"But I had greater facility with cards than most magicians. I trained with Moses Moon, greatest card mechanic of his generation." The detective shrugged. "The girl might've had her baby at a third rate hospital, one with poor control of patients' records and a less professional staff. Or the kid might have been placed for adoption through some baby brokerage in it strictly for the money. Then there would've been opportunities to learn something. But as soon as I discovered it was St. Mary's, I knew we were screwed." Harmonizing with Diana Ross, Mary Wilson, and Florence Ballard, he drove to the granite quarry three miles beyond the town limits. The owner, also the pilot on this trip, was pleased to be paid cash in advance, in crisp hundred-dollar bills, rather than by check or credit card. He accepted payment hesitantly, however, and with an unconcealed grimace, as though afraid of contracting a contagion from the currency. "What's wrong with your face?" Flanking the wheelchair, Edom and Jacob spent less time watching the graveside service than studying the sky. Both brothers frowned at that cloudless blue, as though seeing thunderheads. "Most tornadoes stay on the ground twenty miles or less," Edom explained, "but this one kept its funnel to the earth for two hundred nineteen miles! And it was one mile wide. Everything in its path--torn, smashed to bits. Houses, factories, churches, schools--all pulverized. Murphysboro, Illinois, was wiped off the map, erased, hundreds killed in that one town." This is, of course, the purpose of art: to disturb you, to leave you uneasy with yourself and wary of the world, to undermine your sense of reality in order to make you reconsider all that you think you know. The finest art should shatter you emotionally, devastate you intellectually, leave you physically ill, and fill you with loathing for those cultural traditions that bind us and weigh us down and drown us in a sea of conformity. Junior had learned this much, already, from his art appreciation course. "Well, we have earthquakes here," Jolene said, "but back east they have all those hurricanes." "He's a wonderful boy, so very bright, so very full of life. Blindness will be hard, but it won't be the end. He'll cope without the light. It'll be so difficult at first, but this boy ... eventually he'll thrive." Perhaps he would not have leaped along this chain of conclusions if he'd not been an admirer of Caesar Zedd, for Zedd teaches that too often society encourages us to dismiss certain insights as illogical, even when in fact these insights arise from animal instinct and are the closest thing to unalloyed truth we will ever know. Had Kathleen Klerkle been a man, she would have enjoyed larger quarters in a newer building in a better part of town. She was more gentle and respectful of the patient's comfort than any male dentist Nolly had ever known, but prejudice hampered women in her profession. "Even in an infinite number of worlds," Wally objected, "there's no place I was that stupid." Because they were smaller than men and could move more easily in narrow places, or because they were at home with the earth, or most likely because it was the custom, women had always worked the mines of Earthsea. These miners were free women, not slaves like the workers in the roaster tower. Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel or shore a timber. "Suits me," Licky said. He had never associated Enoch Cain's dreaded Bartholomew with the disciple Bartholomew in Harrison White's sermon, which had been broadcast once in December '64, the month prior to Naomi's murder and again in January '65. Even now, with blood-scrawled-and-stabbed Bartholomew on the wall and with This Momentous Day before him in the brochure, Tom Vanadium couldn't quite make the connection. He strove to pull together the broken lengths in this chain of evidence, but they remained separated by one missing link. For a driver who had just engaged in a demolition derby with a house, the mummified man was steady on his feet and unhesitant in his actions. He turned to Harrison White and shot him twice in the chest. Agnes dropped to one knee before the boy and held him gently by the shoulders. "Let me look." With the infant in her arms, the heavyset nurse pressed in beside Celestina, who PERRI'S POLIO-WHITTLED body did not test the strength of her pallbearers. The minister prayed for her soul, her friends mourned her loss, and the earth received her. After poring through enough sensational newspaper accounts to be convinced that the curse-casting reverend was undeniably dead, Junior had acquired four pieces of surprising information. Three were of vital importance to him. After Victoria had departed, Junior lay smiling at the ceiling, floating on Valium and desire. And vanity. From the public hallway on the ground level, stairs led to the upper three floors. He would be able to hear anyone descending long before they arrived. Mechanics have reliably steady hands, yet Jacob's hands shook as he discarded two cards and slowly turned over the ninth draw.
