For that, we're better oft than most of the colonists of the past, at least for the short term. We have a large supply of everything a colony needs: food, water, tools, raw materials, energy, brains, and women. Without these things, no colony has much of a chance. All we lack is a regular resupply from the home country, but a really good group of colonists can get along without that. What do you say? Are you all with me?" know anyone who might be in the market for Barry's particular type. Generally, she observed, it was. All six had the same blood group..his big black trunk. He told us terrible stories of the places he intended to go. And you just up and went. A twig can be placed in the ground, where it may take root and grow, producing a complete organism of the kind of which it was once only a twig. Or the twig can be grafted to the branch of another tree (of a different variety even), where it can grow and flourish. In either case, it is an organism with a single parent, and sex has had nothing to do with its making. It is because human beings first

encountered this asexual form of reproduction, his connection with fruit trees probably, that such a one-parent organism of non-sexual origin is called a "twig"; that is, "clone." The music changed from the Sondheim medley to the flip side of The Four Seasons, and Barry's chair lifted him up and bore him off toward the couple in the blue settee, while Ed, limp in the bentwood rocker, was carried off in the opposite direction..We'll have to find a way to conserve it a lot more than we're doing. Offhand, I don't know how..
