Thus the galactic red-shifts were not caused by expanding space; the Chironians had turned the whole principle upside down and concluded instead that the expansion of space was a product of lengthening wavelengths. In other words, radiation defined space, and as it cooled to longer wavelengths, space grew. Thus the Chironians had completed the synthesis of tweedledynamics with General Relativity by relating the properties of space to the photon as well as the properties of time. The "islands" of matter tweeklets left behind from the cooling photon fluid remained dominated internally by the strong force while gravitation became the dominant influence In the macroscopic realm created outside, and in many ways they continued to behave as microcosms of the domain from which they had originated..by the thousands, by the millions.
