Stern brought his fingers together in front of his face-a noble face whose proud, Roman-emperor features crowned by laurels of curly hair

combed fiat and forward concealed an underlying harshness of line from all but the most discerning--and stared at the center of the table with large, liquid-brown, unfathomable eyes. "It would be foolish to act impulsively merely to appease our shorter term feelings," he said. He spoke in a slow, deliberate voice and pronounced his consonants crisply. "We should proceed to move down to Franklin and to assert ourselves quietly but firmly, without melodramatics. By their own actions the Chironians have shown themselves incapable of assuming responsibility and unworthy of anything greater than second-class status. Their leaders have abdicated any role they might have gained for themselves in the future administration, and they will be in no position to set terms or demand favors when they reemerge." He paused, and then turned his eyes to Howard Kalens. "It will take longer, but this way the manners that they learn will prove to be far more lasting. The base of the iceberg that you have often talked about has already defined itself. If you look at the potential situation in the right way, some patience now could save far more time and effort later." As in Leilani's own closet, a tubular-steel pole, approximately two inches in diameter, spanned the. "So, Mrs. D, how did your wires get scrambled?" Leilani asked, tapping her head. "Yes, I did. Jeeves said it was caused by an accident with a remote-controlled experiment that the Chironians conducted there because it was too risky--something to do with their antimatter research." Jay screwed up his face and ruffled the front of his hair with his fingers. "But that's the kind of thing you'd expect somebody to say, isn't it?, and Chironians don't make a lot of mistakes." He looked around the circle of appalled faces staring back at him. "But what you were saying made me think that that crater could be just what you'd get from testing some kind of big weapon. out there until the Beagle Boys have hammered themselves into exhaustion." I was afraid if I ever talked about it, I might let go of. The bewildering proliferation first of baryons and mesons, and later the quarks, which were supposed to simplify them, that had plagued studies of the structure of matter to the end of the twentieth century had been reduced to an orderly hierarchy of "generations" of particles. Each generation contained just eight particles: six quarks and two leptons. The first generation comprised the "up" and "down" quarks, each appearing in the three colorcharge variants peculiar to the strong nuclear force to give six in all; the electron; and the electron-type neutrino. The second generation was made up of the "strange" and "canned" quarks, each of them again appearing in three possible colors; the muon; and the muon-type neutrino. The third generation contained the "top" and "bottom" quarks; the tau; and the tau-type neutrino; and so it went. listen with your heart. arrangement I was born with.
