Of innumerable sacred groves, caves, mountains, hills, springs, and stones on the Four Lands, the holiest place was a cavern and standing stones in the desert of Atuan, called the Tombs. It was a center of pilgrimage from the earliest recorded times, and the kings of Atuan and later of Hupun maintained a hostel there for all who came to worship. He thought what he must do, and how he must do it. He wasn't sure whether he had summoned her or she had come of her own will; he didn't know how she had spoken the word of the Old Tongue to him or through him. He didn't know what he was doing, or what she was doing, and he was almost certain that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such spells were a mere rumor among those who had taught him his sorcery, he summoned the woman in the stone tower. He was in fact a town boy, born in Gont Port. He had said nothing about himself, but Dulse had asked around a bit. The father, a longshoreman, had died in the big earthquake, when Silence would have been seven or eight; the mother was a cook at a waterfront inn. At twelve the boy had got into some kind of trouble, probably messing about with magic, and his mother had managed to prentice him to Elassen, a respectable sorcerer in Valmouth. There the boy had picked up his true name, and some skill in carpentry and farmwork, if not much else; and Elassen had had the generosity, after three years, to pay his passage to Roke. That was all Dulse knew about him. or island twice without years between, letting his trail grow cold. Even so he began to be spoken. known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own. understood as "people" or "human beings," alath. This word is by etymology (from the True Runes. If written down, spells are written in the True Runes, sometimes with some admixture of the Hardic runes. To write in the True Runes, as to speak the Old Speech, is to guarantee the truth of what one says-if one is human. Human beings cannot lie in that language. Dragons can; or so the dragons say; and if they are lying, does that not prove that what they say is true? "Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name. Nor he mine. I won't speak yours again. But I like to know it, since you know mine." you again I'd do you a favor, if I could. As one finder to the other, see? "If it's a real gift, an unusual capacity, that's even more true. A witch with her love potions. They are five against us," said the Herbal. Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hm. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one straggling after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?". The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary language. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. If the Old Speech is endless, so are the runes. who had been with him, Hound could not track: could not say whether he was under that hill with. in the summer weather, and Tern told Mote to put a bit of magewind into their sail, so that they. Dulse paused. "He was my master. Would have been my friend, perhaps, if I'd stayed on Roke. Have wizards friends? No more than they have wives, or sons, some would say.... Once he said to me that in our trade it's a lucky man who finds someone to talk to. Keep that in mind. If you're lucky, one day you'll have to open your mouth." seeing over a wide ledge of rock layered with sheets of mica, and under that ledge

There is real work to do," the Summoner said, and his voice too was like stone, cold and heavy. "When will we do it?".he fought against but could not shake off.
