At many houses, strings of Christmas lights painted patterns of color at the

eaves, around the window frames, and along the porch railings—all so blurred by fog that Junior seemed to be moving through a dreamscape with Japanese lanterns. Dinner was cooking in the upper of the two ovens. He switched the bottom oven, setting it at warm, and dropped open the door. Requests for permission to make copies of any part of the work should be mailed to the following address: surreptitiously with Junior. He was accustomed to being an object of desire. This night, however, the only lady he cared about was San Francisco herself, and he wanted to be alone with her. Eleven days had passed since Wally stopped three bullets. He still had a little residual weakness in his arms, grew tired more easily than before he'd wound up on the wrong end of a pistol, complained of stiffness in his muscles, and used a cane to keep his full weight off his wounded leg. The rest of the medical care he required, as well as physical rehabilitation, could be had in Bright Beach as well as in San Francisco. By March, he should be back to normal, assuming that the definition of normal included massive scars and an internal hollow space where once his spleen had been. Although their apartments were above the garage, back to back, each was served by a separate exterior staircase. As often as either man entered the other's domain, they might as well have lived hundreds of miles apart. "Mr. Magusson, you once told me that if Detective Vanadium ever bothered me again, you'd have his choke chain yanked. Well, I think you need to talk to someone about that." "Oh, my Lord," Chicane groaned as he and Sparky half-carried Junior into the bathroom. This was one of many things about Agnes that amazed Edom. If he had dared to make a list of all the qualities that he admired in her, he would have sunk into despair at the consideration of how much better she had coped with adversity than either he or Jacob. "Would you pretend to wake up if I tried to smother you?" asked Detective Vanadium. "Two weeks to go. I'm not going to miss that. I've cleared all appointments off my calendar." Up flew his hands, as white as doves, flapping as though trying to escape from the sleeves of his raincoat, as if he were a magician rather than a musician. Leaning across the front seat, he lowered the passenger's window six inches. Then he lowered the driver's-side window an equal distance. She removed a temporary cap from the second bicuspid on the lower left side and replaced it with the porcelain cap that had been delivered by the lab that morning. Celestina looked up from the scarred top of the desk toward the fog-white sky beyond the window, from reality to the promise. He would have done it, too, and risked establishing a pattern that police might notice; but the still, small voice of Zedd guided him now, as so often before, and counseled calm, counseled focus. Writing came with reading, and in a notebook, he began to make entries about points of interest in the stories that he enjoyed. His *Diary of a Book Reader*, as he titled it, fascinated Agnes, who read it with his permission; these notes to himself were enthusiastic, earnest, and charming—but literally month by month, Agnes noticed that they grew less naive, more complex, more contemplative. Out of hand. "Well ... yes, I suppose so." Spineless, unethical quack bastard, Junior thought bitterly. Yet that evening, when she'd accepted his proposal and asked if he wasn't frightened, he said, "Not anymore." He had not heard the lawman rising up with malevolent intent, as he had imagined. The body had simply rolled off the backseat onto the floor during the too-sharp 180-degree turn. "You look as if you've seen a ghost," said Vinnie, and Agnes wished the threat were as simple as a restless spirit, groaning and rattling its chains, like Dickens's Marley come to Ebenezer Scrooge on Christmas Eve. Delighted to be dating someone who lived neck-deep in culture especially after two months with Tammy Bean, the money maiden, Junior was surprised that he didn't score with Frieda on the first date. He was usually irresistible even to women who weren't sluts. Late Monday afternoon, September 19, Junior returned wearily to his apartment, from another fruitless investigation of a Bartholomew, this one across the bay in Corte Madera. Exhausted by his unending quest, depressed by lack of success, he sought refuge in meditation. Agnes prepared a dinner to indulge him: hot dogs with cheese, potato chips. Root beer instead of milk. As if vengeful spirits weren't trouble enough, he had for three years been struggling unwittingly against the terrible power of the minister's curse, black Baptist voodoo that made his life miserable. He knew now why he had been plagued by violent nervous emesis, by epic diarrhea, by hideously disfiguring hives. The failure to find a heart mate, the humiliation with Renee Vivi, the two nasty cases of gonorrhea, the disastrous meditative catatonia, the inability to learn French and German, his loneliness, his emptiness, his thwarted attempts to find and kill the bastard boy born of Phimie's womb: All these things and more, much more, were the hateful consequences of the vicious, vindictive voodoo of that hypocritical Christian. As a highly self-improved, fully