Holding up his misshapen hands, knobby knuckles toward Agnes, Obadiah said, "How do you think they

became like this?". Before Celestina probed and perhaps touched upon a sore tooth of truth, Tom launched into the story of King Obadiah, Pharaoh of the Fantastic, who had taught him all he knew about sleight of hand. "I'm interested in one of the smaller Griskins," said Junior, managing to appear calm, although his mouth was dry with fear and his mind spun with crazy images of the maniac cop, dead and rotting but nevertheless lurching around San Francisco. When Junior complained of severe thirst, Victoria explained that he was to have nothing by mouth until morning. He would be put on a liquid diet for breakfast and lunch. Soft foods might be allowable by dinnertime tomorrow. We have inhabited both the actual and the imaginary realms for a long time. But we don't live in either place the way our parents or ancestors did. Enchantment alters with age, and with the age. In the refrigerator, he found a stick of butter in a container with clear plastic lid. He took the container to the cutting board beside the sink, to the left of the cooktop, and opened it. Standard decks of playing cards are machine packed, always in the same order, according to suits. You can absolutely count on the fact that each deck you open will be assembled in precisely the same order as every other deck you have ever opened or ever will open. The rocking chair stopped squeaking under her. She heard the sincerity in Vinnie's voice, and as her disbelief dissolved, she was shocked into immobility. She whispered, "My little superstition." use it. The cop was no threat to the English army, as Joan had been, but as far as Junior was concerned, the creep most definitely deserved to be burned at the stake. "No. But I'm sure as can be, the kid is better off undiscovered by the likes of him." "Maria brought that from Mexico," Barty said. "She thought it was pretty funny. So do I. It's a hoot. Mom says it isn't really blasphemous, because it wasn't meant to be by the people who made it, and because Jesus would want you to have cookies, and, besides, it reminds us to be thankful for all the good things we get." Maria set aside two cards before turning another faceup. This was also an ace of hearts. Having been so wounded by one death, Celestina could not imagine how Lipscomb could have survived the loss of his entire family. Pity knotted her heart and cinched her throat so that she spoke in little more than a whisper: "Was that the American Airlines. . .". Barty paced off the downstairs hallway to the kitchen, thinking about Dr. Jekyll and the hideous Mr. Hyde. He decided that he must never again kill so impetuously. Never. In fact, he vowed never again to kill at all, except in self-defense. Soon he would be rich-with much to lose if he was caught. Homicide was a marvelous adventure; sadly, however, it was an entertainment that he could no longer afford. Jacob trusted no one but Agnes and Edom. He'd trusted Joey Lampion, too, after years of wary observance. Now Joey was dead, and his corpse was in the embalming chamber of the Panglo Funeral Home. Otter shrugged. Not that she ever gave any indication that her brothers were other than a source of pride for her. She treated them always with respect, tenderness, and love-as if unaware of their shortcomings. The gray pewter appeared to be mottled with a black substance. Perhaps char. As though it had been soiled in a fire. "All right," Agnes said, and as she voiced her acceptance, she was shivered by a sudden fear for which she couldn't at once identify a cause. Tom between curiosity and emotional exhaustion, Celestina held his gaze, thinking, and finally she said, "Deal." At the foot of the bed: a cedar chest. Four feet long, two feet wide, perhaps three high. Brass handles. And in time, the surgeon did appear, bearing the good news that neither of the malignancies had spread to the orbit and optic nerve, but he had no greater miracle to report. Down the stairs, through the ground floor, quickly, soundlessly, breath held at times, listening for the other's breathing, listening for the softest squeak of rubber-soled shoes, although the hard clack of cloven hoofs and a whiff of sulfur would not have been surprising. At last he went to the kitchen, full circle from the shiny quarter on the breakfast table to the quarter again. No Cain. This Detroit-built gondola would swiftly navigate the Styx without a black-robed gondolier to pole it onward. At the grave, they arrived with red and white roses. Agnes carried the red, and Barty brought the white. She tried to tell him that he was going to make it, that he would be with her for a long time, that the universe was not so cruel as to take him at thirty with all their lives ahead of them, but the truth was here to see, and she could not lie to him. With that thought, he made himself laugh. Unfortunately, his laughter was high-pitched and shaky, and it scared the hell out of him. Returning his attention to his own shoes, Jacob said, "So ... what am I supposed to do about this?". Her hands shook, her entire body shook, and in her mind was a hard clatter of fear like the wheels