compromises has already been ready. Writing came with reading, and in a notebook, he began to make entries about points of interest in the stories that he enjoyed. His Diary of a Book Reader, as he titled it, fascinated Agnes, who read it with his permission; these notes to himself were enthusiastic, earnest, and charming-but literally month by month, Agnes noticed that they grew less naive, more complex, more contemplative..After taking a minute to steel himself, Junior squatted next to the dead detective..A great boom. Concussion rocked the floor and shuddered the walls and made the roof timbers squeal as though unsuspected colonies of bats had taken flight by the thousands all in the same instant.. "I really am sorry about this," Junior said, regretting the necessity to deny her the right to look good at her own funeral, "but it's got to appear to be a crime of passion."..of color had to search for mentoring, especially in 1922, when twenty year-old Obadiah dreamed of being the next Houdini..It was then that village sorcery, and above all women's witchery, came into the ill repute that has clung to it since. Witches paid dearly for practicing the arts they thought of as their own. The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and order of field and garden, the building and care of the house and its furniture, the mining of ores and metals-these great things had always been in the charge of women. A rich lore of spells and charms to ensure the good outcome of such undertakings was shared among the witches. But when things went wrong at the birth, or in the field, that would be the witches' fault. And things went wrong more often than right, with the wizards warring, using poisons and curses recklessly to gain immediate advantage without thought for what followed after. They brought drought and storm, blights and fires and sicknesses across the land, and the village witch was punished for them. She didn't know why her charm of healing caused the wound to gangrene, why the child she brought into the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was there, right there in the village or the town, not off in the warlord's castle or fort, not protected by armed men and spells of defense. Sorcerers and witches were drowned in the poisoned wells, burned in the withered fields, buried alive to make the dead earth rich again..Because they knew the date of the rape, and because that attack had been Phimie's sole sexual experience, the day of impregnation could be fixed, delivery calculated with more precision than usual..Since discovering the quarter in his cheeseburger, Junior had been half convinced that the maniac cop survived the bludgeoning. In spite of his grievous wounds, perhaps Vanadium had swum up through a hundred feet of murky water, barely avoiding being drowned..Getting out of the stuffy car into air much chillier than it had been when he'd left this place, Junior stood unsteadily as the police and the paramedics gathered around him. Then he led them through the wild grass to Naomi, moving haltingly, stumbling on small stones that the others navigated with ease..Junior couldn't imagine why some Negro stranger would want to intrude. He hoped there wouldn't be trouble.. "You might as well beat a cloud for raining," said Otter's mother..Struggling to keep a grip on consciousness, Junior told himself to focus on the future, to live in the future, free of the useless past and the difficult present, but he could not get into the future far enough to be in a time when the pain was no longer with him..Vanadium was no ordinary cop, as he himself had said. In his obsession, convinced that Junior had murdered Naomi and impatient with the need to find evidence to prove it, what was to stop the detective if he decided to deal out justice himself? What was to prevent him from walking up to the Suburban right now and shooting his suspect pointblank?.Celestina checked her wristwatch and saw that she was running late. With Angel's short legs and layers of red, there was no point in trying to hurry..This was a relaxation technique that had worked often before. He had teamed it from a brilliant book, How to Have a Healthier Life through Autohypnosis..just as Sinatra broke into song again, Junior thought he heard a footstep on the wood floor of the hallway, and the creak of a board. The music masked the sounds of the visitor's approach if, indeed, he was approaching..guarantee against self-incrimination, a slap in the face of justice, a violation of the rights of man.. "Some men," she said, "wouldn't be able to sustain desire when their hands touched my back. I'll understand if you're one of them. It's not beautiful to the eye, and rough as oak bark to the touch. That's why I brought you here, so you'd know this before you consider where you want to go from ... where we are now."..Nurses were supposed to be angels of mercy. She had shown him no mercy. And she was certainly no angel..Eventually, of course, dear Edom held forth about tornadoes--in particular the infamous Tri-State Tornado of 1925, which ravaged portions of Missouri, Illinois, and Indiana..As shaken as she had been at Phimie's side, she couldn't trust her memory. Perhaps she hadn't seen what she thought she'd seen..After a while, he dared to crack his eyelids. Pressing against his eyes was a blackness as smooth and as unrelenting as any known by a blind man. Not even a ghost of light haunted the night beyond the window, and the slats of the venetian blind were as hidden from view as the meatless ribs under Death's voluminous black robe..This philosophy had worked for him previously, but forgetting the aftermath was more difficult when the aftermath was your own poor, torn, severed toe. Your own poor, torn, severed toe was infinitely more difficult to ignore than a busload of dead nuns..Onward he came, past the left front fender, gleefully hopping up and down, as if on a pogo stick, still waving..He went upstairs to change out of his dark blue suit and badly scuffed black shoes..Putting an arm around Paul's shoulders, Dr. Salk walked with him along a street lined with eucalyptuses and Torrey pines, to a nearby pocket park. They sat on a bench in the sunshine and watched duck waddle on the shore of a man-made pond.. "I don't know." He was silent a moment. "That's what's going to be interesting."..Stepping forward, Agnes said, "When Barty holds my hand and walks me through the rain, I get wet even while he stays dry. The same for all the rest of us here ... except Angel."