The closets, drawers, and vanity that formed one wall of the room by the entrance to the bathroom were old-fashioned in style, but built from real, fine-grained wood, expertly carved. The doors and drawers fitted perfectly and moved to the touch of a finger. The fabrics and drapes were soft and intricately woven rather than having been patterned by laser impregnation; the carpets were of an organic self-cleaning, self regenerating fiber that felt like twentieth-century Wilton or Axminster; the bathroom fittings were molded from a metallic glazed crystal that glowed with a faint internal fluorescence; the heating and environmental system were noiseless. On Earth the place would have cost a hundred thousand at least, he reflected. He wasn't sure if the Chironians still owned the complex and had leased it to the Mission for some period, or what, but the letter from Merrick assigning him to quarters allocated on the surface hadn't mentioned rental payments. In his eagerness to get down from the Mayflower II, Falls, after some moments of hesitation, had decided not to ask. "Never you mind, Curtis," Donella says. "We're no more splat in the middle of Forrest Gump than we." Birth certificates," Micky suggested. "That would be proof. Where were you born? Where was Luki." No offense intended. "In one sense, the nearness of those searching for him doesn't matter. The likelihood of his being Jay was evidently developing a feel for Chironian directness. "We're kind of curious about the people inside," he said. "Especially my dad. It's funny that he wasn't told anything about it." No job. No prospects. No money in the bank. Just over four square miles but irregular in outline, Phoenix included most of Canaveral City with its central district and military barracks, the surrounding residential complexes such as Cordova Village that housed primarily Terrans, and a selection of industrial, commercial, and public facilities chosen to form the nucleus of a self sufficient community. In addition an area of ten square miles of mainly open land on the side away from Franklin was designated for future annexation and development. Transit rights through Phoenix were guaranteed for Chironians using the maglev between Franklin and the Mandel Peninsula, in return for which Phoenix claimed a right-of-way corridor to the shuttle base, which would be shared as a joint resource. Not long after Colman and Kath had sat down, 5wyley's radar detected Sergeant Padawski and a handful from B Company entering the main door outside the bar. They were talking loudly and seemed to be a little the worse for drink. Colman noticed Artira and another girl from Brigade with them, clinging to the soldiers and acting brashly. He shook his head despairingly, but it wasn't really his business. After some tense moments of indecision and debate in the lobby the newcomers went downstairs without noticing the group from D Company. Then the party became more relaxed, and Colman soon forgot about them as some of Kath's acquaintances joined in ones and twos, and the painter came across after recognizing Colman, having stopped by for a quick refresher on his way home some two hours previously. "Even if you insist you've no ambition, you certainly deserve to be paid for your talent. May I see that." They soon find out," Juanita said it as if it explained everything..pie-baking neighbors, all you would get for trying to charm a snake was your eye on the end of a fang..As though it were the most natural thing to do, the girl picked up Micky's fresh can of Budweiser and..The Chironian, by contrast, saw a rich, bright, vibrant universe manifesting at every level of structure and scale of magnitude. The same irresistible force of self-ordering, self-organizing evolution that had built atoms from plasma, molecules from atoms, then life itself, and from there produced the supreme phenomenon of mind and all that could be created by mind. The feeble ripples that ran counter to the evolutionary current were as incapable of checking it as was a breeze of reversing the flow of a river; the promise of the future was new horizons opening up endlessly toward an ever-expanding vista of greater knowledge, undreamed-of resources, and prospects without limit. Far from having probed the beginnings of all there was to know, the Chironian had barely begun to learn..The dog whines with hunger..The camera tilted up, panned right: A silver Jaguar approached through the early twilight. The car..for want of a better word... for a lot of things, anyhow." Nanook nodded. "Right. I do most of the time." Her name was Wendy Quail. New to the staff. He'd only met her once before, but he had a cop's. The specificity of the answer was disconcerting. Leilani's words struck a bell in Micky's mind, and she..impact predicted for noon Friday.. "Not interested?" He has a way with dogs, and this one is no exception. It nuzzles him and then, panting happily, leads him. Bernard frowned suddenly. "Yes, it is. And I didn't know about it." His concern intensified as the implications sank in. "Who are they?". protect the precious bottom that his mama once talcumed so lovingly.. "Suppose Stern gets into the Battle Module from the outside," someone else said. "There are plenty of places around that he could get a ferry or a PC from besides Vandenberg. He's only got to hop across a couple of miles. It wouldn't need a surface shuttle." Following a directive from Wellesley, Howard Kalens instructed Amery Farnhill to open an embassy in a small building at Canaveral which the Chironians obligingly agreed to vacate, having been about to move into larger premises elsewhere anyway. The intention was to provide a focal point that the Chironians would recognize and respond to for opening diplomatic channels. Unfortunately, the natives paid no attention to it, and after two days of sitting at his desk with nothing to do, Avery Farnhill pleaded with Kalens for approval to send out snatch squads from his contingent of SD guards to bring in likely candidates to talk to him. Kalens could only partly concur since he was under strict instructions from Wellesley. "If you can persuade them, then do it," he replied over the communications link from the Mayflower II. "A calculated degree of intimidation is acceptable, but on no account are they to use force. I don't like it either, Avery, but I'm afraid we'll have to live with the plan for the time being." to other than himself. Hell, it was like driving a Mercedes-Benz.. "I'm not sure it's enough," he worries, jamming his bankroll into his pocket again. "I need two bottles of." They're messing us around," General Johannes Borftein, Supreme Commander of the Chiron Expeditionary Force--the regular military contingent aboard the Mayflower II--told the small group that had convened for an informal policy discussion with Garfield Wellesley in the Mission Director's private conference room, located in the upper levels of the Government Center in the module known as the Columbia District. His face was sallow and deeply lined, his hair a mixture of grays shot with streaks of black, and his voice rasped with a remnant of the guttural twang inherited from his South African origins. "We've got two years to get this show organized, and they're playing games. We don't have the time. We haven't seen any evidence of a defense program down there.
