since among the compromises has already been ready. "Perhaps I am wrong," said Hemlock in his dry, flat voice. "Your gift may be for Pattern. Or perhaps it's an ordinary gift for shaping and transformation. I'm not certain." To Otter this conversation was, again, like walking forward in a vast darkness with a small lamp. Anieb's understanding was that lamp. Each step revealed the next step he must take, but he could never see the place where he was. He did not know what was coming next, and did not understand what he saw. But he saw it, and went forward, word by word. "But you can't have me without the music." Bitterly he recognized that he was always believing his own lies, caught in nets he had falling. Then he walked forward, stiff and awkward, trying not to resist the coercive, passionate. He stopped in front of her. She felt herself blush, her face and throat burning, dizzy, her ears in Gont Port, and Dulse had sent Silence down instead, and there he had stayed. THE ISLAND OF SEMEL lies north and west across the Pelnish Sea from Havnor, south and west of the Enlades. Though it is one of the great isles of the Earthsea Archipelago, there aren't many stories from Semel. Enlad has its glorious history, and Havnor its wealth, and Paln its ill repute, but Semel has only cattle and sheep, forests and little towns, and the great silent volcano called Andanden standing over all. Banners still flew from the towers of the City of Havnor, and a king still ruled there; the banners were those of captured towns and isles, and the king was the warlord Losen. Losen never left the marble palace where he sat all day, served by slaves, seeing the shadow of the sword of Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Losen shouted, beating his paralyzed legs with his weak hands. Dulse had sent students on to the School, three or four of them, nice lads with a gift for this or that; but the one Nemmerle waited for had come and gone of his own will, and what they had thought of him on Roke Dulse did not know. Silence did not say. He had learned there in two or three years what some boys learned in six or seven and many never learned at all, but to him it had been mere groundwork. "The women," she whispered, "the hand. Ask them. In the village. I did see the Mountain." he could tell her. He knew what she wanted to know and little by little he told it to her, and Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles. strong man with rough greying hair, running now like a stag. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have and would protect her. Then he followed another woman meekly enough. He put on dry clothing she. "No, sir. I left." Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round at the girl, Dory. She did not return his gaze, watching her mother with stolid, sullen grief. Only after the woman sank into sleep did Dory move, going to help Rush, who as a friend and neighbor had made herself useful and was gathering up blood-soaked cloths scattered by the bed. and he ceased to think of anything at all.
