"Of course I know the witch's use-name was Rose, like a great many women of Way and other islands of the Hardic." "Yes. To send away one woman, it takes nine mages." He very seldom smiled, and when he did it was. Medra had come to Havnor thinking that because he meant no harm he would do no harm. He had done irreparable harm. Men and women and children had died because he was there. They had died in torment, burned alive. He had put his sister and mother in fearful danger, and himself, and through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used him as he was said to use people, emptying their minds like little sacks, then everyone on Roke would be exposed to the wizards power and to the might of the fleets and armies under his command. Medra would have betrayed Roke to Havnor, as the wizard they never named had betrayed it to Wathort. Maybe that man, too, had thought he could do no harm. heard of the isle or seen it on a chart? She had had no one in her life to desire. Rose had explained to her how wizards' spells worked 'so that it never enters your head nor theirs, see, because it would take from their power, they say'. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons, know some words of the Old Speech innately. Sorcerers and witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently as the dragons do. bestiary in the barn loft... But there's nothing much to look for here. Nothing of importance. Ath. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him. Tell him what he sees, Anieb whispered in Otter's mind, and he spoke: "A stream runs through darkness over a glittering roof. Under the roof is the House of the King. Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half mud and reeds, with one vague, boggy path to the water, and no track on that but goat-hoofs. The water was dark, though it lay out under the bright sky and far above the peat soils. Dulse followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to keep from falling. At the brink of the water he stood still. He stooped to rub his ankle. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously.
