"The whole village together couldn't change that!" she said, and laughed. It was all right, then, though the word "change" rang and

rang in his head.. "Oh, no, you're not, Master Otak. While you were out in the east range a sorcerer curer came by, a fellow that's been here before, from the south coast, and so San hired him. You work for me and you'll be paid well. Better than copper, maybe, if the beasts fare well!" "A woman," said the Master Summoner.. No wind stirred. The air was soft, the big sail hung slack. Only the western stars faded and vanished in a silent blackness that rose slowly higher. The master looked at that. "Witchwind, you say?" he asked, reluctant.. side of the long swells. Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore.. "But. . . where is the Inner Circle?". The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove, for though the raiders had run through it seeking slaves and plunder and setting fires, the fires had gone out and the narrow streets had sent the marauders astray. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now.. the very emblem of their happiness. They tried to make her stay and eat supper with them, but she.. asked about boat-building, and he told her and showed her what he could. It was a peaceful.. "You're there in the water, together, you and the child. You take away the child-name. People may." "The Hound serves Losen," he said. "I'll go today.".. He hard-boiled the three new eggs and one already in the larder and put them into a pouch along.. "She spoke with the other breath," Azver said.. He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. This man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not get out of it yet. He drowsed a while, drifting away from Irioth.. was high time to go back and find out what was going on now.. The witch emerged with a soapstone drop-spindle and a ball of greasy wool. She sat down on the bench beside her door and set the spindle turning. She had spun a yard of grey-brown yarn before she answered.. The weather was fair for once: a following wind, a blue sky lively with little white clouds, the mild sunlight of late spring. They made good way from Geath. Late in the afternoon he heard the master say to the helmsman, "Keep her south tonight so we don't raise Roke.".. "There," Anieb said. She pointed at the mountain and smiled. She looked at her companion, then.. Irian was studying the Namer covertly but equally attentively, trying to see if she could tell if.. He made the sign; she looked at him for a moment. "That's easy," she said softly, and made the sign in return, "but not always safe, among strangers.".. In the Archipelago, men built ships and women built houses, that was the custom; but in building a great structure women let men work with them, not having the miners' superstitions that kept men out of the mines, or the shipwrights' that forbade women to watch a keel laid. So both men and women of great power raised the Great House on Roke. Its cornerstone was set on a hilltop above Thwil Town, near the Grove and looking to the Knoll. Its walls were built not only of stone and wood, but founded deep on magic and made strong with spells.. "Anieb," he said.. careful hand. Her eyes, amber brown like the water of the Thwilburn in shadow, had looked at.. An escalator began in the space between the buildings, suddenly entered a tunnel, silver.. mirrors glittered, but everything was deserted. At the very end of the mall, in the darkness.. pale blotches of faces; there was something like a balcony up there. Blinded by the light, I could.. She began to laugh; she was convulsed with laughter. Then suddenly she broke off.. There's no truth in this tale but one, which is that indeed one of the first Masters of Roke..
