pages, then a few forward, but the lines of type were crisp and clear. "Show me where, honey." Bracing her feet against the floorboards, clutching the seat with her left hand, fiercely gripping the door handle with her right, she prayed, prayed that the baby would be all right, that she would live at least long enough to bring her child into this wonderful world, into this grand creation of endless and exquisite beauty, whether she herself lived past the birth or not. Once more crowding his quarry, Junior said, "I'm amazed you'd recognize me, since I haven't been to the lounge often." Under the spoon to catch drips, she conveyed the shimmering sliver to Agnes's mouth. She dealt with them equally, too, favoring neither-except in the matter of pie delivery. On those rare occasions when she could not make these rounds herself and when she had no one to turn to but a brother, Agnes always asked for Edom's help. "In a way, he does," Vanadium said. "When you're as hollow as Enoch Cain, the emptiness aches. He's desperate to fill it, but he doesn't have the patience or the commitment to fill it with anything worthwhile. Love, charity, faith, wisdom-those virtues and others are hard won, with commitment and patience, and we acquire them one spoonful at a time. Cain wants to be filled quickly. He wants the emptiness inside poured full, in quick great gushes, and right now." The friendship, the work, and not least of all the sense of home and belonging that everyone felt within minutes of crossing Agnes's threshold-these things appealed to Celestina and Grace. But they didn't want Paul to feel that his hospitality was unappreciated. "I know how to build boats, how to sail boats." Junior shuddered. Vanadium hadn't invented the name. It had genuine if inexplicable resonance with Junior that had nothing to do with the detective. Anyway-and curiously-Industrial Woman increasingly looked to him like Scamp. As various abraded and inflamed mucous membranes constantly reminded him, he'd had more than enough of Scamp for a while. At last the day arrived: Friday, January 12. For the first time since walking to La Jolla to meet Jonas Salk, Paul planned a journey with a specific purpose. He hadn't heard the cop get out of the chair and cross the dark room. Difficult. The sedative was mild, but Phemie was asleep in mere minutes. She was exhausted by her long ordeal and by her recent lack of sleep. Paul shook his head. "Oh, no. People look at our marriage, and they think I gave up so much, but I got back a lot more than I gave." In August, he developed an interest in meditation. He began with concentrative meditation-the form called meditation "with seed"-in which you must close your eyes, mentally focus on a visualized

object, and clear your mind of all else..When Renee realized that this rejection was complete and final, she-he, whatever-was transformed from well-sugared southern lady to bitter, venomous reptile. Eyes glittering with fury, lips twisted and skinned back from her teeth, she called him all kinds of bastard, stringing epithets together so effortlessly and colorfully that she enhanced his vocabulary more than had all the home-study courses that he'd ever taken, combined. "And face it, pretty-boy, you knew what I was from the moment you offered to buy me a drink. You knew, and you wanted it, wanted me, and then when we got right down to the nasty, you lost your nerve. Lost your nerve, pretty-boy, but not your need."..When Agnes woke at 1:50 A.M., she was in the grip of a vague apprehension for which she couldn't identify a source..This was the same woman who had been stripping the second bed when Celestina arrived earlier. Now she was here to remake the first..Junior raised his voice even further: "In those old movies, the Little Rascals."..Over potato soup and an asparagus salad, the dinner conversation got off to a promising start: a discussion of favorite potato dishes, observations on the weather, talk of Mexico at Christmas..Paul Damascus had gotten numerous invitations to dinner. No one thought that he should be alone on this difficult night..impress the hell out of the hoity-toity types, take their money, and get famous."..Orange firelight bloomed in the living room below, a wave of heat washed over Paul, and immediately behind the heat came greasy masses of roiling black smoke, drawn to the stairwell as to a flue..Opening the directory to the marker, he found a card tucked between the pages. A joker, with BARTHOLOMEW in red block letters..From a distance and through a scattering of trees, Junior wasn't able to discern much about the other funeral, but he was pretty sure many if not most of that crowd were Negroes. He surmised, therefore, that the person being buried was a Negro, too..Agnes's contractions were getting more frequent and slightly more severe, so she said, "All right, but let me go tell Edom and Jacob that we're leaving."