of a roller coaster rattling over poorly seamed tracks. He still had work to do here. Properly disposing of Thomas Vanadium, however, was the most urgent piece of business. The police. The stupid police. Ringing the bell when they knew he'd been shot. Ringing the damn doorbell when he lay here helpless, the Industrial Woman lurching toward him, his toe on the other side of the kitchen, ringing the doorbell when he was losing enough blood to give transfusions to an entire ward of wounded hemophiliacs. The stupid bastards were probably expecting him to serve tea and a plate of butter cookies, little paper doilies between each cup and saucer. He tucked his left arm tight against his side and threw himself against the door. The obstructing furniture was heavy, but it moved an inch. If it would give one inch, it would give two, so it wasn't immovable, and he was already as good as in there. In the morning, after Agnes showered and dressed, when she went downstairs, she discovered Barty already at the kitchen table, eating a bowl of cereal while riveted to the book. Finished with breakfast, he returned to his room, reading as he went. Perhaps the paramedic had given him an injection, a sedative. The howling ambulance rocked along on this most momentous day, Junior Cain wept profoundly but quietly--and achieved temporary peace in a dreamless sleep. His right side, however, had come to rest against an object harder than bagged paper, an angular mass. As the skull-rattling gong faded, allowing more clarity of thought, he realized that an unpleasant, vaguely warm, damp something was pressed against his right cheek. Unerringly, in the darkness, he found her face with both hands. Smoothed her brow. Traced her eyes with fingertips. Her nose, her lips. Her cheeks. "And in some of them, maybe I died the night you were born, and you live alone with your dad." "Be quiet, sugarpie," she said, crossing the bedroom to the door, which stood only slightly ajar. With the great tree ninety degrees to his left, he was able to locate the back-porch steps at forty-five degrees. He pointed with the cane, which otherwise he had not used. "The porch?". Shortly after Agnes turned out the light, she said, "Kiddo, it's been one whole week since you walked where the rain wasn't, and I've been doing a lot of thinking about that." Junior suspected that no one other than this man's mother called him Tom. He was probably "Detective" to some and "Vanadium" to most who knew him. When pale light came to her eyes again, she heard the paramedic and the cop talking anxiously as they worked on her, but she couldn't understand their words. They seemed to be speaking not just a foreign tongue but an ancient language unheard on earth for a thousand years. Nolly shuddered. "The wilds of Oregon. I don't intend ever to go there until it's civilized." At worst, Vanadium might begin to wonder if Junior had a link to Seraphim, might uncover the physical-therapy connection, and in his paranoia, might erroneously conclude that Junior had something to do with her traffic accident. That was nuts, of course, but the detective was evidently not a rational man. Although rain-pasted to her skin, the fine hairs rose on the nape of her neck. The gooseflesh crawling across her arms had nothing to do with her cold, wet clothes. A few gasps and exclamations. A sweet giggle and applause from Angel. The reactions were

surprisingly mild.. "I'm paying," Celestina insisted when they were seated. "I'm now a successful artist, with untold numbers of critics just waiting to savage me." Junior had seen the silvery coin snapping off the cop's thumb and spinning upward. Now it was gone, as though it had vanished in midair. On the counter beside the bathroom sink stood an open box of BandAids in a variety of sizes, a bottle of rubbing alcohol, and a bottle of iodine.. pistol that he'd purchased in late June. The city operated a program to melt confiscated and donated weapons and to remake them into plowshares or xylophones, or into the metal fittings of hookah pipes. To prove himself, he read a little of Dickens when she requested it, a passage from Great Expectations. Then a passage from Twain.. In spite of the ravages of illness and age, beauty remained in the old woman's face. Her bone structure was superb. In youth, she must have been stunning. Celestina, surprised by Lipscomb's arrival, was still mentally numb from Neddy's harangue. "Doctor, I didn't know you were coming." The night of Barty's birth, when Joey actually lay dead in the pickup-bashed Pontiac, as a paramedic had rolled Agnes's gurney to the back door of the ambulance, she had seen her husband standing there, untouched by that rain as her son was untouched by this. But Joey-dry-in-the-storm had been a ghost or an illusion fostered by shock and loss of blood. "Nah. Every secret society has a secret handshake. We'll have this instead." Her face was still close to his, and she rubbed noses with him. He was able to search five pages at a sitting before his head began to ache. He'd been putting in two sessions each day, starting this past Tuesday. Four thousand names a day. Sixteen thousand total when he finished the fifth of this