..Agnes was able to respond, Paul sprang up and moved away. Other friends knelt and crouched and bent to her, and she lost sight of the pharmacist as he moved off through the dispersing crowd..At 3:22 in the morning, December 13, following a busy day of conducting ghost research, seeking Bartholomews in a telephone book, and working on his needlepoint, Junior awakened to singing. A single voice. No instrumental accompaniment. A woman..The previous day, Jacob and Edom had driven back to Bright Beach, to prepare for Barty's arrival. Now they hurried down the back porch steps and across the lawn, as Maria followed the driveway past the house and parked near the detached garage at the rear of the deep property..By telephone, he had been prepared for this boy. Strange as it was to find a Bartholomew in their lives, given Enoch Cain's peculiar obsession, Tom nonetheless agreed with Celestina that the wife killer could have no way to know about this child-and could certainly have no logical reason to fear him. The only thing they had in common was Harrison White's sermon, which had inspired this boy's name and might have planted the seed of guilt in Cain's mind.. "We have dams, though," said Jacob, gesturing with his fork. "The Johnstown Flood, 1889. Pennsylvania, sure, but it could happen here. And that was a one, let me tell you. The South Fork Dam broke. Wall of water seventy feet high totally destroyed the city. Your tornado killed almost seven hundred, but my dam killed two thousand two hundred and nine. Ninety-nine entire families were swept from the earth. Ninety-eight children lost both parents."..The driver shook his head. "I knew everything anyone would need to know about you when I heard you ask your kid what

would happen if the stupid boogeyman showed up in her dream." On Tuesday evening, September 7, after half an hour in the lotus position, thinking about nothing whatsoever but a white pin with two black bands at its neck and the number 1 painted on its head, Junior went to bed at eleven o'clock and set his alarm for three in the morning, when he intended to shoot himself. In his smooth whiteness, Junior felt a pressure on his eyes, and then came visual hallucinations, disturbing his deep inner peace. He felt someone peel up his eyelids, and Bob Chicane's worried face—with the sharp features of a fox, curly black hair, and a walrus mustache—was inches from his. When her hand went limp in Celestina's, her body sagged, too, and her eyes were no longer either focused or rolling wildly. They shimmered into stillness, darkled with death, as the cardiac monitor sang the one long note that signified flatline. A pang of regret pierced her, that her boy's precocity should deny him this fine fantasy, as her morose father had denied it to her. "He's real," she asserted. He was relieved that he hadn't moved his head or made a sound. He wanted to understand as much of the situation as possible before revealing that he was awake. She herself had been too nervous to eat anything. She'd held the same glass of untasted champagne throughout the evening, clutching it as though it were a mooring buoy that would prevent her from being swept away in a storm. "Soon as Cain is out of sight, we yank up our tricky vending machines, then haul the real ones out of the van and bolt 'em down again. Slick, fast. People are still picking up quarters when we finish. And get this—they want to know where the camera is." WITH BRIGHT BEACH under assault by one miserable flu and by an uncountable variety of common colds, business was brisk this Monday at Damascus Pharmacy. "Well, you're sweet, aren't you? And you're all bright red on the outside and milk chocolate inside," Celestina said, gently tweaking the girl's light brown nose. Angel returned to the table for apple juice and to announce, "They got a cookie-jar Jesus!" "Go home. Sleep," he said. "You'll be no help to your sister if you wind up a patient here yourself." One, two, three, four—Edom took away all the remaining pies. He pointed at Barty and then at the empty table. Shaking his head, his coffee cup rattling against the saucer, Edom said, "Uh, no, sir, no, I don't think we've ever met till now." After following his uncle's movements, Barty looked at the table again. "Pie, pie, pie, pie, pie, pie." Using a false name, claiming that he was an adoptee, Junior made inquiries with several child-placement organizations, as well as with state and federal agencies. He discovered that Wulfstan's story was true: Adoption records were sealed by law for the protection of the birth parents, and getting at them was all but impossible. Amazed, Agnes gaped at her baby. The throat lump that blocked her speech was part pride, part awe, and part fear, though she didn't at once understand why this wonderful precociousness should frighten her. He had already reviewed twenty-four thousand names, finding no Bartholomew, putting red checks beside entries with the initial B instead of a first name. A slip of yellow paper marked his place. Although their apartments were above the garage, back to back, each was served by a separate exterior staircase. As often as either man entered the other's domain, they might as well have lived hundreds of miles apart. From Christmas through February, he dated a beautiful stock analyst and broker—Tammy Bean—who specialized in finding value in companies that had rewarding relationships with brutal dictators. This was better than taking slow deep breaths. Periodically, on the way to Vanadium's house, Junior spat out a string of insults, punctuated by obscenities. Even though the detective was on the wrong track, Junior was beginning to feel aggrieved. As any good citizen, he was willing, even eager to cooperate with responsible policemen who conducted their investigation by the book. This Thomas Vanadium, however, in spite of his monotonous voice and drab appearance, gave off the vibes of a fanatic. By comparison, the strip club—neon aglow, theater lights twinkling—looked warm, cozy. Welcoming. Celestina had a delayed reaction to Barty's name. An odd look came over her. "Barty? Short for ... Bartholomew?" After using a paring knife to section and core an apple, Paul withdrew a sheet of stationery from his desk and uncapped a fountain pen. His penmanship was old-fashioned—in its neatness, as precise and appealing as fine calligraphy. He wrote: Dear Reverend White ... Even a cool day on the pie route could produce a good sweat by journey's end, because with the addition of the men to this ambitious project, they now not only made deliveries but also performed some chores that were a problem for the elderly or disabled.
