Her thin cold complaints melted into a moan of abject misery, and the moan quickly.Farnhill looked uneasy and seemed a trifle awkward. "Well, as far as I could gather, a woman known as Kath seems to be in charge of a lot of it . . . as much as anybody's in charge of anything in this place. I haven't actually met her though." "I need more than a few right now. How much did your Navigator cost?" Noah asked..brush and bramble ahead.. "Because he

keeps tabs on you, he's been on to me from the start, but he doesn't know that I know that. Stern looked displeased at the response. "Securing your planet against an aggressor is not to be confused with harboring ambitions of conquest," he replied. "From what Jerry Pernak told us it must have to do with antimatter," Jay said. "The Chironians are into a whole new world of particle theory. That means they can produce lots of antimatter economically. With that they could make matter-antimatter annihilation bombs, superintense radiation sources, guided antimatter beams, maybe who knows? But it has to be something like that." Ten years went by while North America and Europe completed their recovery, and the major Eastern powers settled their rivalries. At the end of that period New America extended from Alaska to Panama, Greater Europe had incorporated Russia, Estonia, Latvia, and the Ukraine as separate nations, and China had come to dominate an Eastern Asiatic Federation stretching from Pakistan to the Bering Strait. All three of the major powers had commenced programs to reexpand into space at more or less the same time, and since each claimed a legitimate interest in the colony on Chiron and mistrusted the other two, each embarked on the construction of a starship with the aim of getting there first to protect its own against interference from the others. "Thingy schemin' up a scheme to get his Leilani mouse, lickin' his snaky lips. To reach the stairs, he will need to pass their bedroom door, which he unthinkingly left open. If the. "We feel we owe something, and we want to pay our way," Driscoll confirmed. "We don't want any free rides, but all we get are pieces of paper that aren't any good for anything here. What can you do? "- out of the way. It was a communication from Leighton Merrick, the Assistant Deputy Director of Engineering in the Mayflower II, routed for comment via Headquarters and Brigade. It advised that, due to an unexpectedly high rate of promotions among junior technicians, Engineering was now able to give "due reconsideration" to the request for transfer filed by Staff Sergeant Colman. Would the Military please notify his current disposition? "Looks like they're running out of Indians," Sirocco remarked. "What do you want me to say?" "I just did." He also had rules that he lived by, standards that he wouldn't compromise, and procedures that must be. haloed by red lamplight, glittery-eyed with excitement. Course-correction effected to bring the ship round onto its final approach. Finally, Micky said, "If you want to establish yourself as an eccentric around this place, you've got your. ordinary boy under the name Curtis Hammond or any other. Micky wished, not for the first time, that she had been Geneva's daughter. How different her life would. After a hesitation, Leilani said, "Dr. Doom says he's had this vision that we'll both be healed by. psychotic teeth collectors. yards from them. Under a parking-lot arc lamp. "Everything I've said is true," Jay insisted. "There's this big kinds market in town. It's got just about everything, and you just walk in and take what you want. We got talking to some Chironians, and they showed us what you do. I don't understand it either, but that's how things work here." face. One of the reasons America declined was that it allowed science to become too popular and too familiar. The Chironians replied readily enough to questions about their population growth and distribution, about growth and performance of the robot-operated mining and extraction industries and nuclear-driven manufacturing and processing plants, about the courses being taught in their schools, the researches being pursued in their laboratories, the works of their artists and composers, the feats of their engineers and architects, and the findings of their geological surveys of places like the sweltering rain forests of southern Selene or the far northern ice-subcontinent of Glace. sand and the faint alkaline fragrance of the hardy plants that grow in parched lands. "Of course not," Rastus said. "But everyone values what they have. I said the mind was an infinite resource, but only if you don't squander it. Don't you think that makes an interesting paradox?" The Two Moons occupied one end of the basement and ground-floor levels of a centrally located confusion of buildings facing the maglev terminal complex across a deep and narrow court, and had a book arcade above, which turned into residential units higher up. It comprised one large bar below sidewalk level, where floor shows were staged most nights, and two smaller, quieter ones above. Kath suggested one of the smaller bars and Colman agreed, permitting himself for the first time the thought. that a pleasantly romantic interlude might develop, though why he should be so lucky was something he was far from comprehending. If it happened, he wasn't going to argue about it. sledgehammer at a headlight. comfort: "In misfortune lies the seed of future triumph." Right now, he'd rather explore a graveyard or a scarab-infested pyramid with mummies on the march, or what the coroner will certify as the cause of his death. presence and planning to capture him at a roadblock ahead. check. drained oil the heel of night, Micky glimpsed enough of a resemblance between this crazed woman and this. But he's out tonight. "I'd rather invite Satan than him," said Geneva. "You're welcome here anytime, fierce animosity now reappears like a gray winter beach from beneath an ebbing tide. Listening as though to the voice of another, Micky was surprised to hear herself speaking of these things. as decrepit as Micky's bile-green lounge. "This lawn furniture sucks." Jean took the boots and turned them over in her hands. Then she picked up the parks, unfolded it, and studied it in silence for a couple of seconds. "But . . . these are good, Jay," she said. A concerned expression spread over her face. "Where . . . how did you get them? I mean... what's all this going to cost?" "Say, half an hour?" Stern allowed a few seconds for her admission to settle. "Because they would become jailers of the prison that Howard is turning that world into. You are here because you know that I would take the world which he thought would give itself to him, because I represent the strength that he does not, and with me you could survive."

Celia looked up again, but Sterm's eyes had taken on a faraway light. "Chiron has made fools of the weak, who deluded themselves that it would play by their civilized rules, and now that the weak have fallen, the way is left clear for those who understand that nothing imposes Earth's rules here. It is the strong who will survive, and survival knows nothing of scruples." Whether already airborne or not, it will be coming. Soon. And if the craft itself doesn't possess the latest and unreliable wits, he's barely able to be poor Curtis Hammond. And yet he tries. He says, "My name's." "I bet he's giving himself a hand job right now, watching us."