evening's pages. As if he sensed her reluctance to return to Dr. Chan, Barty had kept her occupied with talk of the red planet as they approached the office building, had talked her off the street, along the driveway, and into a parking space, where finally she relinquished the fantasy of an endless road trip. At 5:45, long past the end of office hours, Dr. Chan's suite was quiet. If he had cut himself intentionally for the express purpose of writing the name in blood, then the reservoir of anger was deeper still and pent up behind a formidable dam of obsession. Wild exhilaration burst through him like pyrotechnics blazing in a night sky, reminiscent of the rush of excitement that followed his bold action on the fire tower. Happily, Junior had no emotional connection to Prosser, as he'd had to beloved Naomi; therefore, the purity of his. "It's a miracle both of you didn't go through that railing," the attorney agreed. By the grace of Caesar Zedd and Remy Martin, Junior eventually slipped into undulant currents of sleep, and as he drifted away on those velvet tides, he took some solace from the thought that come what may, December 29 would be a better day than December 28. Barty, thirteen years old but listening to books at a postgraduate college level, had no doubt studied leukemia while they were awaiting the test results, to prepare himself to fully understand the diagnosis on first receiving it. He tried not to look stricken when he heard acute myeloblastic, which was the worst form of the disease, but he appeared more ghastly in his pretense than if he had revealed his understanding. Had his eyes not been artificial, his stiff-upper-lip pose would have been utterly unconvincing. He arrived at the open door, grinning. No Cheshire-cat grin, hanging disembodied on the air, teeth without tabby. Grin with full Barty. Sitting on the edge of the bed, Maria lightly salted the runny eggs and spooned them into Agnes's mouth. "Eggs is as chickens does." More likely than not, he would cross Bartholomew's path when he least expected, not as a consequence of his searching, but in the normal course of a (lay. If that happened, he must be prepared to eliminate the threat immediately, by any means available to him. Frantically, he squirmed around on the floor until he was facing the entrance to the kitchen. Through tears of pain, he expected to see a Frankensteinian shadow loom in the hall, and then the creature itself, gnashing its fork-tine teeth, its corkscrew nipples spinning. She looked down at her clutched hands. Made for work, these hands, and always ready to take on any task. Strong, nimble, reliable hands, but useless to her now, unable to perform the one miracle she needed. "Barty's birthday is in eight days. I was hoping. . .". Truly, the time spent helping Agnes had given her uncountable new subjects for paintings and had begun to bring to her work a new depth that excited her. "When you pour out your pockets into the pockets of others," Agnes had once said, "you just wind up richer in the morning than you were the night before." She heard the door, and when she opened her eyes, the bay had already slid out of the car, into the downpour again. She called him back, but he kept going. Walking away, he was aware of the many faces at the windows, all as stupid as the faces of cud-chewing cows. He had given them something to talk about when they returned from lunch to their shops and offices. He'd reduced himself to an object of amusement for strangers, had briefly become one of the city's army of eccentrics. Through the remainder of his dinner, he was entirely future focused, the past put safely out of mind. Until Shortly after four o'clock, here was Neddy, already spiffed for work in black tuxedo, pleated white shirt, and black bow tie, with a red bud rose as a boutonniere, standing just inside the open door to Celestina White's studio apartment, holding forth in tedious detail as to the reasons why she was in flagrant breach of her lease and obligated to move by the end of the month. The issue was Angel, lone baby in an otherwise childless building: her crying (though she rarely cried), her noisy play (though Angel wasn't yet strong enough to shake a rattle), and the potential she represented for damage to the premises (though she was not yet able to get out of a bassinet on her own, let alone go at the plaster with a ball-peen hammer). "My little girl," she said, and belatedly she realized that this might not be a policeman, after all, but someone trying to determine if she and Angel were alone in the apartment. He followed an alleyway to the building's service entrance, for which he possessed a key that wasn't provided to other tenants. He unlocked the steel door and stepped into a small, dimly lighted receiving room with gray walls and a speckled blue linoleum floor. With a bark of pain, chest to chest with defeat, the killer was borne downward by the fragrant weight, in a clink and clatter of brass handles. You scrawl names on the walls with your own blood, play Psycho with a Sheetrock stand-in for Janet Leigh and then fly off to Reno for a weekend of blackjack, stage shows, and all-you-can-eat buffets. Not likely.
