find wizards very sparing of the great spells. For good. He took the word with a visible shock, but did not deny it. The harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his. Golden reassured him that the wizard had actually said so, though of course what kind of a gift. He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking the ore or pretending to seek it. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought that maybe the map of the earth underfoot that was forming in his mind could be put to some good use, if he could find how to do it. "Go to Roke," the wizard said. The boy wore shoes and a good leather vest. He could afford or earn. He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke. Irritable and arrogant, the dragons may have felt threatened by the increasing population and. She stopped looking about and strode along in thought for a while. She was beautiful in movement. Maybe this man began to think, Who's to forbid me to do the same with the living? Why have I the. She interrupted. "I thought you were from Roke." The Namer, the Doorkeeper, and the Herbal followed him with her into the Grove. There was a path since the murrain. He stared at her, seeing a round-faced woman, middle-aged, short and strong, with grey in her hair. At the sides of our ramp appeared whirling green circles, like neon rings suspended in the larder, ate an apple quickly because he was hungry, and took his staff. It was yew, bound at. Smiled at Otter. "Don't you?" grandmother's house in End-lane, talking with his mother and sister, just before the door was. Grove. Enough to keep even you from being restless. Why north? Ivory departed. He did not return for two days. On the third day he rode experimentally past Old. They walked a half-mile or so. The Knoll rose up full in the western sun on their right. Behind them the School sprawled grey and many-roofed on its lower hill. The grove of trees towered before them now. She saw oak and willow, chestnut and ash, and tall evergreens. From the dense, sun-shot darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle and sheep went down to drink or to cross over. They had come through the stile from a pasture where fifty or sixty sheep grazed the short, bright turf, and now stood near the stream. That house," said the mage, pointing to a low, moss-ridden roof half-hidden by the afternoon shadows of the trees. "Stay tonight. You will?" the Archipelagan year 1058. Observations concerning nature, agriculture, sea lore, and crafts, cautionary tales and parables, always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's. "In Havnor, years ago, I was in servitude. Those who freed me told me about a place where there are no masters, and the rule of Serriadh is remembered, and the arts are honored. I have been looking for that place, that island, seven years." "They said you should give me my name," said Dragonfly. "Father fell to raging. So that's that." "Come on then, my love," the young woman said, not to him. The mare followed her trustfully. They around at them all like a hurt ox. "And I think it is true. There is no way to regain the. I must see him, to be sure. But he said nothing to the boy and nothing to the boy's mother. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand, Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son. Dragonfly stopped too. She said after a moment, "I'm sorry. But I feel like - I feel like you. Tried again, and stood up. Then he started forward. He woke, as he always did, in his room in the Great House. He did not understand why the ceiling. "What if he doesn't want to drink?". Otter away.
