He was, indeed, a new man, a daring adventurer, and by the day he grew more formidable..She realized she hadn't turned on the radio. Before she could reach for the switch, she was asleep..Before he taught himself to read books, he also taught himself numbers, and then how to read a clock. The significance of time had a more profound impact on him than Agnes could understand, perhaps because acquiring an awareness of the infinite nature of the universe and the finite nature of each human life-and fully understanding the implications of this knowledge-takes most of us till early adulthood if not later, whereas for Barty, the vast glories of the universe and the comparatively humble nature of human existence were recognized, contemplated, and absorbed in a matter of weeks..One apartment to the right, one to the left. Junior went to the right, to Apartment 1, where he'd seen the lights come on behind the curtained windows..FOR JUNIOR CAIN, the Year of the Horse (1966) and the Year of the Sheep (1967)

offered many opportunities for personal growth and self-improvement. Even if by Christmas Eve, '67, Junior would not be able to take a dry walk in the rain, this nevertheless was a period of great achievement and much pleasure for him. Four blocks from his office, on a street more upscale than his own, Nolly came to the Tollman Building. Built in the 1930s, it had an Art Deco flair. The public areas featured travertine floors, and a WPA-ers mural extolling the machine age brightened a lobby wall. "You know where it comes from," her mother said with a yawn that betrayed her exhaustion after a night with no sleep and too much drama. Flanking the wheelchair, Edom and Jacob spent less time watching the graveside service than studying the sky. Both brothers frowned at that cloudless blue, as though seeing thunderheads. Two more uniformed officers had entered the kitchen, fresh from their search of the apartment. They were amused. With every step through the long night walk, Paul had considered what he would say, must say, if this encounter ever took place. Now all his practiced words deserted him. Because he genuinely liked women and hoped always to please them, always to be discreet and chivalrous and giving, Junior did as she wished, spinning a vivid account of the grisly vengeance he would take if ever Seraphim told anyone what he'd done to her. Vlad the Impaler, the historical inspiration for Brain Stoker's Dracula--thank you, Book-of-the-Month Club--could not have imagined bloodier or more horrific tortures and mutilations than those that Junior promised to visit upon the reverend, his wife, and Seraphim herself. Pretending to terrorize the girl excited him, and he was perceptive enough to see that she was equally excited by pretending to be terrorized. When she went upstairs at 2:10 in the morning, she found the boy fast asleep in the soft lamplight, Tunnel in the Sky at his side. Intuition told Tom Vanadium that the removal of the paintings was significant, but he wasn't a talented enough Sherlock to leap immediately to the meaning of their absence. "I'm not. I'm just going to be the conscience that Enoch Cain seems to have been born without." When Nolly sighed and frowned, his lumpish face seemed in danger of sliding off his skull, like oatmeal oozing off a spoon. "Mr. Cain, much as I regret it, I'm afraid I'm going to have to return half of the retainer you gave me." Evidently, the hero was accustomed to encounters of this nature. He rose, pulled out the unused fourth chair. "Please sit with us." Martinis were ordered all around. None here observed a vow of absolute sobriety. "I ALWAYS EAT CAV-EE-JAR FOR BREAKFAST," said Velveeta Cheese in her stuffed-bear voice. Ordinarily, a child of three would be too young to learn the use of a blind man's cane, but Barty wasn't ordinary. Initially, no cane was available for such a small child, so Barty began with a yardstick sawn off to twenty-six inches. By his last day, they had for him a custom cane, white with a black tip; the sight of it and all that it implied brought tears to Agnes just when she thought her heart had toughened for the task ahead. Rescuers encouraged her to move safely away from the passenger's door, as far as possible, to avoid being inadvertently injured as they tried to break in to her. She could go nowhere but to her dead husband. With remarkably little splash, the sedan eased into the water. Briefly it floated, bobbling near shore, tipped forward by the weight of the engine. As the lake flooded in through the floor vents, the vehicle settled steadily--then sank rapidly when water reached the two partially open windows. Barty looked at Angel, and Angel looked at Barty, and they dropped to their knees on the grass before their daughter. They were both grinning ... and then their grins stiffened a little. Therefore, after the nasty shooting, as the Bartholomew hunt continued, so did the good life. Aside from purchasing the T. S. Eliot book, which he hadn't found time to read, Junior was only peripherally aware of current events, because they were, after all, current, while he tried always to focus on the future. The news of the day was but a faint background music to him, like a song on a radio in another apartment. At a gun shop, Junior purchased two hundred rounds of ammunition. Later, that many cartridges seemed excessive to him. Later still, he purchased another two hundred. A few gasps and exclamations. A sweet giggle and applause from Angel. The reactions were surprisingly mild. "I'll teach her," Wally said, moving past them to the apartment door, fishing a ring of keys out of his coat pocket. Under a sullen afternoon sky, in the winter-drab hills, the yellow-and-white station wagon was a bright arrow, drawn and fired not from a hunter's quiver but from that of a Samaritan. could spring the new deadbolts as easily as the old. Therefore, on the interior of the front and back doors, Junior added sliding bolts, which couldn't be picked from outside. His body ached, too, especially his back, from the battering that he had taken. He remembered hitting the floor with his chin, and he supposed that he might have gotten knocked about the face more than he realized or remembered. If so, there would be bruises soon, but bruises would fade with time; in the interim, they might make him even more attractive to women, who would want to console him and kiss away the pain--especially when they discovered that he had sustained his injuries in a brutal fight, while rescuing a neighbor from a would-be rapist. In the chilly darkness, his breath plumed visibly, frosted by moonlight. The rapidity and raggedness of his radiant exhalations would have marked him as a guilty man if witnesses had been present. Although the only light on the back porch came from the pale beams that filtered out through the curtains on the kitchen windows, all these faces seemed luminous, almost preternaturally aglow, like the kiln-fired countenances of saints in a dark church, lit solely by the flames of votive candles. The rain--a music of sorts, and the jasmine and incense, and the moment sacred. "Oil and natural-gas pipelines will fracture, explode. A sea of fire will wash cities, killing hundreds of thousands more." Even in this soft light, Nolly could see that she was blushing like a young girl. She glanced around at the nearby tables. Tom said, "Now I'm going to add a human touch and a spiritual spin to all this. When each of us comes to a point where he has to make a significant moral decision affecting the development of his character and the lives of others, and each time he makes the less wise choice, that's where I myself believe a new world splits off. When I make an immoral or just a foolish choice, another world is created in which I did the right thing, and in that world, I am redeemed for a while, given a chance to become a better version of the Tom Vanadium who lives on in the other world of the wrong choice. There are so many worlds with imperfect Tom Vanadiums, but always someplace ... someplace I'm moving steadily toward a state of grace."