evolved, committed man who was comfortable with his raw instincts, Junior should be sailing through life on calm seas, under perpetually sunny skies, with his sails always full of wind, but instead he was constantly cruelly battered and storm-tossed through an unrelenting night, not because of any shortcomings of mind or heart, or character, but because of black magic. He heard her explain that the title of the exhibition had been inspired by one of her father's sermons, which aired on a nationally syndicated weekly radio program more than three years ago. This wasn't a religious program, per se, but rather one concerned with a search for meaning in life; it usually broadcast interviews with contemporary philosophers as well as speeches by them, but from time to time featured a clergyman. Her father's sermon received the greatest response from listeners of anything aired on the program in twenty years, and three weeks later, it was rerun by popular demand. The longer he crouched, head cocked, breathing silently through his open mouth, the more convinced Junior became that he had heard a man approaching. Indeed, the terrible conviction grew that someone was standing immediately in front of the dumpster, head cocked, also breathing through his open mouth, listening for Junior even as Junior listened for him. Gradually he grew calm. His great frosty exhalations diminished to a diaphanous dribble that evaporated two inches from his lips. To the alleyway again. Not through the clothopper-cluttered gallery this time. Around the block at a brisk walk. IMplode To burst inward under pressure. Like the hull of a submarine at too great a depth. The bullet had been fired by a renegade cop who was every bit as lousy a marksman as he was a corrupt scumball. He'd been aiming for Nolly's crotch. "I can't." In each savings account, he deposited five hundred dollars in cash. He tucked twenty thousand in crisp new bills into each safe-deposit box. "--and we're from different worlds, which I respect. I respect you and your wonderful family ... your centeredness, your certainty. I want to do this only because it's what I owe you." Only two explanations occurred to him. First, bureaucracies slavishly follow the rules even when the rules make no sense. Second, the Ugliest Private Detective in the World, Nolly Wulfstan, was an incompetent dunce. He stopped for lunch at a restaurant with a spectacular view of the Pacific, framed by massive pines. He raised the lower sash of the tall double-hung window and slipped quietly into the dark kitchen. Because the window served also as an emergency exit, it wasn't set above a counter, and ingress was easy. A shock-haired, bright-eyed woman with a candle bound to her forehead set down her pick to show Otter a little cinnabar in a bucket, brownish red clots and crumbs. Shadows leapt across the earth face at which the miners worked. Old timbers creaked, dirt sifted down. Though the air ran cool through the darkness, the drifts and levels were so low and narrow the miners had to stoop and squeeze their way. In places the ceilings had collapsed. Ladders were shaky. The mine was a terrifying place; yet

Otter felt a sense of shelter in it. He was half sorry to go back up into the burning day..Five days later, on Barty's birthday morning, when Agnes and Edom were in the kitchen, making preparations for the visits that had earned her the affectionate title of Pie Lady, Barty was in his highchair, eating a vanilla wafer lightly dampened with milk. Each time a crumb fell from the cookie, the boy plucked it off the tray and neatly conveyed it to his tongue..Too late, Paul thought of the one more thing he had wanted to say. Too late, he said it anyway, "God bless you..".If he and Agnes were your age, I'd agree. But she's got ten years on you, and he's got twenty, and no previous generations were as wild as yours..Some acts were distasteful, too, such as searching the lunatic lawman for his car keys and his badge..At first light, a nurse arrived to perform preliminary surgical prep on Barty. She pulled the boy's hair back and captured it under a tight fitting cap. With cream and a safety razor, she shaved off his eyebrows..On Tuesday, less than twenty-four hours after Naomi's funeral, Knacker, Hisscus, and Nork--representing the state and the county held preliminary meetings with Junior's lawyer and with the attorney for the grieving Hackachak clan. As before, the well-tailored trio was conciliatory, sensitive, and willing to reach an accommodation to prevent the filing of a wrongful-death suit..Tom had acted with the best intentions-but also with the intelligence and the good judgment that God had given him and that he had spent a lifetime honing. Good intentions alone can be the cobblestones from which the road to Hell is built; however, good intentions formed through much self-doubt and second-guessing, as Tom's always were guided by wisdom acquired from experience, are all that can be asked of us. Unintended consequences that should have been foreseeable are, he knew, the stuff of damnation, but those that we can't foresee, he hoped, are part of some design for which we can't be held responsible..But first, in early July, he stopped taking French lessons. It was an impossible language. Difficult to pronounce. Ridiculous sentence constructions. Anyway, none of