"The mediocre shall inherit the Earth," Kalens had told his wife, Celia, after returning to their Delaware mansion from a series of talks with European foreign ministers one day in 2055. "Or else, eventually, there will be another war." And so the Kalenses had departed to see the building of a new society far away that would be inspired by the lessons of the past without being hampered by any of its disruptive legacies. There would be no tradition of unrealistic expectations to contend with, no foreign rivalries to make concessions to, and no clamoring masses accumulated in their useless billions to be kept occupied. Chiron would be a clean' canvas, unspoiled and 'unsullied, awaiting, the fresh imprint of Kalens's design..as an alchemist or sorcerer. Extracts, elixirs, spirits, oils, essences, quintessences, florescences, salts, "Stop it," Micky said harshly though not angrily, her voice roughened by exasperation. "Just, please, stop. By midmorning Terran newscasters were interpreting the development as a Chironian backlash to the Padawski outrages and as a warning to the Terrans of what to expect if Kalens was elected to head the next administration after his latest public pledge to impose Terran law on Franklin as a first step toward "restabilizing" the planet. Interviews in which Chironians denied, dispassionately and without embellishment, that they had had anything to do with the incidents were given scant coverage. Reactions among the Terrans were mixed. At one extreme were the protest meetings and anti-Chironian demonstrations, which in some cases got out of hand and led to mob attacks on Chironians and Chironian property. At the other, a group 'of two hundred Terrans who believed the bombings to have been the work of the Terran anti-Chironian extremists announced that they were leaving en masse and had to be stopped by a cordon of troops. Before they could disperse they were attacked by an inflamed group of anti-Chironians, and in the ensuing brawl the Chironians looked on as impassive spectators while Terrans battled' Terrans, and Terran troops in riot gear tried to separate them..Colman smiled to himself. "I've only seen her around..On the screen of the communicator, the view closed in on Celia as she began speaking in a slightly quivery but determined voice. But Colman only half heard. He was trying make himself think the way a Chironian would think,-which the two leading guards took up positions outside the door to the suite while the one with the suitcases accompanied Celia and the matron inside. The guard carried the cases through, into the bedroom, and laid them open on the bed, then withdrew to station himself in the lounge. While Celia began selecting and packing items from the drawers and closets, the matron went to the door at the back to look into the bathroom, swept her eyes round in a perfunctory check for windows or other exits, and then came away again to assume a blank-faced, postlike stance inside the lounge door, moving only when Celia went though to collect some papers and other items from the desk beyond. Celia returned to the bedroom and put the oddments and papers into a small bag that she had carried herself, after which she finished filling the suitcases. Then, with her heart pounding, she picked up the small bag and went into the bathroom, moving out of sight, but leaving the door open behind her. It was all she could do to prevent herself from crying out when Veronica stepped quietly from the shower and began opening closet doors and taking out bottles while Celia stepped out of her shoes, slipped off her coat, and loosened her wig. There was no time for smiles or reassuring gestures. Veronica put Celia's shoes on her feet and the flight-"Ah, gee, I wouldn't take it personal," said the waitress. "Everybody's family's screwed up these days..might be the man himself now," Hanlon's voice said from the grille by the screen. "Ah, yes., ,a little the worse for wear, but he'll be as good as new." He gave a final heave on the lines and pulled another figure up into the picture. Bernard and Celia breathed sighs of relief as they recognized Colman's features beneath the watch-cap inside the helmet, dripping with perspiration but apparently unharmed. Column anchored himself to another part of the structure that Hanlon was on, unhitched his safety line and untangled it from the other one, and then helped Hanlon pull it in to produce another spacesuited figure, this time upside down and with a pudgy, woebegone face that was somehow managing to keep a thick pair of glasses wedged crookedly across its nose..than halfway toward Curtis and Old Yeller..Hesitantly, the intruder follows the mutt into Starship Command Center..Sighing, Micky got up to retrieve a second beer from the refrigerator.."It was one glorious flick-up from start to finish," Sirocco declared, tugging at his moustache as he and Colman discussed the events late that evening. "Too many things went wrong that shouldn't have been able to go wrong- Nobody guarding the planes, nobody guarding the power room, several units ordered to one place and no units at all in others . . . And how did they get hold of the guns? I don't like it, Steve. I don't like it at all There's a very funny smell to the whole business..". "You don't have to live with it, Mother," Adam told her. Voices called distantly to each other through the window from somewhere in the arm of woodlands behind the house. Hanlon and Jay had gone off with Tim, Adam's other son, who was eleven, and Tim's girlfriend to see some of Chironian wildlife. Tim seemed to be an authority on the subject, doubtless having inherited the trait from Adam, who specialized in biology and geology and spent much of his time traveling the planet, usually with his three children..Stanislau entered more commands. A different table of information appeared on the screen. "SD guard details and timetable for posts inside the Columbia District tonight," Stanislau said. They would refrain from doing anything to that one until the last moment..untouched. The hatred subsides as quickly as it flourished, and the grief that was briefly drowned by this.tightly in his fist. "You steal something, boy?".about, so we talk around them..".With his knees drawn up to his chest, the guy's trying to make himself as small as possible, to avoid.The SD sergeant half rose from his seat. "Sir, I