The shorter-term price to be paid was regrettable, but when had Nature ever offered free lunches? And in the longer term, what did it mean anyway? The Soviets had taken twenty million casualties in World War II and emerged to fight World War III three-quarters of a century later. And in that conflict the U.S. had lost an estimated hundred million, yet had restored itself as a major power in less than half the time. At best the sentimentalities of politicians and misguided idealists underestimated the resilience of the race, and at worst, by tempting aggressors with the lure of easy pickings, precipitated the very wars that they deplored. Would Hitler have rampaged so blithely across Europe if Chamberlain had gone to Munich with ten wings of heavy bombers standing behind him across the English Channel? And when all the hackneyed words were played and spent, hadn't

everything worthwhile in history been gained in the end by its generals?. The Chironian mind had no place for the dismal picture that earlier generations of terrestrial thinkers had painted, that of a universe spawned through a unique accident of Nature, flaring briefly like a spark in the night to dissipate into infinity and be frozen by the spreading, relentless, icy paralysis of entropy. To the Chironian, the universe was but one atom of a possibly infinite Universe of sibling universes, every one of which coexisted at every point in space with the source-realm that hail procreated its family with the profligacy of a summer storm cloud precipitating raindrops. Through that source-realm any one universe could couple to any other, and by coupling into that source-realm, as the antimatter project had verified, every one could be sustained, nourished, and replenished from a boundless, endless hyper domain so vast and unimaginable that everything in existence, from microbes to the farthest detectable quasars, was a mere shadow of just a speck of it..land safely in a leap from the driver's seat, which he now occupies.
