Do you remember that?".Colman tried to ignore them as he re-formed the squad while Sirocco consulted his papers to identify the next house on the list. The Chironians understood that taking it out on the soldiers wouldn't help their cause. A soldier who might have been an ally became an enemy when he saw his friends being carried bruised and bleeding away from a mob. Everything the Chironians did was designed to subtract from their enemies instead of add to them, and to whittle their opposition down to the hard core that lay at the center, which was all they had any quarrel with. He could see it; Sirocco could see it, and the men could see it. Why couldn't more of the Terrans see it too?".Aha" Merrick seemed more satisfied. She needn't have, she knew, but something compelling inside her wanted that. She knew also that it was Stern's way of forcing her to admit it to herself. The terms were now understood..She swallowed as she traced through her thoughts and, checked herself. She was rationalizing or hiding something from herself, she knew. Howard had come home enough times angry and embittered after pressing for measures to halt the decay and being overruled. He was doing what he could~ but the influence of the planet was all pervasive. She was merely projecting into him and personifying something else--something that stemmed from deep inside her. Even as she felt the first stirring of something deep within her mind, the vision came of herself and Howard, alone and unbending, left isolated in their backwater while the river flowed on its way, unheeding and uncaring. After twenty years, nothing lay ahead but emptiness and oblivion. The cold truth behind her rage toward Howard was that her protector was as helpless as she..She blotted her hands on her shorts..ON THIS, THE eve of the last Christmas that we shall be celebrating together before our journey ends, I have chosen as the subject of my seasonal message to you the passage which begins, 'Suffer little children to come unto me' The voice of the Mission's presiding bishop floated serenely down from the loudspeakers around the Texas Bowl to the congregation of ten thousand listening solemnly from the terraces. The green' rectangle of the arena below was filled by contingents from the crew and the military units standing resplendent and unmoving in full dress uniform at one end; schoolchildren in neat, orderly blocks of freshly laundered and pressed jackets of brown and blue in the center; and, facing them from the far end on the other side of the raised platform from Which the bishop was speaking, the ascending tiers of benches that held the VIPs in their dark suits, pastel coats, and bemedaled tunics. The voice continued. "You are certain that we could make the cover of Chiron safely?". "Now you're in a gang with a future.". "Oh, sure. . . I'm just saying there doesn't have to be anything to get scared about.". Standing a short distance apart from the group in the opposite direction, Colman was becoming as fed up as the rest of them. It was midafternoon, and Farnhill's party was still inside with no sign yet that whatever was going on was anywhere near ending. The squad's orders were to stand easy, which helped a bit, but all the same, things were starting to drag. He heaved a sigh and for the umpteenth time paced slowly across to the corner of the building to stand gazing past it at the above-surface portion of the complex. Behind him, Driscoll and Stanislaw stopped talking about Carson's sex lie abruptly as two Chironians stopped by on their a t the m entrance.. "I'm Francene, named after the ZZ Top song.". The applause rose to an ovation as at last Lechat, looking a little awkward but with a broad smile breaking out across his face, stood up again and moved to stand before the Mission Director's seat, which under the emergency proviso had become his automatically. Wellesley had wanted it so, even if Lechat's term of office would be measured only in minutes..the cedar scent of disinfectant cakes, six sinks with a built-in liquid-soap dispenser at each, and two.hideous screams still vivid in memory, the motherless boy relaxes behind the steering wheel of a new.Maddoc.".blacktop..On your way?" lean asked Pernak..Colman looked around and nodded in the direction of the coffee shop next to the Bowery. "Let's not stand around here all night," he said. "Come on inside. Could you use a coffee?". "Yeah, I heard that somewhere," Leilani replied, picking up her fork. "That's a strange offer," Otto said to Stern. "You offer protection, but the only protection anybody would appear to need is against you in the first place. After all, you've just told us that you hold all the weapons. You seem to entertain a curious notion of logic.". "Maybe. Who knows? Let's just hope there aren't too many of them in the Army.".Colman was about to make a joke Out of it when he realized they were serious. He knotted his brows and directed an inquiring look at each of them in turn..The inverted logic that had puzzled him had not been something peculiar to the military mind; it was just that the military mind was the only one he had ever really known. The inversions came from the whole insane system that the Military was just a part-of-the system that fought wars to protect peace and enslaved nations by liberating them; that turned hatred and revenge into the will of an all benevolent God and programmed its litanies into the minds of children; that burned and tortured its heretics while preaching forgiveness, and made a sin of love and a virtue of murder; and which brought lunatics to power by demanding requirements of office that no balanced mind could meet. A lot of things were becoming clearer now as the Chironians relentlessly pulled the curtain away..Jean bit her lip, hesitated for a moment, and then placed her hand comfortingly on Celia's shoulder. "You mustn't think like that," she urged. "You're trying to take all the guilt upon yourself and-".Sirocco frowned and rubbed his nose. "I'm not convinced. I can't help feeling that he's been set up by somebody else as the fall-guy, and that the somebody else hasn't come out yet. I think the Chironians believe that too.". "You've got your father's name," Geneva said hopefully. "If he could be found . . .".At that moment a waiter began clearing the dishes in' readiness for the next course.