didn't- I thought"..Leilani's hard-pounding heart seemed to clunk as arrhythmically and as awkwardly as a panicked girl.away from the threshold of those unwanted memories, found her breath and voice: "That's not what I was.They do the same thing all the time, from when they quit school to when they retire," Ci reminded her mother..Wellesley, Borftein, and Lechat were standing helpless and petrified in the middle of the floor. "He'll do it," Celia whispered, horrified, to Bernard..Jean forced a smile. "Just remember that," she said..He crosses the threshold and eases the door shut behind him..".A hundred..".Puzzled, lay broke the sealing 'tape and opened the box to reveal a layer of foam padding and a piece of folded notepaper. Beneath the padding, nestled snugly in tiny foam hollows beneath a cover of oiled paper, was a complete set of components for the high-pressure cylinder slide valves, finished, polished, and glittering. The note read: "What from?".a plate of chicken and waffles..". "You mean when the Chinese and the Europeans get here?".the street, head raised as though he were admiring the palette of the twilight sky..". "I'm not. He's an architect . . . and gorgeous I met him in Franklin yesterday and stayed last night. It's so easy-they act as if it's perfectly natural . . . And they're so uninhibited' Celia just gaped at her. Veronica winked and nodded. "Really. I'll tell you about it later, I'd better go..".promise of the red neon..Nobody talked . . any more about annexing Franklin. Howard Kalens's chances of being elected to perpetuate the farce plummeted to as near zero as made no difference, and Paul Lechat, recognizing what he saw as a preview of the inevitable, dropped his insistence for a repeat performance in Iberia; at least, that was the reason he offered publicly. Ironically, the Integrationist, Ramisson, emerged as the only candidate with a platform likely to attract a majority view, but that was merely in theory because his potential supporters had a tendency to evaporate

as soon as they were converted. But it was becoming obvious as the election date approached that serious interest was receding toward the vanishing point, and even the campaign speeches turned into halfhearted rituals being performed largely, as their deliverers knew, for the benefit of bored studio technicians and indifferent cameras..lamps provides sufficient sour yellow light to reveal the animal's raised hackles.. "It's how the Chironians have been working all along," Lechat said. "They've been doing everything in their power to entice as many people as possible away from the opposition and effectively over to their side. Haven't they done it with us? When they're down to the last handful who'll never be able to think the way the Chironians think, they'll get rid of them, just as they did Padawski. That's how their society has always worked. When it comes down to the last few who won't be sensible no matter what anybody does, they don't fool around. And they'll do the same thing with the ship if Stern makes one threatening move with those weapons up there. I'm convinced of it. The Chironians took out their insurance a long time ago. That would be typical of how they think too."..He raises neither issue. Bad guys are looking for him. He's been too long in this one spot. Motion is..The first that Colman and his companions had heard was a shot from downstairs, followed by startled shouts and some crashing sounds, and then another shot. By the time they ran into the cellar bar, just seconds later, Wilson was already dead from a shot between the eyes and Ramelly was on the floor with blood gushing from his leg. Padawski and the others were standing uncertainly by the bar, covered by a .38 automatic that one of the young Chironian women was holding. Several other weapons had appeared around the room. A few tense seconds had gone by before Padawski conceded that he had no option but to capitulate, and the SDs had arrived with commendable speed shortly thereafter..in a dead-end gang. But I got turned around.".. "Never let him adopt you," Micky said. "Even Leilani Klunk is preferable to Leilani Doom."..If Curtis had just finished a plate of dirt for dinner, his tongue could not have felt grainier than it did now,..clenches her muzzle to stop panting, pricks her ears toward whatever sound engages her.. "Because the Book tells us we must."..Merrick allowed his hands to drop down to his chest. "And how are you settling in? Is your family adjusting well?"..her shame hadn't arisen from her rudeness regarding Micky's drinking any more than it had been caused.."It's Michelina.".. "I'll have to keep that option open until we see how things shape up." Colman said. "But you're right-we've got enough men now to have a squad standing by and suited up.".. "So does that mean you've got it figured?" Jay Eked..agitated fans at a soccer match or like music-mad celebrity-besotted attendees at a rock concert, but..No part of this book may be reproduced or transmitted in any form or by any means, electronic or..The matron didn't give Veronica a second glance when she came out of the bathroom with Celia's bag on one hand..Micky had no appetite. She left the pie untouched. "She really was in an institution once, wasn't she?"..Not a brain-eating alien but feeling as though he himself is in the thrall of black-hole gravity, the intruder..delivered. Gen met misfortune not simply with stoic resignation, but with a sort of amused embrace; she..The violence aroused them. Jonathan's hands slid from Karla's shoulders to her breasts. Soon he was..warm and toothless zephyr..she was nearly befuddled into silence. "How would you know?"..excitable and shallow and, in general, dorky to the max.."Yeah," Noah acknowledged without enthusiasm..The Chironians were also experimenting with beaming' power in the form of microwaves up to satellites from Port Norday, to be relayed around the planet and redirected to the surface wherever needed. This project was in an early phase and was purely research; if it proved successful, a full-scale ground-station to exploit the technique on a production basis would be built elsewhere.."I guess so. So what was the rest of it?"..The Chironians suddenly appeared intrigued. "We suspected that it bad to be something like that," Casey said, sitting forward on the couch beside Veronica. "But how can you prove it?"
