describable in familiar physical terms. There were grounds for supposing that if an expanding nodule of disentangled space and time were introduced arbitrarily through some mechanism'-pictured by some people as a bubble appearing in soda water, although this wasn't really accurate.-the reduced "pressure" inside the bubble would trigger the condensation of raw tweedlestuff out of "tweedlespace" as an explosion of tweedles and antitweedles, the tweedles preserving the "timelike" aspect, and the antitweedles the "antitimedlike" aspect of the timeless domain from which they originated. Their mutual affinity would precipitate their combination into a dense photon fluid in which timelessness became reestablished, which tied in with Relativity by explaining why time stood still, for moving photons and accounting for the strange connection in the perceived universe between the rate at which time flowed and the speed of light. The high-energy conditions of the Primordial photon fluid, the density of which would have approximated that of the atomic nucleus, would favor the formation of "tweeples" entities to give rise to matter interacting under conditions dominated by the strong nuclear force, which manifested itself to restore nonAbelian gauge symmetry with respect to the variance introduced by the separation of space and time. She looked up as Howard came out of the home. Her expression did not change. Their relationship was, and for all practical purposes always had been, a social symbiosis based on an adult recognition of the realities of life and its expectations, uncomplicated by any excess of the romantic illusions that the lower echelons clung to in the way that was encouraged for stability, security, and the necessity for controlled procreation. Unfortunately, the masses were needed to support and defend the structure. Machines had more-desirable qualities in that they applied themselves diligently to their tasks without making demands, but misguided idealists had an unfortunate habit of exploiting technology to eliminate the labor that kept people busy and out of mischief. Too, the idealists would teach them how to think. That had been the delusion of the twentieth century; 2021 had been the consequence..Otto smiled humorlessly.
