"Home, where the heart is." Fear of the unknown is a weakness, for it presumes dimensions to life beyond human control. Zedd teaches that nothing is beyond our control, that nature is just a mindlessly grinding machine with no more mysteries in it than we will find in applesauce. This Monday afternoon, he longed for the escape and solace of half-hour pulp adventure. But he decided that he ought to at last compose the letter he'd been meaning to write for at least ten days. If he killed Bartholomew and got away clean, as he expected that he would, then he could subsequently return everything in the van to the apartment. He was just being prudent by planning for his future, because the future was, after all, the only place he lived. Bearing roses upon their arrival, they hadn't bothered with umbrellas. Besides, although the sky glowered, the forecast had predicted no precipitation. Deeply distressed that he was planning the funeral of a man as young as Joe Lampion, whom he had liked and admired, Panglo paused to express his disbelief and to murmur comforting words, more to himself than to Jacob, as each decision was made. With one hand on the chosen casket, he said, "Unbelievable, a traffic accident, and on the very day his son is born. So sad. So terribly sad." After all he'd suffered at Cain's hands, Tom Vanadium surprised himself by laughing at these colorful accounts of the wife killer's misadventures. Indeed, laughter had seemed disrespectful to the memories of Victoria Bressler and Naomi, and Vanadium had been torn between a desire to hear more and a feeling that finding any amusement value in a man like Cain would leave a stain on the soul that no amount of penance could scrub away. To the foot of the bed slouched the third and final Hackachak: twenty-four-year-old Kaitlin, Naomi's big sister. Kaitlin was the unfortunate sister, having inherited her looks from her father and her personality equally from both parents. A peculiar coppery cast enlivened her brown eyes, and in a certain slant of light, her angry glare could flash as red as blood. Seraphim White had come to California to give birth to him in or to spare her parents—and their congregation—embarrassment. He stopped straining to see through the black room to the corner armchair. He closed his eyes and tried to lull himself to sleep by summoning into his mind's eye a lovely but calculatedly monotonous scene of gentle waves breaking on a moonlit shore. Those who had just met her and those who were overly charmed by eccentricity called her Seraphim, her name complete. Her teachers, neighbors, and casual acquaintances called her Sera. Those who knew her best and loved her the most deeply—like her sister, Celestina called her Phimie. "She. Was eating. Dried apricots." Junior spoke almost in a whisper yet the ridge was so quiet that he had no doubt each of these uniformed but unofficial jurors heard him clearly. "Walking. Around the deck. Paused. The view. She. She. She leaned. Gone." Neighbors might not be home. And by the time he knocked, asked to use the phone, dialed ... Too great a waste of time. She felt that she had failed her sister. She didn't know what more she could have done, but if she'd been wiser and more insightful and more attentive, surely this terrible loss would not have come to pass. Before he taught himself to read books, he also taught himself numbers, and then how to read a clock. The significance of time had a more profound impact on him than Agnes could understand, perhaps because acquiring an awareness of the infinite nature of the universe and the finite nature of each human life—and fully understanding the implications of this knowledge—takes most of us till early adulthood if not later, whereas for Barty, the vast glories of the universe and the comparatively humble nature of human existence were recognized, contemplated, and absorbed in a matter of weeks. Victoria lived on the northeast edge of Spruce Hills, where streets petered into country lanes. Here the houses tended to be more rustic, built on larger and less formally landscaped lots than those closer to the center of town, and set back farther from the street. With the successful consumption of the burger and with the addition of the third Sklent to his collection, Junior felt more upbeat than he'd been in quite a while. Contributing to his better mood was the fact that he hadn't heard the phantom singer in longer than three months, since the library in July. He had bribed a parking attendant to keep his Mercedes at the curb in a valet zone, in front of a nearby restaurant, so it would be instantly available when needed. He could also leave the car and follow Celestina on foot if she chose to stroll home from here. Her eyes, lustrous pools, brimmed with the need to know, but she respected the deal. "I only half understood all that, and I don't even know which half, but in some strange way, it feels true. Thank you. I will think about it tonight, when I can't sleep." She stepped close and kissed him on the cheek. "Who are you, Tom Vanadium?" Instead, he encountered an elderly woman getting out of a red Pontiac with a fox tail tied to the radio antenna. A quick glance around confirmed that they