"A lot of them might be still kids, but there are nearly ten thousand first-generation and something like thirty thousand in all who have reached or are past their late teens--more than enough adults capable of causing trouble. We still need contingency plans based on our having to assume an active initiative." Chapter 10. Bernard shrugged helplessly. "I know. It's a chance-but what else is there?" "So now," said Micky, "in addition to your perpetually wasted tofu-peaches-bean-sprouts mother and Farnhill stopped him with a curt wave of his hand. "This spectacle has gone far enough," he said. Lesley looked at the two of them, but they said nothing. There was nothing more they could tell him. He could close the lock and commit himself to the protecting the Battle. He still retained some staunch adherents, mainly among those who had nowhere else to turn and had drawn together for protection: Among them were a sizable segment of the commercial and financial fraternity who were unable to come to terms with an acceptance that their way of life was finished; the Mayflower II's bishop, presiding over a flock of faithful who recoiled from abandoning themselves to the evil ways of Chiron; many from every sector of. Once, when an outlaw mouse scurried from room to room and along hallways, eluding a comic posse of. Jarvis scanned the screen on the far side of the post. "The fighting at Vandenberg looks as if it's being contained," he announced. - "Two pockets of our guys are holding out at Bays One and Three, but the rest are cooperating with the regulars. The regulars have pretty well secured the whole module already. Stormbel won't be getting any help from the surface through there." The Battle Module was not intended to be part of the Mayflower its public domain, and restriction of access to it had been one of its primary design criteria. Personnel and supplies entered the module via four enormous tubular extensions, known as feeder ramps, that telescoped from the main body of the ship to terminate in cupolas mating with external ports in the Battle Module, two forward and two aft its midships section. One pair of feeder ramps extended backward and inward from spherical housings Zn the forward ends of the two ramscoop-support pillars, and the other pair extended forward and inward from the six-sided, forward most section of the Spindle, called, appropriately enough, the Hexagon. As if having to get through the feeder ramps wasn't problem enough, the transit tubes, freight handling conveyors, ammunition rails, and other lines running through to them from the Spindle all came together at a single, heavily protected lock to pass through an armored bulkhead inside the Hexagon. Aft of the bulkhead, the lock faced out over a three-hundred-foot long, wedge-shaped support platform upon which the various lines and tubes converged through a vast antechamber amid a jungle of girder and structural supports, motor housings, hoisting machinery, ducts, pipes, con-. And then the three Special Duty troopers leaving the Bowery stopped to see what was going on, giving Padawski the excuse that he needed. "Let's get out of here," he said. The trio swaggered toward the door and Hanlon moved in, then stepped aside. Padawski stopped in the doorway and half turned to throw a malevolent look back at Colman. "Some other time. Next time you won't be so lucky." They left. Outside, the three SD troopers turned away and moved slowly off. known and those hideous cadavers. "You don't have to do this." "Casey's, I suppose." Veronica replied. For a moment Driscoll thought the machine had read his mind. He blinked in surprise, then realized it was impossible--just a coincidence. "How can I?" he said. "I've. Bernard nodded. "Okay. We'll see you later then. Maybe you'd better leave that stuff here for now, Jay. If things turn out to be not quite the way you said, it might be a good idea not to go carrying it around." "There's only one. You wait a few days, then you tell the wife you followed the congressman all over. Stormbel relayed the order, and the huge bulk of the Battle Module began sliding from between the Mayflower II's ramscoop support pillars as its auxiliary maneuvering engines fired. The sound of twisted steel scraping across the outside of its hull reverberated throughout the modules stem section as one of the feeder ramps, none of which was retracted, first bent, and then crumpled. The ramp tore open halfway along its length at a section that had been pressurized, spilling men and equipment out into space. The lucky ones--the ones who were wearing suits--could hope to be located through the distress-band transmissions from their packs.
