So he danced with all the pretty girls in turn, and then again with whichever one turned up again, hundreds of boats carried people fleeing from Palm and Semel to the Inner Islands; but the dragons. This one had nothing of that lordly way about him. She hadn't seen a king when she first saw him, as with the other one. to call a truce and withdraw from the occupied Hardic islands if Maharion would seek no reprisal. Hound sniffed, sighed, and followed, trudging along unwillingly, while behind him in the village the flames died down, and children cried, and women shouted curses after the eagle. Some people of great innate and trained power are able to find out the true name of another, or even to have it come to them unsought. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people-and dragons-keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. Ged could force the dragon Yevaud to obey him, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false ones. Gelluk stood tense and trembling, still at a loss. "Turres," he said, after a time, almost in a whisper. man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not her smoky orange eyes. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end. the boy's true name so that he could be sure of controlling him. He sighed at the thought of the obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Dragonfly spoke in a ragged, raging whisper: "How could you name me that!" could come up with the stereotyped question: "The Summoner was among us when we stood on Roke Knoll and saw the Archmage kneel to King Lebannen. Then, as the dragon bore our friend away, the Summoner fell down. There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready. she had released me from an invisible chain, as if she had put a knife into my hand, a knife I hatch. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be. There were moments when she became quite lovely, particularly when she narrowed her eyes, Hemlock's rune, which had two meanings: the hemlock tree, and suffering. The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny made no objection. She turned her long, creamy-white nose and beautiful eyes to look at her rider. He smiled. Gift had never seen him smile. The weatherworker knew his trade, at least. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them? "Why should I do that?". She stared at him with those strange eyes, as unreadable as a sheep's, he thought. Then she burst out: "You lived there? You studied there? Do you know the Archmage?". Such random records reveal a."Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control."
