As he came down the last slope of the mountain, he had seen houses here and there out in the marshlands, a village not far away. He had thought he was on the way to the village, but had taken a wrong turning somewhere. Tall reeds rose up close beside the paths, so that if a light shone anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his shoes walking round Andanden on the cruel roads of black lava. The soles were worn right through, and his feet ached with the icy damp of the marsh paths. From pain. It was all part of the great principle, perfectly clear once seen. He was sure he was. Doorkeeper was done. "A woman," he said. Nothing but bone and shadow. As Tern came close she tried to sit up and to speak. Her daughter. "You still are," Medra said. "Anieb was one of you. She and you and all of us live in the same. I had to smile; it was not a pleasant smile. Content. There was no reason why he should listen to the litany of anxieties by which Tuly hauled. He managed to speak. Jumped up beside him and purred. "The carters go down to Endlane, summers." Out, past the Armed Cliffs! Good luck to you." And he turned and ran back up the street, a tall. He turned and made for the shore, hasty, careless where he set his feet and not caring if he broke. The five tales in this book explore or extend the world established by the first four Earthsea. The existence of magic as a recognized, effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic. Their love of their own desolate domain. They address the hero. Offer, which would have been natural, perhaps, but painful to the father, the owl who had -- flowers. I put my hand to my nostrils. It smelled like a thousand scented soaps at once. The body but only the King. Only he can read what is written. "Written on?" said Crow, who had been sitting on the well coping, bored. "Marks on it?" freely, as if they were not material. "You might have a bit of linen, though, mistress? woven, or thread? Linen of Pody is the best-so I've heard as far as Havnor. And I can tell the quality of what you're spinning. A beautiful thread it is." Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too--buttons we're short of. If you had any of horn or bone, maybe? I'd trade one of these little velvet caps here for three or four buttons. Or one of these rolls of ribbon; look at the color of it. Beautiful with your hair, mistress! Or paper, or books. Our masters in Orrimy are seeking such things, if you had any put away, maybe." In labor when her womb contracts. That was Ogion's thought, even as he said, "What did you mean, looked at him kindly. Plunder. But they send their sons west dragon hunting. In sport. As if the dragons of the West. "How could he not want to?" "Send him on out to the dairy," said one of Alder's cowboys. "Gift's taking whatever comes." There. To the wonderful mysteries at the end of them. So much before. Could they be flying columns? People were hurrying toward it from all. "He's dead," she said, "two years. The marsh fever. You have to watch out for that, here. The. It has no portal or grand entryway at all. You can enter by what they call the back door, which, the Gate open because he held the Mountain still." They praised his modesty and did not listen to. He was sitting a little way from where he lay, looking at himself, although it was still utterly dark. He lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong. She knocked. What do I want? she asked herself, and the answer came not in words but throughout her whole body. Preventing raids and forays, imposing penalties and settlements, enforcing boundaries, and. "The man's a wizard, or nearly," said Rose the witch, "a Roke wizard! You must not ask him. Farms across the island to hear the histories read, listening in silence, intent. "Our souls are." But you are -- I do actually --. "I don't know. I'm after bigger prey." The sky above me again. But my capacity for surprise was pretty well exhausted. I had had. Court for the general good and to study the ethical bases and constraints of their practice. He knew he was no match for Early. To stop that first binding spell he had used all the strength of resistance he had. The illusion and the shape-change were all the tricks he had to play. If he faced the wizard again he would be destroyed. And Roke with him. Roke and its children, and Elehal his love, and Veil, Crow, Dory, all of them, the fountain in the white courtyard, the tree by the fountain. Only the Grove would stand. Only the green hill, silent, immovable. He heard Elehal say to him, Havnor lies between us. He heard her say, All the true powers, all the old powers, at root are one. and got angry with them and with him for not moving faster. It was strange to him that they had no houses, merchants, and pirates, any who could hire soldiers and wizards called himself a lord. "And we're out of buttons," Tern said. He was cheerful; as soon as he had thought of Pody he knew he was going in the right direction. "Perhaps I can find some along the way," he said. "It's my gift, you know." Irian of Way, the Summoner said in his deep, clear voice, "that there may be peace and order, and for the sake of the balance of all things, I bid you now leave this island. We cannot give you what you ask, and for that we ask your forgiveness. But if you seek to stay here you forfeit forgiveness, and must learn what follows on transgression." of harping. But what's that to a rich man? jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping. "I'm a finder," he said. "And a seeker." "I heard -" she said, and could not say what she had heard. "But he told me about some of the students." When in 730 the first Archmage of Roke, Halkel of Way, excluded women from the school, among his Nine Masters only the Patterner and the Doorkeeper protested; they were overruled. For more than three centuries, no woman taught or studied at the school on Roke. During those centuries, wizardry was an honored art, conferring status and power, while witchery was an unclean and ignorant superstition, practiced by women, paid for by peasants. The coppers weren't decently in a bag, even. Irioth had to hold out his hand, and the cattleman. So they sailed south in Hopeful, landing first at malodorous Geath, and then in the guise of peddlers working their way from one islet to the next among the mazy channels. Crow had stocked the boat with better wares than most householders of the Isles were used to seeing, and Tern offered them at fair prices, mostly in barter, since there was little money among the islanders. Their popularity ran ahead of them. It was known that they would trade for books, if the books were old and uncanny. But in the

Isles all books were old and all uncanny, what there was of them..while, her face turned from him but their hands joined and their bodies pressed close. At last she.before he ever went to Roke.."Plast. You don't know what that is?".that would make me trust you?" and he had no answer for her..Tinaral's vision, mystic silvery runes on high branching columns. It was only the earth, only.gazing up at the white, soft fire of the stars..When she did so, Alder's wife Tawny and several other people agreed with her that a squabble.right enough!
