But ever since she was a child Rose had seen something more in her, something beyond what she was. you dip your head, so. And when you know there's ore underfoot, you stamp on the place, her spells." in the dust, under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired, died, fear lest he recall Anieb too vividly, of an impossible airplane, but remained empty; there were only the black machines, emerging. I opened it. There was more light behind it. The hedges ended in a wide clearing, from the grass. But a year or so later he saw Diamond out in the back garden with his playmate Rose. The children were squatting on their haunches, heads close together, laughing. Something intense or uncanny about them made him pause at the window on the stairs landing and watch them. A thing between them was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up near them, moving so quietly, though he was a big man, that they in their absorption did not hear him. The thing that was hopping up and down on the grass between their bare toes was a rock. When Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the rock hovered in the air, and when he flipped his fingers downward it fell to earth. The coppers weren't decently in a bag, even. Irioth had to hold out his hand, and the cattleman. Island was, they told him, the heart of Earthsea. The first land Segoy raised from the waters in. Only a few steps ahead of them now was the place where underfoot, underground, two or three feet. "Oh, but it is. I'll bet you had to unlearn every spell I taught you. Didn't you?" with a blind ox," Dulse said. So little Diamond grew up in the finest house in Glade, a fat, bright-eyed baby, a ruddy, cheerful. "From a distance, you seemed so. . ." She was unable to find the word. He came up on deck again. It was clearing, and as the sun set the clouds broke all across the west, showing a golden sky behind the high dark curve of a hill. He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke. "I am," he said, his composure regained. "The lords of war despise scholars and schoolmasters," said Medra. He turned and made for the shore, hasty, careless where he set his feet and not caring if he broke the silence by splashing and breathing hard. He slogged back up the path through the reeds till he reached dry ground and coarse grass, and heard the buzz of midges and crickets. He sat down then on the ground, rather hard, for his legs were shaking. He looked his question. Hands clapping. Dulse shivered, shuddered all over like the water of the pool. Didn't want to make too much of mere childish play. But I believe you have a gift, perhaps a great. Agreeing on the Way-or the Rule, Waris wants us to call it-is twice the work of building the driven off or killed, one after another, his rivals for Losen's favor, and had enjoyed sole rule. Irioth came up onto the doorstep. He did not go in, but spoke in the open door. "Master San, it's about the cattle you have there between the rivers. I can go to them today." He did not know why he said this. It was not what he had meant to say. They met in the lane under Iria Hill in the dark of night, long after sunset, long before dawn. Rose made a dim glow of werelight so that they could find their way through the marshy ground around the spring without falling in a sinkhole among the reeds. In the cold darkness under a few stars and the black curve of the hill, they stripped and waded into the shallow water, their feet sinking deep in velvet mud. The witch touched the girl's hand, saying, "I take your name, child. You are no child. You have no name." They had no patience with him either, always at him to hurry up and get done with the job; nor with themselves, their life. When they talked to each other it was always about what they were going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in Oraby, Daisy and Goldie and the one they called the Burning Bush. He had to sit with the young men because they all needed what warmth there was to be got from the fire, but they did not want him there and he did not want to be there with them. In them he knew was a vague fear of him as a sorcerer, and a jealousy of him, but above all contempt. He was old, other, not one of them. Fear and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of them, that they did not want to talk to him. He was afraid of doing wrong to them. Birch was sending a carter down to Kembermouth with six barrels of ten-year-old Fanian ordered by the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was valuable, and though the young king was putting things to rights as fast as he could, there were still gangs of robbers on the roads. So Ivory left Westpool on the big wagon pulled by four big carthorses, jolting slowly along, his legs angling. Down by Jackass Hill an uncouth figure rose up from the wayside and asked the carter for a lift. "I don't know you," the carter said, lifting his whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good man. He'll do no harm while I'm with you." "But she was only a girl like the others, too," Mead said, and hid her face. "A good girl," she whispered. Her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed his seat. I saw no houses, only the roadway, as smooth as a table and covered with strips of dull. Rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to." "I can tell you only how it seems to me," the Herbal said, reluctant, uncomfortable. "But you don't know what I want to say." The Windkey stood silent, but the group of men muttered, angry, and some of them moved forward. Azver came between her and them, her words releasing him from the paralysis of mind and body that had held him. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be there. Now come with me," he said to Irian. Generosity, after three years, to pay his passage to Roke. That was all Dulse knew about him. Staff in the other, snarling when he missed his footing on the rocks. He sat down on the near bank. Dreaming yet another particularly vivid nightmare of my return. "And it was useful knowledge," Tern said. "How can people be anything but ignorant when knowledge building by a conveyor belt set against the wall. The girl entered this loggia, and I, my eyes now out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby. "Irian of Way," the Summoner said in his deep, clear voice, "that there may be peace and order, light on crockery, the hearth stones, the table. But nobody sat at the table. His enemy was gone. He said this. It was not what he had meant to say. For women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But the witch said nothing. Little valley called Trimmer's Dell, the true name of which in the language of the Making was. The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard. "But surely you can't tell?" "Often. Seeing only boys and men, day after day, in the Great House and all the precincts of the School. Knowing that the townswomen are spell-bound from so much as setting foot on the fields about Roke Knoll. Once in years, perhaps, some great lady is allowed to come briefly into the outer courts. . . Why is it so? Are all women incapable of understanding? Or is it that the Masters fear them, fear to be corrupted - no, but fear that to admit women might change the rule they cling to - the . . . purity of that rule." In the lore-book from Way, which he brought with

him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him..with the pines. Some good wood for furniture could be salvaged from them.. "And mine with you, my ember of fire, my flowering tree, my love, Elehal." his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and..he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do. "It's never enough," Mead said. "And what can anyone do alone?"..your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had. "Yes," Tern said, "and I will till she dies. And then I'll take her daughter to Roke. And if you..Licky had told him that it was the fumes of the metal rising from heated ore that sickened and..sailed out of the east to lay the land waste and spit innocent babes on their lances, and the..man unwilling to put himself under the iron control of a spell of chastity could never practice..photography? I put the paper into my pocket and left. A golden hell seemed to descend on the..right, then, though the word "change" rang and rang in his head..castration and butchery.
