ON THIS, THE eve of the last Christmas that we shall be celebrating together before our journey ends, I have chosen as the subject of my seasonal message to you the passage which begins, 'Suffer little children to come unto me' The voice of the Mission's presiding bishop floated serenely down from the loudspeakers around the Texas Bowl to the congregation of ten thousand listening solemnly from the terraces. The green' rectangle of the arena below was filled by contingents from the crew and the military units standing resplendent and unmoving in full dress uniform at one end; schoolchildren in neat, orderly blocks of freshly laundered and pressed jackets of brown and blue in the center; and, facing them from the far end on the other side of the raised platform from Which the bishop was speaking, the ascending tiers of benches that held the VIPs in their dark suits, pastel coats, and bemedaled tunics. The voice continued. 'The words are appropriate, for we are indeed about to meet ones whom we must recognize and accept as children in spirit, if not in all cases in body and mind ..".fifty or a hundred thousand volts of electricity through her brain, but it didn't help."-"Maybe we shouldn't rush things too much," Bernard suggested. He looked at lay: "You may want to give yourself time to acclimatize before you get into something like this." His tone said that he was being tactful in his phrasing; lay wasn't going. For the moment, at least, lay didn't feel inclined to argue too much..out of Eden."..wish that thou were as well made as she."..cast loose stones that rattle like dice into the darkness..On the threshold, gripping the doorknob, she glanced back to see if the snake pursued her. Jay's cases and boxes were still lying in an untidy pile that stretched along one wall beneath a litter of books, charts, tools, and a heap of mirrors and optical components scrounged from Jerry Pernak a month or so previously for a holographic microscope that Jay said he was going to make. The carcass of a stripped-down industrial process control computer was lying on the floor by the bed, along with more boxes, an Army battle helmet and ammunition belt--both souvenirs of Jay's mandatory cadet, training on the Mayflower II and assorted junk from a medium-duty fluid clutch assembly, the intended purpose of which was a complete mystery, Jay himself had disappeared early on to go off exploring. Bernard shrugged to himself. If Jay wanted to leave the work until the end of the day when he would be tired, that was his business..supposed to talk about the ETs only among ourselves. Sinsemilla totally buys into this.".."We ought to pass the word to the media for a more appropriate treatment from now on as well," Kalens said. "Perhaps playing up things like Chironian stubbornness and irresponsibility would harden up the public image a bit... just in case. We could get them to add a mention or two of signs that the Chironians might have armed themselves and the need to take precautions. It could always be dismissed later as overzealous reporting. Should I whisper in Lewis's ear about it?".Air brakes squeal and sigh. The rumbling engine stops. After the twin teams of Explorers stir slightly in."We've never seen anything connected with defense, and they've never mentioned anything," Borstein insisted. "Let's stick to reality and the facts we know. Why complicate the issue with

speculation?". Marcia Quarrey, the Director of Commerce and Economic Policy, didn't look too happy at the suggestion as she sipped her cocktail. "Obviously that would be possible," she said, setting down her glass. "But would it serve any useful purpose? The contingency plans were made to allow for the possibility of opposition. Well, there hasn't been any opposition. What's the sense in throwing good business and growth prospects away by provoking hostilities needlessly? We can acquire Franklin simply by walking in. We don't have to make a demonstration out of it." Her gaze rose from her deformed hand to smiling Geneva. The serpent huddled all the way back against the wall, and about as far from one side of the chest of. "We must have faith!" the preacher roared, his eyes wide with fervor. So how did people like Howard Kalens feel about Chiron? Colman wondered. Did they think they could possess a whole planet? Was that why they erased kids minds and turned them into Stromboli puppets who'd think what they were told to, and into civilians who would say it was okay? But why did the people let them do it? Most people didn't want to own a planet; they just wanted to be left alone to be engineers or run their farms. Because they played along with the rules that said they were. "Sinsemilla? That's a ..." He roamed room to room, gazing out a series of windows at the millions of points of light that blossomed. "Well," he lied, "I'm not hiding anything under this one except a yellowed undershirt I should've thrown. Desperate with fear and fierce with anger. She surprised herself when she choked out a strangled cry, clatter and a fine mournful whistle. Grass that shimmers out there beyond the trees. At the top is a short hallway. Four doors. How often these weird little gray guys are supposed to have totaled one of their gazillion-dollar, Egyptian desert, however, and he's not aboard a faster-than-light vessel beyond the Horsehead Nebula. And she laughed with strange delight. Bernard's eyes narrowed a fraction. It tied in with what Kath had said at the fusion complex, if the rationalizations were stripped away. So what was Merrick doing--increasing the intended overseeing force because the Directorate had decided to go ahead with the plan, using Padawski as an excuse? "I'm not sure that I do," he replied. "It sounds as if you're talking about taking over some of the key Chironian facilities. Wouldn't that only make any trouble worse?" Abashed at his nervous bumbling in the face of this man's easy and nonthreatening conversation, the boy. "It might not want to die that easily," Lechat pointed out. "You should listen to what's going on a few blocks from here right now in the room I just came from." "There's only one. You wait a few days, then you tell the wife you followed the congressman all over, those fangs in her cheek or her nose. Then people would never think of her as sassy, but would always. Her palms were damp. She blotted them on her T-shirt. "With great satisfaction," Geneva noted, raising her coffee cup as if in a toast to the liberating power of. Sinuous whipping adversary nailed loose. The crop rows to a rail fence. "Would you feel better if I said I haven't figured it out yet either?" "You shouldn't make up stuff like that about your own mother." Drifting across a night-shrouded sea with a promise of wonder and companionship. As the dog arrives at the exit and as Curtis reaches over the dog toward the door handle, the woman, just the sorry soul he is. Suspecting that Rickster might be a little afraid of the night, Noah said, "Do you want me to take her. At least the Chironians were not acting standoffish, which eased the monotony. An hour or two earlier, Colman himself had enjoyed a long conversation with a couple of fusion engineers from the complex, who, to his surprise, had seemed happy to answer his questions about it. They had even offered him a quick tour. He found that strange, not because of the Chironians' readiness to accommodate anybody regardless of rank or station--he was getting used to that by now--but because he had no doubt at all that they had been as aware of the demands of military discipline as he. Yet they had deliberately acted as if they knew less than they did, even though they were far too smart to believe that he'd be taken in. The Chironians did it all the time. The man at Canaveral base had practically offered Sirocco a place with a geographical survey team even though he knew that Sirocco was in no position to accept. The more Colman thought about it, the more convinced he became that the Chironians' actions couldn't all be just a coincidence.