were unobserved, so he clubbed her on the back of the head with the butt of his 9-mm pistol. "—and wherever he went, between his shows, he always gave free performances at nursing homes, schools for the deaf." Dragonfly. By telephone, he had been prepared for this boy. Strange as it was to find a Bartholomew in their lives, given Enoch Cain's peculiar obsession, Tom nonetheless agreed with Celestina that the wife killer could have no way to know about this child—and could certainly have no logical reason to fear him. The only thing they had in common was Harrison White's sermon, which had inspired this boy's name and might have planted the seed of guilt in Cain's mind. In the kitchen, he fussily avoided the blood and stepped around Victoria to switch off both ovens. He killed the gas flame under the large pot of boiling water on the cook top. These Spartan arrangements were good enough for Vanadium. He had arrived from Oregon the previous night with three suitcases full of his clothes and personal effects. He expected that his unique combination of detective work and psychological warfare would enable him to entrap Cain in a month, before these accommodations began to feel too austere even for one to whom anything fancier than a monk's cell could seem baroque. "All under here's worked out long since" Licky said. And Otter had begun to be aware of the strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical labyrinth, the deepest pits filled with unmoving water. "Never was much silver, and the watermetal's long gone. Listen, young'un, do you even know what cinnabar is?" Lord, listen to me—but I've really got to know if you can, if you are, how you feel, whether you feel, I mean, whether you think you could feel—. Meanwhile, she could offer him only a few pieces of ice, which he was forbidden to chew. "Let them melt in your mouth." A SEVERE THIRST INDICATED to Agnes that she wasn't dead. There would be no thirst in paradise. She was four years older than Phimie. They hadn't seen a great deal of each other during the past three years, since Celestina had come to San Francisco. Although distance and time, the press of her studies, and the busyness of daily life had not made her forget that she loved Phimie, she had forgotten the purity and the power of love. Rediscovering it now, she was shaken so badly that she had to pull a chair to the side of the bed and sit down. murdered would be discounted. And if every death was suspicious to him, then he would quickly lose interest in Junior and move on to a new enthusiasm, harassing some other poor devil. Maria, however, lived comfortably with both the Catholicism and the occultism in which she had been raised. In Hermosillo, Mexico, the

latter had been nearly as important to the spiritual life of her family as had been the former.. "What kept me going these past two and a half years was knowing that I could get my hands on Mr. Cain when I was finally well enough to do something about him." "I really am sorry about this," Junior said, regretting the necessity to deny her the right to look good at her own funeral, "but it's got to appear to be a crime of passion." He knew the sermon, of course. The example of Bartholomew. The theme of chain-reaction in human lives. The observation that a small kindness can inspire greater and ever-greater kindnesses of which we never learn, in lives distant both in time and space.. Vanadium sat in the chair, watching. With the perfect control of a sleight-of-hand artist, he turned a quarter end-over-end across the knuckles of his right hand, palmed it with his thumb, caused it to reappear at his little finger, and rolled it across his knuckles again, ceaselessly.. Sometimes Celestina marveled at how intimately and inextricably the tendrils of tragedy and joy were intertwined in the vine of life. Sorrow was often the root of future joy, and joy could be the seed of sorrow yet to come. The layered patterns in the vine were so complex, so enrapturing in their lush detail and so fearsome in their wild inevitability, that she could fill uncountable canvases, through many lifetimes as an artist, striving to capture the enigmatic nature of existence, in all its beauty dark and bright, and in the end merely suggest the palest shadow of its mystery.. An emergency kit in the trunk of his car contained a flashlight. He fetched it and sweetened the bribe to the valet.. It was then that village sorcery, and above all women's witchery, came into the ill repute that has clung to it since. Witches paid dearly for practicing the arts they thought of as their own. The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and order of field and garden, the building and care of the house and its furniture, the mining of ores and metals-these great things had always been in the charge of women. A rich lore of spells and charms to ensure the good outcome of such undertakings was shared among the witches. But when things went wrong at the birth, or in the field, that would be the witches' fault. And things went wrong more often than right, with the wizards warring, using poisons and curses recklessly to gain immediate advantage without thought for what followed after. They brought