the good-looking women he met spoke French or cared whether he did..Three years ago, in St. Mary's Hospital, with Phimie's warning fresh in her mind, Celestina swore that she would be ready when the beast came, but here he came, and she was as not ready as possible. Time passes, the perception of a threat fades, life becomes busier, you work your butt off as a waitress, you graduate college, your little girl grows to be so vital, so vivid, so alive that you know she just has to live forever, and after all, you are the daughter of a minister, a believer in the power of compassion, in the Prince of Peace, confident that the meek shall inherit the earth, so in three long years, you don't buy a gun, nor do you take any training in self-defense, and somehow you forget that the meek who will one day inherit the earth are those who forego aggression but are not those so pathetically meek that they won't even defend themselves, because a failure to resist evil is a sin, and the willful refusal to defend your life is the mortal sin of passive suicide, and the failure to protect a little yellow M&M girl will surely buy you a ticket to Hell on the same express train on which the slave traders rode to their own eternal enslavement, on which the masters of Dachau and old Joe Stalin traveled from power to punishment, so here, now, as the beast throws himself against the door, as he shoves aside the barricade, with what precious little time you have left, fight. Junior shoved through the blocked door, into the bedroom, and the bitch hit him with a chair. A small, slat-back side chair with a tie-on seat cushion. She swung it like a baseball bat, and there must have been some Jackie Robinson blood in the White family line, because she had the power to knock a fastball from Brooklyn to the Bronx..Please try not to be alarmed, Miss White, but I have a patrol car on the way to your address..For reasons of mice and dust, doors at the Lampion house were never left ajar, let alone open this wide..So these are reports of my explorations and discoveries: tales from Earthsea for those who have liked or think they might like the place, and who are willing to accept these hypotheses: things change: authors and wizards are not always to be trusted: nobody can explain a dragon..As red as Angel had been for her evening outing, she was that yellow for retirement to bed in her own home. Two-piece yellow jersey pajamas. Yellow socks. At the girl's request, Celestina had tied a soft yellow bow in her mass of springy hair..Using a clean rag that they had brought to polish the engraved face of the memorial, Barty said, "Is he good with numbers like me?".Casey and Tutti, her sister Skipper, and dreamboat Ken-and soon the girls had Barty enthusiastically involved in a make-believe world far different from the one in which Heinlein's teenage lead owned an extraordinary alien pet with eight legs, the temperament of a kitten, and an appetite for everything from grizzly bears to Buicks..Frowning, Angel studied the tasty strip of meat pinched between her fingers, reevaluating everything she thought she knew about the source of bacon..Action. just concentrate on action and ignore the disgusting aftermath. Remember the runaway train and the bus full of nuns stuck on the tracks. Stay with the train, don't go back to look at the smashed nuns, just keep moving forward, and everything will be all right..Any reasonable person would agree that the line between legitimate and harassment was hair-thin..He rewound the words, played them again, but still the source of the threat eluded him. He was hearing them in his own voice, as if he had once read them in a book, but he suspected that they had been spoken to him and that.Unable to hold his breath or to quiet his miserable sobbing, Junior couldn't hear clearly enough to discern whether the sounds of the stalking sculpture were real or imagined. He knew that they had to be imaginary, but he felt they were real..Yeah, they think we're with Candid Camera. So Jimmy points to this United Parcel truck parked across the street and says the cameras are in there..If their relationship had not been limited to a single evening of passion, if they had not been of two worlds, if she had not been underage and therefore jailbait, they might have had an open romance, and then her death would have touched him more deeply..Fifteen feet separated them, with guests intervening. Yet this stranger's attention could have felt no more disturbingly intense to Junior if they had been alone in the room and but a foot apart..The January air was crisp, fragrant with evergreens and with the faint salty scent of the distant sea. A curiously yellow moon glowered like a malevolent eye, studying him from between ragged ravelings of dirty clouds..A plate-size piece of the door had been blasted away. Because of the light shining through from the room beyond, Junior could see that no part of the lock remained intact. In fact, he peered through the hole in the door to the back of a piece of furniture that was jammed against it, whereupon the nature of the problem became clear to him..After just twenty-one days, the boy's adaptation to blindness was amazing but clearly the gathered audience stood in anticipation of something more remarkable than his unhalting progress and unerring sense of direction.