..In the time of the kings, mages gathered in the court of Enlad and later in the court of Havnor to counsel the king and take counsel together, using their arts to pursue goals they agreed were good. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers one against the other in duels and combats of sorcery, careless of the evils they did, or worse than careless. Plagues and famines, the failure of springs of water, summers with no rain and years with no summer, the birth of sickly and monstrous young to sheep and cattle, the birth of sickly and monstrous children to the people of the isles-all these things were charged to the practices of wizards and witches, and all too often rightly so..RED SKY IN THE morning, sailors take warning; red sky at night, sailors delight.."Where's your mother this morning?" he asked, for he'd expected to have to shoot his way through a lot more than one adult to reach both children. The Lipscomb house had proved empty, however, and fortune had given him the boy and girl together, with one guardian.."A nose, now, is a useful thing, a salable thing," Hound went on. "Not that I'm looking for competition. But a finder can always find work, as they say...You ever been in a mine?"..Judging by the sounds Vanadium made, Junior figured that the cop had settled once more into the armchair..Maybe he went a little crazy then. He wouldn't deny a brief, transient madness..He turned the knob. The door eased inward, but he pushed it open only a fraction of an inch..She was lost in his eyes: She wanted to pass through his eyes as Alice had passed through the looking glass, follow the beautiful radiance that was fading now, go with him through the door that had been opened for him and accompany him out of this rain-swept day into grace..Angel brightened at the sight of the coin turning end-over-end across his knuckles. "I could learn to do that," she asserted..She snatched the handset away from Angel, told Bellini, "He's here," threw the phone on the bed, told Angel, "Stay close to me," ran to the windows, and jerked the drapes out of the way..He pressed the muzzle of the weapon against the girl's forehead and said, "Naomi, Seraphim, you were exquisite lovers, but you've got to be realistic. There's no way we can have a life together."..By now he recognized that the man approaching from the other graveside service was neither a Negro nor a stranger. Detective Thomas Vanadium was annoying enough to be an honorary Hackachak..On the fourth floor, at Dr. Klerkle's suite, the hall door stood ajar. Past office hours, the small waiting room was deserted..After the paralytic bladder seizures had passed and Junior had drained Lake Mead, Chicane recommended plenty of caffeine and sugar to guard against an unlikely but not impossible spontaneous return to a trance state. "Anyway, after pumping alpha waves for as long as you just did, you shouldn't actually need to sleep anytime soon."..In a rocking chair, holding her tiny son in her arms, Agnes cried quietly. Often, Barty slept through her weeping. Awakened, he smiled or squinched his face into a puzzled frown.."The doctors," he continued, "needed to repair damage to the left frontal sinus, the sphenoidal sinus, and the sinus cavernous, which had all been partially crushed by that pewter candlestick. Frontal, malar, ethmoid, maxillary, sphenoid, and palatine bones had to be rebuilt to properly contain my right eye, because it sort of ... well, it dangled. That was just for starters, and there was considerable essential dental work, as well. I elected not to have any cosmetic surgery."..Out of respect for his mother, Barty struggled to hold fast to his eyeless second sight, living in the idea of a world where he still had vision, until she had been accorded the honors she deserved and had been laid to rest beside his father.."This momentous day," Thomas Vanadium said quietly, stiff gazing into the grave, "seems full of terrible endings. But like every day, it's actually full of nothing but beginnings."..Junior had thought most other policemen must consider Vanadium to be a loose cannon, a rogue, an outcast. Perhaps the opposite was true-and if it was, if Vanadium was highly regarded among his peers, he was immeasurably more dangerous than Junior had realized.