drought and storm, blights and fires and sicknesses across the land, and the village witch was punished for them. She didn't know why her charm of healing caused the wound to gangrene, why the child she brought into the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was there, right there in the village or the town, not off in the warlord's castle or fort, not protected by armed men and spells of defense. Sorcerers and witches were drowned in the poisoned wells, burned in the withered fields, buried alive to make the dead earth rich again.. When he was baking, the world seemed to be a less dangerous place. Sometimes, making a cake, he forgot to be afraid.. The traffic light turned green. Now onward home. Rolex recovered and bright upon his wrist, Junior Cain drove his Mercedes with a restraint that required more self-control than he had realized he could tap, even with the guidance of Zedd.. She realized she hadn't turned on the radio. Before she could reach for the switch, she was asleep.. Someone named Bartholomew had adopted Seraphim's son and named the boy after himself Junior applied the patience learned through meditation to the task at hand, and instinctively, he soon evolved a motivating mantra that continuously cycled through his mind while he studied the telephone directories: Find the father, kill the son.. After the paralytic bladder seizures had passed and Junior had drained Lake Mead, Chicane recommended plenty of caffeine and sugar to guard against an unlikely but not impossible spontaneous return to a trance state. "Anyway, after pumping alpha waves for as long as you just did, you shouldn't actually need to sleep anytime soon." During the walk home: slow and deep, breathing slow and deep, moving not at a brisk clip, but strolling, trying to let the tension slide away, striving to focus on good things like his full exemption from military service and his purchase of the Sklent painting.. "Imagine me thinking you'd be gone," she said to Barty. "Your old mum is losing it. I never made a deal with Rumpelstiltskin, so there's nothing for him to collect." Sad symbols of a romance not meant to be, the red rose and the bottle of wine lay on the floor of the foyer. With the corpse gone, no signs of violence remained.. "Oh, yes, I recall it now. Polar bears eating tourists in Union Square, wolf packs prowling the Heights." Otter was reluctant to answer. He had to like Hound, but didn't have to trust him. "Shape-changing," he mumbled at last.. Struggling to keep a grip on consciousness, Junior told himself to focus on the future, to live in the future, free of the useless past and the difficult present, but he could not get into the future far enough to be in a time when the pain was no longer with him.. He hadn't lied to his mother. She assumed that by some quantum magic, he had regained his sight permanently, and that this came with no cost. He merely allowed her to go to her rest with the comforting misapprehension that her son had been freed from darkness.. The can struck Junior hard in the face, breaking his nose, before he could duck.. Instead of answering the question, meaning to imply that he believed Junior already knew the facts, Thomas Vanadium said, "I was able to get a warrant to search your house." Junior thought this must be a trick. No hard evidence existed to indicate that Naomi had died at the hands of another rather than by accident.. The man's voice echoed hollowly in Junior's ears, as if coming from the far end of a tunnel. Or from the terminus of a death-row hallway, on the long walk between the last meal and the execution chamber.. Junior closed his weary eyes and gratefully submitted as the paramedic wiped his greasy face and his crusted lips with a cool, damp cloth.. "We have reason to believe that the man who raped your sister is stalking you." In the end, the reason for the walking was the walking itself. Walking gave him something to do, a needed purpose. Motion equaled meaning. Movement became a medicine for melancholy, a preventive for madness.. I believe the universe is sort of like an unimaginably vast musical with an infinite number of strings." Tom himself had decided to build a new life here, as well, assisting Agnes with her ever-expanding work. He was not yet sure whether this would include the rededication to his vows and a return to the Roman collar, or whether he would spend the rest of his days in civvies. He was delaying that decision until the Cain case was resolved.. When she tried to say bow, the how of speech eluded her, and she sat as mute as if no words had ever passed her lips before.. Two more uniformed officers had entered the kitchen, fresh from their search of the apartment. They were amused.. Her first year at college, she had hoped only to be able one day to earn a living as an illustrator for magazines or on the staff of an advertising agency. A career in the fine arts, of course, was every painter's fantasy, the full freedom to explore her talent; but she would have been grateful for the realization of a much humbler dream. Now, she was just twenty-three, and the world hung before her like a ripe plum, and she seemed able to reach high enough to pluck it off the branch.
