"I can see I'll be drawing on your knowledge a lot in the years to come. What do you see as the next order of business?" You only had to take one look at his hands to know he'd never done a lick of work in his life. "Why write?" I asked Selene. That made sense but didn't answer his question. "When do you write them?" It was small comfort, but Nolan had no choice. And he was too tired to protest, too tired to worry. my word. He was real bad this evening. He came down about four-fifteen, like I said. He didn't. "What does the title mean?" he asked, hoping it might modify the unfriendly message of the four short lines that followed. We let it go at that. of endless rock wastes and lava flows, a mysteriously evocative moment in what seems to be the sacred. Later in the castle hall, Amos and the prince stood bound by the back wall. The grey man chuckled to himself as he hung up the two-thirds completed mirror. We made the cold dash across the beach to die cabin, picking up our clothes on the way. Inside we huddled together wishing for a fire and towed ourselves dry while the polycarpet ran rainbows of browns and electric blues around our feet. In the course of it I got my arms around Selene. I pulled her against me. She met my mouth hungrily, but when I started pulling her toward the fake animal pelt in front of the fireplace, she rammed me with a sharp hipbone and wiggled loose. death us do part," Selene said. "They've got practically all their strength out on the flanks both ways along the gorge," Swley announced. "There are some units moving down the opposite slope, but they won't be in position for about another thirty minutes." The glow from the screen highlighted the mystified look that flashed across his face. He shrugged. "Right now they're wide open, right down below us." Call him Smith. He was the president of a company that bore his name and which held more than a hundred patents in the scientific instrument field. He was sixty, a widower. His only daughter and her husband had been killed in a plane crash in 1978. He had a partner who handled the business operations now; Smith spent most of his time in his own lab. In the spring of 1990 he was working on an image-intensification device that was puzzling because it was too good. He had it on his bench now, aimed at a deep shadow box across the room; at the back of the box was a card ruled with black, green, red and blue lines. The only source of illumination was a single ten-watt bulb hung behind the shadow box; the light reflected from the card did not even register on his meter, and yet the image in the screen of his device was sharp and bright. When he varied the inputs to the components in a certain way, the bright image vanished and was replaced by shadows, like the ghost of another image. He had monitored every television channel, had shielded the device against radio frequencies, and the ghosts remained. Increasing the illumination did not make them clearer. They were vaguely rectilinear shapes without any coherent pattern. Occasionally a moving blur traveled slowly across them. Another section opened up and they stepped through it. After three more gates were passed, the temperature and pressure were nearly Earth-normal. And they were standing beside a small oriental woman with skin tanned almost black. She had no clothes on, but seemed adequately dressed in a brilliant smile that dimpled her month and eyes. Her hair was streaked with gray. She would be?
